

Inhalation in Consumption.

Bronchitis, Laryngitis and other Diseases of the Chest and Throat, successfully treated by the Inhalation of Medicated Vapors and Powders, by Absorption and continual treatment, as practiced at the "Stuyvesant Medical Institute," New York City. Diseases of the Heart, Liver, Female Complaints, Dyspepsia, Venereal Affections, and Chronic Diseases generally, will receive the attention of the Physicians, to whom such may have been especially entrusted.

The unprecedented success which has attended this method of treating diseases of the Lungs and Throat has induced us to depart from our usual course, and avail ourselves of the Press, in order to bring it to the knowledge of such as may be laboring under, or predisposed to such affections.

The dawn of a brighter day has at length arrived for the Consumptive. The doctrine of the incurability of Consumption has at length passed away. We have indubitable proofs in our possession, that Consumption in all its stages can be cured; in the first, by tubercular absorption; in the second, by the transformation of tubercle into chalky and calcareous concretions; in the third by cicatrises or scars. Those wedded to the past, may assert, that even now Consumption is incurable; such are behind the age. To all, this great truth must be apparent, viz: that medicines inhaled in the form of Vapor or Powder directly into the Lungs, must be much more effective than that taken into the Stomach where the disease does not exist. The advantages derived from Inhalation in the treatment of Consumption and Throat diseases, are, that medicines in the form of Vapors are applied directly to the lungs, where the disease exists; the stomach being left free to aid in restoring health; by administering to it, healthy, life-giving food. There is no case so hopeless that Inhalation will not reach; the means, too, are brought within the reach of all, the manner of administering the Vapors being so simple, that the invalid is never required to leave home, where the hands of friendship and affection tend to aid so much the Physician's efforts. I earnestly appeal to the intelligence of all afflicted with diseases, or who may have the germs of the disease within them, to embrace at once the advantages of inhalation, and no longer waste precious time in applying nostrums to the unoffending stomach. I claim for Inhalation a place amongst the precious gifts that Nature and Art have given us, that "our days may be long in the land," and as the only "ARK OF REFUGE" for the Consumptive; a method not only RATIONAL BUT SIMPLE, SAFE, AND EFFICIENT.

Such of the profession that have adopted Inhalation, have found it efficacious in the highest degree, arresting the progress of the disease, and working wonders in many desperate cases; in verity, a triumph of our Art, over this fell destroyer of our species.

Physicians wishing to make themselves acquainted with this practice, are informed, that our time being valuable, we can only reply, as to ingredients used, to such letters that contain a fee. The fee in all cases of Pulmonary affections, will be \$10, on receipt of which, the necessary medicines and instrument will be forwarded. The fee in other cases, will be from \$5 to \$10.

Applicants will state age, sex, occupation, married or single, how long affected, if any hereditary disease exists in the family, and symptoms generally. Let the name, town, and State, be plainly written. Postage for return answers must be enclosed. Letters when registered by the Postmaster are at our risk. All letters must be addressed, WALLACE MERTOUN, M. D. aug. 2.—6mcl. S. M. Institute, N. Y. City.

The Greatest Medical Discovery of the Age!

DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR; from the worst Scrofula down to a common pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor). He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston. Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of Pimples on the face. Two to three bottles will clear the system of Biles. Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas. One to two bottles are warranted to cure all humor in the Eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair. Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin. Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism. Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of scrofula. A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that I sold another: after a trial it always speaks for itself. There are two things about this herb that appears to me surprising; first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known, until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicine was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get and enough of it.

DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years desert spoonful—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

Manufactured by DONALD KENNEDY, No. 120 Warren Street, Roxbury, Mass. Sold in Wilmington, N. C., by A. O. BRADLEY, Druggist, &c., sept 5-lyr-c.

LEARY'S, BEEBES', GENINS' & the TRADE styles of Dress Hats, for Fall and Winter wear are now open at the Hat and Cap Emporium. SHEPARD & MYERS. sept 6.

Notice. THE COPARTNERSHIP heretofore existing between CALEB B. HOBSON & CURTIS C. OATES, was dissolved on the 19th inst., by mutual consent. The outstanding business of the late firm, will be settled by C. B. HOBSON, to whom the indebted will please make immediate payment. CURTIS C. OATES. Warsaw, July 19.] 739-1y

BY THE withdrawal of Mr. CURTIS C. OATES, the business heretofore existing between HOBSON & OATES, will be continued from this date by the undersigned at the same place, where he will be glad to receive his friends and endeavor to give full satisfaction to all customers. C. B. HOBSON. Warsaw, July 25.

THE "Ceylon" Hat. PARTICULAR ATTENTION is called to our entirely new style of STRAW HAT, imported from Canton, China, combining all the qualities requisite to make the Straw Hat in every way suitable for Summer wear—the crown being of sufficient height to give room to the head, and the brim wide enough to protect the face from the sun. It acts as a self-ventilator, and is more durable than any Straw Hat ever before introduced. Rain or damp weather will not affect its shape, being so braided as to prevent the possibility in any way.

We offer this entirely new style, believing it to be the first and only Straw Hat ever introduced, which will really give the wearer satisfaction. A sample case now open at the Hat and Cap Emporium. SHEPARD & MYERS. June 4.
