ing, (Wednesday,) at 8 o'clock, for the purpose of appointing delegates to attend the District Convention which will meet in this town on the 10th of June, to select a suitable person as Elector for the District.

### Noble Sentiments.

If any thing could endear John A. Gilmer to the hearts of the people of North Carolina, it is his unselfish devotion to the best interests of the whole State. A liberal man, he has always encouraged, in private and in public, those enterprises, come from what quarter they might, which looked to the advancement of the honor and prosperity of the commonwealth. In this he was not fettered by party, or bound by the chains of sectional prejudice. He has always risen superior to these considerations. It was enough for him if the measure proposed betokened in its future results, assistance in the development of the agricultural, mineral and mechanical wealth of our common mother. If it did this, no warmer friend could it rally to its support than John A. Gilmer. He was ready, with cheering words and votes, to aid it on, to stand by it, until the passage of the measure through the ordinary modes of legislation.

We say it to Mr. Gilmer's praise, that his record on subjects like these, during his long legislative career, is a brilliant one; it affords evidences of a liberality and comprehensive idea of the whole scope of internal improvements, of which any man might be proud. While Mr. Bragg, his opponent, in common with the Democratic party, has been forced by the pressure of public opinion to change an attitude of lukewarm and negative support, Mr. Gilmer can preciate them. They should know who it was that quets, and all is couleur de rose. stood by them when doubt and opposition threatened them with defeat, who have borne the burden and heat of the day; and they should also know the eleventh hour men who came over reluctantly to their support only when opposition was found to be in a wretched minority; and they were running a Don Quixotte tilt in the very teeth of a universal popularity. We have just read a speech on internal improvements, delivered in the Senate by Mr. Gilmer, in December, 1852, and we have been so much pleased with the concluding passages, that we could not refrain from spreading them before our readers. We make no apology for the space they occupy, for they breathe the sentiments of a noble mind. We commend them to the calm consideration of men of all parties, and we would ask if he who uttered these eloquent words is not well fit to be the Governor of this proud State : Sir, the people of North Carolina are more intelligent than they are represented to be in our legis lative halls; and, sir, the popular heart and instincts, educated or not, are oftener just and liberal than otherwise. For one I will trust the people ; and if we would all do it-if we would pass this bill by common consent and go home and throw ourselves on the generosity and discrimination of the public, fighting for and upholding each other, we would overwhelm all opposition. For one, sir, I would try it. I boast not of courage, but when conscious that I am right I know not what it is to fear. I am willing to make this experiment-to sink or swim, live or die, politicallyin one great struggle to redeem North Carolina. And, sir, in this I would know no party. would be willing to lay aside all party feelingsstrong partizan as I am-to forget the names of Whig and Democrat-devoted Whig as I am-and coalescing, fraternizing with my brethren on the other side of this chamber, form a new party and devote myself to it-a party of North Carolinians -a party devoted to the interests of our own State -to the interests of our people-to the honor and welfare of our children-a party opposed to all parties-a party to rescue North Carolina from dishonor and poverty, and rags, and to clothe her in purple and soft raiment, and place her high before the world as worthy of its respect, and worthy of the affection and veneration and devotion of all her And, Mr. Speaker, I can forget section in this al so-sectional prejudice, that most baneful of all the feelings of the human heart, next to fanaticism ; and, like fanaticism, it springs from a good causeit is a perverted virtue, a noble sentiment run mad. -Its ravings have ever disturbed our legislative halls-it utters its wild and fierce curses on all our

Only a few papers by this morning's mail, and nothing of interest in them. Looking out of the window in desperate search for an item; we see quite a number of trees-large trees, small trees, full of leaves and branches, and all standing out in the warm sunshine. They are very green. Away off towards the ocean, they are swayed by a more cooling and genial breeze than comes in at the open casement, and birds are playing and singing in their tops. These birds are funny fellows-great fillibusters, go in for the largest liberty, eat the cherries and other vegetables out of people's gardens without hesitation, and with great appetite, sing at each other during the day, and go to sleep at night A meeting of the Fillmore in the branches hereabouts. But, looking at the on one leg. There are a few of them perched up

town trees, we are not reminded very forcibly of the wealth of foliage of the forest, of feathered songsters, of grateful shade, and purling brooks that go meandering musically over pebbly bottoms; but we are reminded that these trees stand in front and near to various houses of all styles and dimensions, occupied by various people as different in appear ance, habit, thought and life as the houses they live in. And the idea comes up that it would not be unprofitable if one, Asmodeus-like, could look through the roofs of these houses and see what is going on therein this pleasant May morning. It would be a scene of human life better than a pano-

Distress is in this house. Death has laid his skeleton foot on the threshold, and "the silver cord is loosed and the golden bowl is broken." The undertaker has been here, and the funeral train has marched out, leaving gloom and desolation behind. It is a recent bereavement, and the blow has fallen with stunning effect. There are no smiles or laughing words, no noise; but the memory of the dead remains, and the mourners trust that they will meet the departed again in a land far away, where no tears are shed, no desolation enters.

There are great times coming in this mansion. There's to be a wedding to-night, and the house is in a swivet. The bride and the bride's mother are full of excitement, and Bridget and Nancy are wild to see reduces so materially their own chances for with joy and work. Tommy hasn't gone to school to-day, and he lingers about the place where the good things are safely deposited, peeps through the key-hole and wants some. There is no sorrow there, but the air seems loaded with the perfume of flowers. The old gentleman who is "to give her away" in the ed evening, with a firm resolution, but slightly tremudirect hostility to schemes of this character into a lous voice, has gone down town, while Dorothea, The harangues of a demagogue are harmless if there who has been deluded into the idea that she is neproudly point to his acts and votes as illustrative of cessary to Alfonso's happiness, wishes it was his position. In the very nature of things a party which relies upon foreign voters for success must enunciate principles and advocate measures hostile to the institution of slavery. The foreign hack driver, drayman, ditcher, or hod-carrier, has no desire to compete for his wages with the negro. Even the Irish chamber maid looks with jealousy upon the employment of negro girls in our hoemployment; and it is here, at the base of society, where a wise politician ought to look for the seeds of principles which sooner or later control the destinies of a nation.
