Inhalation in Consumption.

VOL. III.---NO. 220.

Bronchitis, Laryngites and other Diseases of the Chest and Throat, successfully treated by the Inhalation of Medicated Vapors and Powders, by Absorption and con-linual treatment, as practiced at the "Stuyvesant Medcal Institute," New York City. Diseases of the Heart orders for Liver, Female Complaints, Dyspepsia, Venereal Affections, and Chronic Diseases generally, will receive the attention of the Physicians, to whom such may have been speecially entrusted.

The unprecedented success which has attended this method of treating treases of the Lungs and Throat, has induced us to depart from our usual course, and avail ourselves of the Press, in order to bring it to the knowledge of such as may be laboring under, or predisposed to such affections.

The dawn of a brighter day has at length arrived for the Consumptive. The doctrine of the incurability of Consumption has at length passed away. We have indubitable proofs in our possession, that Consumption in all its stages can be cured ; in the first, by tubercular absorption; in the second, by the transformation of tubercule into chalky and calcareous concretions; in the third by cicatric of or scars. Those wedded to the past, muy ussert, that even now Consumption is incurable; such are behind the age. To all, this great truth must be apparent, viz : that medicines inhaled in the form of-Vapor or Powder directly into the Lungs, must be much more effectual than that taken into the Stomach where the disease does not exist. The advantages derived from Inhalation in the treatment of Consumption and health, by administering to it, healthy, life-giving food. the interest of all in want to send me their orders. There is no case so hopeless that Inhalation will not reach; the means, too are brought within the reach of all, the simple, that the invalid is never required to leave home, will go the hands of friendship and affection tend to aid distance. so much the Physician's efforts. I carnestly appeal to the intelligence of all afflicted with diseases, or who may Wilmington, N. I claim for Inhalation a place amongst the only RATIONAL BUT SIMPLE, SAFE, AND EFFICIENT.

Such of the profession that have adopted Inhalation, have found it efficacious in the highest degree, arresting the progress of the disease, and working wonders in many desperate cases; in verity, a triumph of our Art, over this fell destroyer of our species. Norg .- Physicians wishing to make themselves acquainted with this practice, are informed, that our time being valuable, we can only reply, as to ingredients used, to such letters that contain a fee. The fee in all cases of Pulmonary affections, will be \$10, on receipt of which, the necessary medicines and instrument will be forwarled. The fee in other cases, will be from \$5 to \$10. Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicine was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors-but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits-a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady-there are but few who have THESE CELEBRATED MACHINES are in practi- seen more of it than I have.

I know of several cases of Dropsy, all of them aged cople cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary-eat the best you can get and enough of it.
