GRADED SCHOOLS IN CHARLOTTE.—From the paper read last night by Rev. Wm. Boon of Charlotte we learn that the average enrollment of the graded schools in that city is 236, and the whole expense of each scholar including everything is $12,25 for a session of ten months.

PROF. PHILLIPS AND GEOMETRY.—In his address full of brains to the Educational Association last night Professor Charles Phillips said that a certain Presbyterian minister down South, near New Orleans, and an old pupil of his, that this minister said one day to him, "Do you know that you kept me from being a Baptist?" "Why, no," said the Professor, "how so?" "Why," replied the minister, "in a talk you gave me on analytical geometry!"

STOCKHOLDERS AT HILLSBORO.—At the meeting yesterday at Hillsboro we learn there were but two changes made in the directors and these were made in the places of John R. Harrison of this city and John McDonald of Cabarrus. Wm. R. Albright was elected to fill one of these places, the other new man we are not informed. W. A. Smith was elected a director by the stockholders.

PUBLIC TEMPERANCE MEETING.—There will be a public meeting at the Hall of Oak City Council Friends of Temperance, over Gulley's store, this (Friday) evening. Rev. H. P. Cole, Pastor of Person St. M. E. church South, will deliver an address, after which there will be a public installation of the officers for the current term. At the conclusion of these exercises the Council will treat their visitors and themselves to lemonade and cake, but no wine. The public are respectfully invited. Doors open at 8 o'clock. Admission free.

A FREE SCHOOL OF VOCAL MUSIC FOR THE POOR.—Prof. Grotz of St. Mary's College in this city has struck upon a noble idea. The Professor believes that the finest voices are not always found among the richer class who can afford to have their children educated privately at a large cost, and therefore it is his intention to urge the matter before the other music teachers of the city, and with their assistance to organize a Free School of vocal music on the model of the free conservatories of Paris, Leipzig, and Milano, without any requisite but an engagement on the part of the pupils to attend the school for two years at least, and a certain limit of age to be hereafter determined on by the directors of the school.

THE JEWS—SOME INTERESTING FACTS.—We are indebted to our friend J. M. Rosenbaum, the excellent merchant on Fayetteville street, for some facts concerning the Jews, which we think will be of interest to our readers. The most ancient and purest specimen of the Jewish race is to be found at Cochin on the Malabar coast. They are divided into two classes the white and the black Jews, the former numbering about 500 in Cochin and very respectable tho' very poor. The Cochin Jews have retained their religious and social customs as well as their striking physiognomy; and in many respects they are conscientious and strict in their religious duties. Their appearance is remarkably fair for a people naturalized in India, and their dress is becoming and peculiar. They usually wear full trowsers, of a Mahommedan type, with a waistcoat buttoned straight up to the neck, and a loose flowing coat or gown. They are warm in their national feelings, very susceptible of kindness, and apparently attached to the British rule. The black Jews have been supposed to be also of the stock of Abraham, and to have acquired a black skin through the influence of climate. But no person can see their common Hindoo features and general appearance without being convinced that they are all of pure native blood. The account which the white Jews give of their origin is doubtless correct, viz: that the first Jewish settlers took a number of slaves into their employ, and that these were made proselytes and circumcised. The black Jews are not allowed to worship in the synagogue of the white Jews; but they have a separate synagogue of their own, and are altogether a distinct class. Some of them are servants to the white Jews; the greater portion are mechanics, bricklayers, carpenters, tailors, and some fishermen. A great conflict is said to have taken place many years ago between the white and black Jews, owing to the latter being denied various social privileges, and hence the two classes are wholly separate. So it seems that as early back as the yea, 70 we find the negro trying to get himself upon a social footing with the white man. and in all honor be it said unto the Jews that they had not a radical white face among them who was backing the negro in his efforts.

