JOHN DOCKERY SHOT IN ABDOMEN

Had Taken a Girl to an Assignment House.

(Special to Post.)
Charlotte, June 24.—A special to the Chronicle from Raleigh, says that Policeman Isaac Rogers shot Deputy Marshal John Dockery, a son of U. S. Marshal, Henry C. Dockery, about noon at the Public Building and seriously wounded him. The trouble arose over Dockery's having taken Rogers' daughter to an assignment house. Claude M. Harnad, Deputy Marshal, is also accused of having taken a Miss Howell to the same place, both girls being under 20.

After shooting Dockery, Rogers gave himself up, expressing the hope that he had killed his man. Dockery is shot in the abdomen and the shoulder, but at 1 o'clock was doing very well.

ARCANUMS STIRRED.

A MEETING FOR MONDAY NIGHT.

The Executive Committee of Supreme Council Meets Next Week.

Salisbury Council No. 272 Royal Arcanum will meet Monday night to take action upon the proposed increase in assessments. The members of this council, which is the largest in the State, are almost to a man against the proposed increase. Although the older members are effected the younger element is leading the opposition to the increase.

The demand for a reconsideration by the supreme council of the whole question of the cost of insurance has become so universal and insistent that, the executive committee of the supreme council has decided to hold a special session in Boston on June 29 to consider protests against the new insurance rates.

The general complaint is:

First. The proposed rates are higher than is justified by the mortality experience in the order.

Second. They were promulgated without notice to the rank and file of membership.

Third. The proposed rates are unfairly apportioned and bear too hard on the old members who founded the Royal Arcanum.

Fourth. There is no guarantee that the rates will not be jumped again after the lapse of a few years, just as they were jumped in 1895, and now again in 1905.

One of the old time insurance companies, it is rumored, has laid aside \$500,000, to be devoted to the disruption of the Royal Arcanum. There is no proof of the truth of the rumor, which has not circulated outside of Arcanum circles.

PIPER IS ARRESTED.

Negro Charged With Murder Brought to Salisbury.

June Phifer, the young negro accused by the two negroes Phillips and Lewis, of having murdered Will McKathan Tuesday, was brought here yesterday evening and placed in jail.

BIG UPRISING.

ALL POLAND AFLAME.

60,000 WORKMEN UP IN ARMS.

The Conflict Between Citizens and Soldiers Leads up to Serious Fighting. Martial Law Was Declared Today in Lodz.

Troops Fire Without Regard to Innocent or Guilty and Kill Fifty or More.

Lodz, June 24.—Russian Poland is aflame with revolt on account of the conflict between citizens and troops yesterday. Fifty men were shot dead and two hundred wounded. Sixty thousand workmen are up in arms and more serious fighting is expected today. Martial law has been declared and all business has been suspended. This movement has taken the form of a great political uprising. While it is not possible now to estimate the full number of victims of the riots at Lodz it is said it will number fully two thousand killed and wounded.

The troubles here were initiated by the Social Democrats who are determined to avenge their comrades who were killed Wednesday. Thursday, the feast of Corpus Christi passed off quietly but during the night a workman attacked the patrol. One of the latter was shot by a girl of thirteen. The dawn of Friday commenced a day of bloodshed. An anarchist street fight prevailed all day. Barricades were hurriedly constructed in the Jewish quarter at dawn. The men climbed roofs, houses, cutting telephone and telegraph wires to use for entanglements in the streets, others cut down telegraph poles and used them for strengthening the barricades. Early in the day two bombs were thrown into the crowd at the barracks killing and wounding 20 soldiers.

This started the shedding of blood which continued until after midnight. The Cossacks, dragoons and infantry charged repeatedly, the dense, surging mobs, firing volley after volley. The rioters later returned the fire with revolvers, their comrades on the roofs joining the fusillades. Some dashed vitriol from points of vantage on the troops throwing them into a frenzy and causing terrible scenes.
