Fo the " heat Growers, Cotton and Corn Plane ters of North Carolina. THE undersigned will the coming autumn, take meas ures to attract a more extensive enquiry into the vaiue and merits of his chemical compound, than he has heretofore done, in your state. They have been tried to a moderate extent by several planters of North Carolina, and as far as he has understood, with decided approval In other States it has commended an attention and use, subordinate to neither Pdrávian Guano, or any other manure. It has been recommended as the best cotton and corn manare known to tais age, by the distinguished State Chamist of Maryland, Dr. Higgins. It is not infeior as a fertilizer of wheat, and second only to lime, as a perminent and durable improver of the soil. Lands it Maryland that have been bought at \$10 pc. by the use of Guano and Saits, in these than four readily commanded \$50 per acre, with a yearly large

and profitable crop. The undersigned is anxious that the agriculturas or North Carolina should extend the experiments they have made of his fertilizers, and if upon trial they prove inethcient, he invites them to express their disapproval through the public prints; and if attended with expense he wil. defray it, but if upon the contrary, they should prove meritorious, advance the public good-increase your agricultural products-and renovate worn out and impovershe I soil; then will be hope for your patronage, and ony so far as experience proves it to be to your interest. He respectfully asks your consideration and attention to the following letter, written by one of the most enter prising and accomplished planters of Maryland-among the first in intelligence and position of that band of practical and intellectual agriculturists of Maryland, who by their teaching and example have revolutionised the appearance and changed the agricultural destiny of that State. Without consulting him, I can venture to say he will cheerfolly give the further information that may be asked, by directing to the Hon. W. W. W. Bowe, Old Fields, Prince George's county, Maryland.

Col. Bowie used the Guane and Salts half and half: Peruvian Guano, (best) + Chemical Salts 10 per ton. 85 Chemical Salts, or Renovator, 25 HENRY NUTT, Esq.,

Sole Agent for North Carolina:

JOHN KETTLEWELL, Baltimore Md. August 14th, 1855. MR. JOHN KETTLEWELL:-My Dear Sir:-It affords me great pleasure to inform you that the fertiliser prepared by you and furnished me last fall, met my most san guine expectations. I tried it side by side with Peruvia. Guano, on wheat sown in land that was poor and stifl. and and a north western exposure, had been many years n cultivation, much nourished with manures and never brought a decent crop until this year, which I effected by the application of 300 lbs Peravian Guano on part. and 200 lbs of your mixture on the other part. The wheat was sown late last November and was a fine crop Where the fertiliser was applied, the wheat was better than any where else in the field. My best regards to

your brother. Believe me yours truly, W. W. W. BOWIE. P. S. Your fertiliser I consider on my land fully equal to best Peruvian Guano. Indeed, 200 lbs has yieled on same sort of land, more wheat than 300 locof best Peruvian Guano, after 200 lbs of Mexican pplied in the spring of same year.
