MISCELLANEOUS.

IMPORTANT TO HOUSEKEEPERS AND HOTEL KERPERS. Dayton's new and Improved method of preserving

Fruits, Vegetables, &c., &c. FRESH FRUITS AND VEGETABLES, are not merely the greatest incuries enjoyed by mankind, but they are absolutely essential to the perfection of health; and may be regarded as one of God's test gifts. As however, the season of their production is brist, it has long been a matter of deep interest to devise some method of preserving them in all their freshness, long after their season of ripeness had passed. It is believed, that in this apparatus will be found at once the cheapest and most effective method of keeping them and other articles fresh, ever discovered. Nothing can possibly be more beautiful and effectual than the operation of the Exhauster. It must be seen in order to be realized. Every can before being tilled should be exhausted by this mode. If it be not perfectly air-tight the fact will be discerned, once Call and examine them and see the operation at GEURGE MYERS, Agent for New Hanover Co. June 9.