EDUCATIONAL STATE ASSOCIATION.—The association adjourned to-day at 1 o'clock after a very pleasant morning session. Several papers were read and many addresses were delivered. Rev. Dr. Pritchard delivered a very earnest and able address and urgently called upon the State press to scourge the politicians into harness and make them work as hard for education as they do for party. Rev. Dr. Atkinson made a very pure and beautiful address. Mr. Fab Busbee, as he always does, made a sharp, quick, sensible and popular speech. Several others were on the floor but arriving late we noted only these already mentioned. The members of the association are in good cheer and say they expect much good to follow. A resolution offered by Rev. A. W. Mangum and adopted on yesterday will set the ball in motion. This is to employ agents and set them adrift in the State haranguing the people and arousing all classes to action. Another resolution to the point and offered by Gen. W. R. Cox was adopted on yesterday, to establish in the State a State Educational Journal. This it seems to us is very important and immediate steps should be taken to have one established.

A. H. Stevens declines running again for Congress on account of his failing health, and if his health doesn't improve he will resign his seat in Congress. He hasn't been out of doors twice in six weeks.

Dr. J. R. Jennings, a prominent physician of Nashville, Tenn., committed suicide at the hotel at Narragansett pier, the other day. His niece, the daughter of Governor Wise, of Virginia, was with him at the pier.

A New York physician effected a cure of hydrophobia with carbolic acid.

Religious.

Rev. Charles Phillips, Professor at Davidson College, will preach at the Presbyterian Church in this city next Sunday morning at 11 o'clock and Sunday night at 8 o'clock. Mr. Phillips is one of the giant divines in the South.

A bit of orange peel set a good Iowa deacon flat on his back while passing the contribution box.

One of the most energetic workers on behalf of the distressed Jews in the Holy Land is Dr. Lehman, of Mayence, editor of *Der Israelit*. On the 1st inst, writes the worthy doctor in his journal, he was fortunate enough to send to the Central Committee at Amsterdam no less a sum than 7024 gulden, the result of one week's collection. And since the 15th April he has collected upwards of 25,000 florins.

Says the Oxford *Herald:* At Salem Church last Sunday, Mr. Bobbitt preached in the morning and Mr. Griffith in the evening. A large crowd was present, and everybody seemed to enjoy the occasion.

There are 26 Baptists living in Rockingham, the county seat of Richmond, and yet they have no church and no Sunday

The crowds at Spurgeon's Tabernacle, in London, are so great that on Sunday evenings the doors have to be locked before the proper time even to seat pewholders, who do not arrive soon enough to be admitted

The City.

The deeper the thought the less is the breadth and the broader the thought the less is the depth.—[Prof. Phillips last night.

Mr. Bowman from the mountains in the Association to-day said he regretted to see a crowd of College boys aboard, as he came down on an excursion train, who sat in a car among ladies, even some of them from this city, and they smoked cigars and cursed aloud.

Gov. Calwell is sick in Hillsboro. He was not able to go into the stockholders meeting tho' he left the city seeming in perfect health.

I am a North Carolinian, it is true not by birth, but better than that, because I chose to be one. Many are North Carolinians by birth because they could not help it.—[Prof. Phillips last night.

We want but little here below but the very first fair day when the sun is shining bright and the merry birds are singing, we want that crowd of little coffee niggers at Greensboro to all go to the photograph gallery and have their pictures sent to us, and we want Duffy of the *Patriot* to see to its being done.

Political Jottings.

☞ Fayetteville has a campaign club.

☞ Hon. Thos. S. Ashe spoke at Lumberton yesterday.

☞ It is counted as certain that Waddell will carry Harnett by 200 majority.

☞ The Brunswick rads are trying to heal their differences. They will hardly heel it until August.

☞ Cobb and Ransom (rads) and Major Yeates (whitemen's ticket) speak at Stonewall in Pamlico county to-morrow.

☞ Give no encouragement to radicals who swear lottily that they are against civil rights and at the same time they and the negroes vote in the same party. Let them come out from the radical party if they are against civil rights. It's all in my eye!

☞ Moore county. Says the *Eagle:* The total vote of Moore is some 1,900 or 2,000, of which 1,100 or more is Conservative and 800 to 900 Radical. About one third of the total vote is negro, and there are perhaps 250 or 300 white Radicals. So there is a certain Conservative majority of 100 to 300.

The North State.

A Magnolia young man goes digging for meat. Says the Wilmington *Star:* We learn that a young man in Magnolia lately captured in the hollow of a stump a she opossum and fourteen young ones, of two different sizes. He thinks there were eighteen in all, some having escaped. All are now alive and doing well.

