

Kerosene or Electricity **WHICH?**

**It's A Question of Cleanliness---
Convenience Safety---
Healthfulness.**

Remember that the Electric Lamps burn in a Vacuum and can't vitiate the air, while every oil lamps burn up as much oxygen as 5 and $\frac{1}{2}$ people. Phone to-day for an estimate on your house and save 20 per cent and have 12 months time to pay for it in. Look at this \$40.00 Proposition.

8 Light Outlets.

4 Flush Switch Outlets.

1 Two Light Fixture.

1 Five Light Fixture---Ceiling Shower.

1 Light Porch Fixture.

4 Drop Cords Complete with Lamps and Shades. Glassware and Lamps included for above fixtures, or \$3.33 1-3 per mo. for 12 mo.
