WHOLE NO. 847

Inhalation in Consumption.

Tracheitis, Bronchitis and other Diseases of the Chest and Throat, successfully treated by the Inhalation of Volatile Vapors and Powders, by Absorption and General Treatment, as practiced at the "Stuyvesant Central Institute," New York City. Diseases of the Heart, Liver, Female Complaints, Dyspepsia, Venereal Affections, and Chronic Diseases generally, will receive the attention of the Physicians, to whom such may have been especially entrusted.

The unprecedented success which has attended this method of treating diseases of the Lungs and Throat, has induced us to depart from our usual course, and avail ourselves of the Press, in order to bring it to the knowledge of such as may be laboring under, or predisposed to such affections.

The dawn of a brighter day has at length arrived for Consumption. The doctrine of the incurability of this fatal disease is now a thing of the past. We have incontrovertible proofs in our possession, that Consumption in all its stages can be cured; in the first, by tubercular absorption; in the second, by the transformation of tubercle into chalky and calcareous concretions; in the third by electricity or scars. Those wedded to the past, may as well be dead. It is a fatal disease, and one that often kills before it is recognized. To all this, great truth must be apparent, viz: that medicines inhaled in the form of Vapors or Powders directly into the Lungs, must be much more effectual than that taken into the Stomach where the disease does not exist. The advantages derived from Inhalation in the treatment of Consumption and Throat Diseases, are, that medicines in the form of Vapors are applied directly to the lungs, where the disease exists, the stomach being left free to aid in restoring health, by administering to it, healthy, life-giving food. There is no case so hopeless that Inhalation will not reach the disease, and a cure brought within the reach of all. The quantity of Vapors being so small, that the patient is never required to leave home, and the hands of friendship and affection tend to aid in the Physician's efforts. I earnestly appeal to all afflicted with this disease, or who may be the germ of the disease within them, to embrace the advantages of Inhalation, and no longer waste precious time in applying nostrums to the unoffending stomach. I claim for Inhalation a place amongst the precious gifts that Nature and Art have given us, that "good days may be long in the land," and as the only "Aureo Receptum" for the Consumptive; a method not only rational but simple, safe, and efficient.

Such of the profession that have adopted Inhalation, have found its efficacy in the highest degree, arresting the progress of the disease, and working wonders in many desperate cases; in verity, a triumph of our Art, over this fell destroyer of our species.

Verily—Physicians wishing to make themselves acquainted with this practice, are informed, that our time being valuable, we can only reply, as to ingredients used, to such letters that contain a fee. The fee in all cases of Pulmonary affections, will be \$10, on receipt of which, the necessary medicines and instrument will be forwarded. The fee in other cases, will be from \$5 to \$10.

Applicants will state age, sex, occupation, married or single, how long afflicted, if any hereditary disease exists in the family, and symptoms generally. Let the name, town, and State, be plainly written. Postage for return answers is not enclosed. Letters when registered by the Postmaster are at our risk. All letters must be addressed, WALLACE MERTOUN, M. D., No. 54, Nassau St., N. Y. City.

Singer's Sewing Machines. THESE CELEBRATED MACHINES are in practical and profitable use in all parts of the world. In all various trades, and in sewing every sort of fabrics, either cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but **SINGER'S MACHINES ALWAYS OPERATE PERFECTLY,** being strong, durable and complete in contrivance and workmanship. A perfect sewing machine kept employed affords a clear profit of \$1,000 a year; but an imperfect one is a cause of constant vexation and loss. The entire RELIABILITY of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING. Of a frail delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

New machines of the latest improved style will be exchanged on liberal terms for old sewing machines of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines. **S. H.**—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "S. H. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis. **I. M. SINGER & CO.** Principal Office, 223 Broadway, New York.

These Extra Pickles are put up with every regard to style, quality and flavor, and will be sold at fairly remunerating prices. We have made no change in our manner of Greening Pickles, never having resorted to any deleterious means to attain this end. The Older Vinegar which we use is made from sound fruit, and is entirely free from Vitriol or any other mineral acid, which is not the case with that used in most brands of English Pickles found in this country. **WILLIAM UNDERWOOD & CO.** Nov 6-3mc. 67 Broad St., Boston, Mass.