Marble playing at Charlotte. Says the *Observer:* A grand marble match, for the championship of Charlotte, came off on Tyron street yesterday afternoon in the presence of a large number of spectators. Bets ran high and a large quantity of money changed hands upon the announcement of the result.

Beautiful cotton. Says the Fayetteville *Gazette:* Mr. W. S. Evans, one of our thrifty, enterprising farmers, brought into our office, last Tuesday, a specimen of very fine cotton. There were two stalks, about 4 feet in height, and containing about 100 forms, with several blooms. Mr. Evans, from this same seed, last year raised about a bale of cotton to the acre, and this year he expects to do much better.

A destructive fire at Roxboro. Says the Milton *Chronicle*: We regret to learn that the Tobacco Factory and fixtures of Messrs. Satterfield & Foushee of Roxboro, and probably other buildings were destroyed by fire on Saturday evening last. Six thousand lbs. of Leaf Tobacco in the Factory, all of which was consumed. We hear that the fire is supposed to be the work of an incendiary. No insurance.

A young lady receives a gold medal. Says the Wilmington *Journal:* Miss Kate Burr, of this city, who spent some time last Fall in the Female Department of the American Institute, School of Design, at Baltimore, has received a diploma from that institution and also a handsome gold medal for excellence in painting. Miss Burr colors photographs and we have seen specimens of her work that will equal those executed in Baltimore or New York.

How Mrs. Morton was killed. Says the Wadesboro *Argus*: Mrs. Penelope Morton, an aged lady, wife of the late Rev. E. C. Morton, living four miles north of Wadesboro, was struck by lightning on Sunday afternoon and instantly killed. When struck she seems to have been standing between two small trees in her yard, both of which were badly torn by the shock. When found she was lying with her head at the foot of one of the trees, on a root along which the fluid had run, tearing it entirely from the earth that had held it.

The Ladies.

"It's time to go to bed,"
I said to little Pinky.
"Oh, I'm not sleepy, Ma,
My eyes are only winky."

As appropriate to the season, a Toledo woman muzzled her husband to keep him from kissing about at random, you know.

A Boston man recently walked three miles in twenty minutes. His mother-in-law was not far behind, but she had to give it up.

It's a lie! Says a brute of an exchange: A North Carolina woman prides herself on shedding her nails every month. Cautioul people refuse to give her any credit untis they shall have ascertrined the condition of her husband's face.

A Mrs. Chase pays three hundred dollars a week for the privilege of living in the room once occupied by Boss Tweed, at Greenwich, Conn.

The *Woman's Journal* prints the following receipt for making a good servant: Let the mistress of the house take two pounds of the very best self control, a pound and a half of patience, a pound and a half of justice, a pound of consideration, and a pound of discipline. Let this be sweetened with charity, let it simmer well, and let it be taken in daily or (in extreme cases) in hourly doses, and be kept always on hand.

Affairs in France—McMahon's Message, Etc.

LONDON, July 10.—A Paris dispatch to "urgency" on his motion for disolution of the Assembly, after voting upon the bills named, received 186 votes.

It seems certain that if Perieres' bill be rejected, which is probable, the Centres will submit either a fresh proposal for disolution or for protracted prorogation, but most probably the former, which will then obtain a large majority.

PARIS, July 10.—The conclusion of McMahon's message is as follows: "All my duties, and my most imperative duty is to insure to the country defined institutions, security and calm. I have instructed the minister to inform the Constitutional Committee concerning the points upon which I believe it essential to insist."

The Republican papers conclude from Marshal McMahon's message to the Assembly yesterday that he recognizes the Republic.

A Violent Storm—Killed by Lightning.

NEW YORK, July 10.—A violent rain storm passed over the village of Pearsalls, Long Island, this morning. A school house and six other buildings were struck by lightning and badly damaged. Mrs. J. M. Eggleston and Miss Smythe were killed.

INDIANAPOLIS, July 10.—Seven boys while crossing a fence immediately under the telegraph lines, in driving pork this afternoon, were struck by lightning, and one named Johnny Shay was killed outright. The others were all severely injured, but will recover.

