Inhalation in Consumption. Bronchitis, Laryngites and other Diseases of the Chest and Throat, successfully treated by the Inhalation of Medicated Vapors and Powders, by Absorption and conti anal treatment, as practiced at the "Stuyvesant Medcal Institute," New York City. Diseases of the Heart orders for Liver, Female Complaints, Dyspepsia, Venereal Affecious, and Chronic Diseases generally, will receive the attention of the Physicians, to whom such may have

been speecially entrusted. The unprecedented success which has attended this method of treating diseases of the Lungs and Throat, has induced us to depart from our usual course, and avail ourselves of the Press, in order to bring it to the knowledge of such as may be laboring under, or predisposed

to such affections.

The dawn of a brighter day has at length arrived for the Consumptive. The doctrine of the incurability of Consumption has at length passed away. We have indubitable proofs in our possession, that Consumption in all its stages can be cured; in the first, by tubercular absorption; in the second, by the transformation of tuborcule into chalky and calcareous concretions; in the third by cicatrices or scars. Those wedded to the past, may assert, that even now Consumption is incurable; such are behind the age. To all, this great truth must of all orders, the public may rest satisfied that any wor be apparent, viz : that medicines inhaled in the form of which may offer will be promptly delivered according to Vapor or Powder directly into the Lungs, must be much promise, and of such workmanship as cannot fail to more effectual than that taken into the Stomach where give satisfaction. the disease does not exist. There is no case so hopeless that Inhalation will not reach; the means, too are brought within the reach of all, the manner of administering the Vapors being so ous to any person needing such to give me the prefersimple, that the invalid is never required to leave home, ence without regard to expense of sending some from a the hands of friendship and affection tend to aid distance. the intelligence of all afflicted with diseases, or who may he to the germs of the disease within them, to embrace to once the advantages of inhalation, and no longer waste recious time in applying nostrums to the unoffending stomach. I claim for Inhalation a place amongst the precious gifts that Nature and Art have given us, that "our days may be long in the land," and as the only "ARE OF REFUGE" for the Consumptive; a method not only RATIONAL BUT SIMPLE, SAFE, AND EFFICIENT.

Such of the profession that have adopted Inhalation, have found it efficacious in the highest degree, arresting the progress of the disease, and working wonders in many desperate cases; in verity, a triumph of our Art, over this fell destroyer of our species.

Nore .- Physicians wishing to make themselves acquainted with this practice, are informed, that our time being valuable, we can only reply, as to ingredients used, to such letters that contain a fee. The fee in all cases of Pulmonary affections, will be \$10, on receipt of which, the necessary medicines and instrument will be forwarded. The fee in other cases, will be from \$5 to
