IMPORTANT TO HOUSEK EEPERS AND HOTEL KEEPERS. Dayton's new and Improved method of preserving Fruits, Vegetables, &c., &c.

FRESH FRUITS AND VEGETABLES, are not merely the greatest luxuries enjoyed by mankind, but they are absolutely essential to the perfection of health; and may be regarded as one of God's best gifts. As however, the season of their production is brief, it has long been a matter of deep interest to devise some method of preserving them in all their freshness, long after their season of ripeness had passed. It is believed, that in this apparatus will be found at once the cheapest and most effective method of keeping them and other articles fresh, ever discovered. Nothing can possibly be more beautiful and effectual than the operation of the Exhauster. It must be seen in order to be seen in order to be realized. Every can before being filled should be exhausted by this mode. If it be not perfectly air-tight the fact will be discerned. Once Call and examine them GEURGE MYERS, and see the operation at Agent for New Hanover Co. June v.