The Attorney General has decided that under section 19 of the act amendatory of the bankrupt law, the U. S. Marshals and Registers in Bankruptcy are not required to make the returns therein provided for until they are furnished with circular forms and directions in respect thereto by the Judges of the Supreme Court of the United States.

Depredations of the Sioux Indians Upon White Settlers and the Shoshones Indians—Loss of Life and Property—Letter from P. H. Sheridan, Lieutenant General.

LONE TREE, NEBRASKA, July 9.—In consequence of the many depredations by the Sioux in Wind River Valley on the white settlers and the Shoshone Indians, one of the latest being the murder and horrible mutilation of two white women. Dr. Iain, agent for the Shoshones, made the requst that the Sioux should be punished if possible. On the morning of the 2nd of July while General Ord and myself were at camp Brown, an opportunity presented itself, and Capt. Torry, of the 12th Infantry; commanding Camp Brown, was directed to send Capt. Bates and Lt. Robinson with Company B, 2nd Calvary, accompanied by twenty Indian scouts under Lieutenant Young, 4th Infantry, and about 150 Shoshones under their Chief, to attack a camp of the Sioux lately established on the North side of the Owl Mountain range, where the Wind River breaks through, distant about 90 miles from Cramp Brown. The attack was made at 3 a. m. Friday, July 3, the result being 50 Sioux killed and wounded, and over 100 horses captured. Our loss was 2 men killed and Lieutenant Young and 3 men wounded—Lieut. Young dangerously. Capt. Torry telegraphs that the result was not as satisfactory as desired on account of the bad behavior of the Shoshones. Captain Torry went out on the 15 with ambulances and additional men to meet Capt. Bates.

(Signed,) P. H. SHERIDAN,
Lieutenant General.

Burning of a Mail and Express Car.

NORFOLK, July 9.—The mail and express car attached to the eastward bound train on the Atlantic, Mississippi & Ohio Railroad, was entirely destroyed by fire this afternoon when about nine miles east of Petersburg. The mail car contained an unusually heavy Northern and Southern mail, which, together with the Express matter, in an adjoining department, was entirely consumed. The Route Agents, C. L. Jones and J. N. Jennings, the only persons in the car at the time, were badly burned about the face and arms. They were unable to give an alarm owing to the burning of the bell cord, and after an ineffectual effort to save the most valuable part of the mail they both jumped off, and were afterwards picked up in a bruised condition. The fire was not discovered by those on the forward cars until the train had run several miles and the car was burned down to the wheels. The origin of the fire is not known.

Affairs in Omaha.

OMAHA, July 9.—Generals Sheridan and Ord returned from the West this p. m.

Telegraphic advices from Fort Larami, state that the reports received from Spotted Tail's agency, say that seventy-five lodges of Ogallas, under Black Twin are moving toward that place, and that Uncapapas and Minecogories are moving across Yellow Stone river. Arrapaboco and Cheyennes are camped in head waters of the Big Horn river, near the Big Horn mountains.

Difficulty Between a Negro and a Base-Balist.

MEMPHIS, July 9.—During a man who was in the way of Peter Meath, the catcher, was ordered out of the way, to which he responded with an oath, and drawing a pistol fired at Meath, who ran to his coat, and getting his pistol returned the fire. Some half dozen shots were fired in the melee which ensued. The negro fired at other members of the club, and was finally shot in the back and then terribly beaten.

A Mysterious Discovery.

NEW YORK, July 9.—Yesterday during the demolition of the Nathan mansion, a bloody shirt was found secreted in a dumbwaiter. It was taken to the police central office this morning, and on examination, the name of Nathan was discovered under the collar, though covered with a large blotch of blood.

Solicitor Wilson continued his investigation of correspondence and records of the United States Secret Service division in this city yesterday. As before, the matter was conducted privately. Mr. Wilson finds it necessary to go to Boston to day to pursue his investigation on an important point in that city. He will return again on Sunday, and will probably reach the end of his labor here by the middle of next week.

CLEVELAND, OHIO, July 10.—Jackson Harrison, who arrived here late last evening, was robbed of $4,000 by five men, who attacked him after leaving a street car near East Cleveland. After robbing him the highwaymen gagged and tied him to a tree, where he was found this A. M.
