WHOLE NO. 904

The Greatest Medical Discovery of the Age!

DR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common pimple.

He has tried it in over 100 cases, and never failed except in two cases (both thunder humor). He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nagging sore mouth.

One to three bottles will cure the worst kind of Pimples on the face.

Two to three bottles will clear the system of Biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running at the ear and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst case of scrofula.

benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that I sold another: after a trial it always speaks for itself. There are two things about this herb that appears to me surprising: first that it grows in our pastures, in some places quite plentiful, and yet its value has never been known, until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April 1855, I peddled it, and sold about six bottles per day—in April 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicine was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the side, Displacement of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get and enough of it.

DIARRHOEA von Uss.—Adults one table spoonful per day—Children over ten years, dessert spoonful—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

REED'S PATENT STEAM ENGINE.

THESE IMPROVED **GINES**, (for which Patents have been granted and first Prize medals awarded to the inventor, both in the United States and Europe), continue to give such satisfaction, on account of their simplicity and economy, that we have now established an extensive manufactory, and are prepared to deliver at the shortest notice engines from 2 to 40 horse power and upwards.

These engines have been repeatedly tested, and have shown an economy of twenty per cent. in fuel, and about the same in oil and repairs. This saving is effected by letting the steam in and out both sides of the cylinder through large openings, removing the pressure from the valve and allowing no steam to escape or exhaust from the passages, &c. The cylinder alone, also by reducing the weight and friction to about half that of the ordinary engines. As the place the smaller sizes upon an improved boiler with all the pipes attached, and the whole mounted on small wheels convenient to ship to any part of the country, and to avoid the necessity of an experienced engineer to start them, they are all tested before leaving the factory.

Reed's Patent Steam Pumps are also coming into general use on steamboats, in mines, and for supplying boilers, where they are now giving great satisfaction. They are preferred to any in use because of their compactness and simplicity. These engines and pumps may be seen in operation, or further information had by calling or addressing **REED & BIRKBECK**, Jan 13-1mc. 95 Maiden Lane, N. Y.
