Dr. Poole May Institute Suit for Stockholders.

Policy-holders with the Modern Puritan Insurance Company, who are in Salisbury and the county outside contemplate legal action against the company. The Modern Puritans began writing insurance in Salisbury last year and did a thriving business from the start. What was the astonishment of the policy holders a few weeks ago that they had been absorbed by another company and that without their knowledge. The local policy holders got their heads together and as a result Dr. C. M. Poole, of Craven, opened up correspondence with State Insurance Commissioner Young. This week he received a lengthy communication from Mr. Young, in which it was stated that Modern Puritans had deposited with the insurance department \$10,000 when it began business in North Carolina. Now the Rowan county policy holders who have paid premiums and object to having their insurance transferred propose to see what can be done with that security fund. Dr. Poole at the request of a large number of others who were written by the agent of the company, will probably employ counsel and bring action at once.
