Inhalation in Consumption.

Bronchitis, Laryngites and other Diseases of the Chest al Throat, successfully treated by the Inhalation of Welleated Vapors and Powders, by Absorption and contianul treatment, as practiced at the "Stuyvesant Medcal Institute," New York City. Diseases of the Heart orders for Liver, Female Complaints, Dyspepsia, Venereal Affections, and Chronic Diseases generally, will receive the strention of the Physicians, to whom such may have

been speacially entrusted. The unprecedented success which has attended this method of treating diseases of the Lungs and Threat, has induced us to depart from our usual course, and avail ourselves of the Press, in order to bring it to the knowllige of such as may be laboring under, or predisposed to such affections.

The dawn of a brighter day has at length arrived for the Consumptive The doctrine of the incurability of Consumption has at length passed away. We have indubitable proofs in our possession, that Consumption in all its stages can be cured; in the first, by tubercular absorption; in the second, by the transformation of tubercule into chalky and calcareous concretions; in the third by cicatrices or scars. Those wedded to the past, in iv assert, that even now Consumption is incurable; anch are behind the age. To all, this great truth must of all orders, the public may rest satisfied that any wor be apparent, viz : that medicines inhaled in the form of which may offer will be promptly delivered according to Vapor or Powder directly into the Lungs, must be much promise, and of such workmanship as cannot fail to more effectual than that taken into the Stomach where the disease does not exist. The advantages derived from Inhalation in the treatment of Consumption and of talents and experience, I have no hesitation in say-Throat diseases, are, that medicines in the form of Va- ing that the work hereafter turned out, shall compare port are applied directly to the lungs, where the disease favorably in every respect with that of the most celebrahealth, by a laministering to it, healthy, life-giving food. the interest of all in want to send me their orders. There is no case so hopeless that Inhalation will not reach; the means, too are brought within the reach of simple, that the invalid is never required to leave home, where the hands of friendship and affection tend to aid distance. and the Physician's efforts. I carnestly appeal to in melligence of all afflicted with diseases, or who may to the germs of the disease within them, to embrace the advantages of inhalation, and no longer waste recious time in applying nostrums to the unoffending I claim for Inhalation a place amongst the precious gifts that Nature and Art have given us, that 'our days may be long in the land," and as the only ARE OF REFUGE" for the Consumptive; a method not

only RATIONAL BUT SIMPLE, SAFE, AND EFFICIENT. Such of the profession that have adopted Inhalation, have found it efficacious in the highest degree, arresting the progress of the disease, and working wonders in many desperate cases; in verity, a triumph of our Art, over this fell destroyer of our species.

ELIEVING that the Public have become tired of D purchasing Pickles in Packages, helding in many cases, fifty per cent. less than represented, we have commenced putting up, in addition to our present second size jar, an article which we are labeling "WM. UNDER. WOOD & CO'S, EXTRA PICKLES," and are filling in to full sized jars, which are legibly stamped in the glass, WILMINGTON MARBLE & STONE YARD. with their exact contents in ounces—thus enabling the

> These Extra Pickles are put up with every regard to style, quality and flavor, and will be sold at fairly remunerating prices.

> We have made no change in our manner of Greeuing Pickles, never having resorted to any deleterious means to attain this end. The Cider Vinegar which we use is made from sound fruit, and is entirely free from Vitriol or any other mineral acid, which is not the case with that used in most brands of English Pickles found in this country.
