

MORE DEVELOPMENTS ON YADKIN RIVER

Two Are Three More Dams to Be Built on the Yadkin—Laborers Coming in Daily for Work in the Pot Rooms.

Albemarle, July 10.—Indirect information has been received here to the effect that either the Aluminum Company of America, or some other concern, the name of which has not at present been made public, is commencing a development on the Yadkin river near Badin which will make the present development at the Narrows look like a tame proposition.

It is generally rumored that a move is being made by certain well known agents to secure every available acre of land along the Yadkin river from Badin to the lower side of the Stanly county border, a distance of fifteen miles or more. Surveyors have been seen at work all up and down the river and a number of options have been procured on real estate, and possibly a number of deals closed. According to these rumors two or three other dams are to be built along

the Yadkin from the point where Rocky river empties into the Yadkin up to Badin.

Your correspondent has not been able to ascertain whether or not this movement is being made by the Aluminum Company of America, or by some other power company. It is well known, however, that the Aluminum company at Badin is procuring every available laborer and that the pot rooms now finished are to start running in full force within the next ten days or as soon thereafter as the necessary operatives can be procured.

It has also been rumored that the Aluminum Company of America at Badin is soon to commence the erection of a number of additional pot rooms—possibly a greater additional number than have been completed up to this time and that this company will soon commence the erection of a very large knitting mill near the present site of its aluminum factories.

It is understood that the operatives in the aluminum factories will have to be adult males and it is supposed that this large knitting mill is to be erected in order that such operatives in the aluminum factories as may desire can put their children in the knitting mill, therefore securing employment for not only themselves, but for their families. Of course, these things may be to some extent wild

NON-ALCOHOL IRON TONIC BEST

Urges People in Need of Tonic to Shun Iron Preparations Containing Too Much Dangerous Alcohol.

INJURES SYSTEM AND KIDNEYS

Instead of taking Beef, Iron and Wine or other iron combinations which may contain too much dangerous alcohol. Use just the plain natural medicinal iron known as acid Iron Mineral and sold at all drug stores.

Uric acid and other blood troubles; Poor impoverished blood, sallow cheeks, pains in side or back, arms, muscles, joints or limbs, are due in a large measure to faltering kidneys which deranged and disordered through one cause or another are failing to properly filter the blood as they should.

To take Alcohol is an error for alcohol is the enemy of the kidneys, liver, nerves, brain and bladder. It is only a temporary effect with a positive re-action. Alcohol is being tabooed everywhere, even as social position. Even more important than avoiding meats when kidneys trouble you, is the warning to avoid alcohol.

Take Natural Iron.

Go to the nearest Drug Store. Get a bottle of Natural Medicinal Iron, known as Acid Iron Mineral. It is non-alcoholic, free of dangerous elements, does not in any way damage the teeth, retard digestion, hurt the stomach or cause constipation. It is economical, going from two to ten times as far as other and weaker iron preparations of the chemist. It is highly concentrated; a half teaspoonful in glass water after meals is a dose. Keep it handy and let the whole family take this pleasant pure, nature's tonic, stomach remedy, appetizer, and system invigorant. Before a generous size dollar bottle is half gone you will be most surprised at the results. Bottled, tested, guaranteed and sold through all druggists by the Ferrrodine Chemical Corp. Roanoke, Va.

"Lessors of this (the only natural medicinal mineral iron deposit of its kind in the world.) or sent on receipt of \$1. Get a bottle now.

rumors, but everything to the experienced eye points to the commencement of developments along the Yadkin at Badin which will surpass anything that has yet been accomplished.

Laborers are coming in almost daily by the carload from various parts of the country, and it begins to look like that Badin is right early to become a town of twenty thousand population, with possibilities that in three years a town either at Badin or some other point in this section will exist numbering its inhabitants fifty thousand or more. This statement may to the outsider seem incredible, but one has only to make a trip to Stanly county and visit the scenes along the Yadkin river near Albemarle in order to be convinced that there is really something wonderful taking place and to take place in this section in the near future.

Buy a Home. Mr. Richard B. Wright, who has been living on North Jackson street, has bought a home on South Fulton extension and moved into it yesterday.

Mr. Wright's mother, Mrs. W. H. Wright, of West Blockton, Ala., is visiting him.

There is on exhibition in the window of Holshouser & Howin, three fine specimens of mounted Mongolian pheasants. These beautiful fowls were killed by J. D. Lambing on a recent trip to his old home in Ohio, in parts of which State they abound in great numbers and are mounted by sportsmen the same as quail in this section.

A Drop On a Touchy Corn

Instant relief! Then corn or callus lifts off with fingers.

Just think! You can lift off any corn or callus without one twinge or pain.

A Cincinnati man discovered this ether compound and named it Freezone. Any druggist will sell a tiny bottle of freezone for very little cost. You apply a few drops directly upon a tender corn or callus. Instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it right off.

Freezone is wonderful. It dries instantly. It doesn't eat away the corn or callus, but shrivels it up without even irritating the skin. Hard corns, soft corns, or corns between the toes, as well as painful calluses, lift right off. There is no pain before or afterwards. No soreness or smarting. Women should keep a tiny bottle of the dresser and never let a corn ache twice.

SALISBURY FIREMEN GIVE ANNUAL SUPPER

Host to City Officials, State Officer, Ex-Chief and a Number of Other Friends.

MR. A. H. BOYDEN ACTS AS TOASTMASTER

Salisbury's First Chief, Mr. A. Parker, Compares Present Department With the Past.

One of the most enjoyable and pleasant occasions of the kind ever given in this city was the barbecue supper given by the members of the Salisbury Fire Department last evening to the city officials and a number of invited guests. The supper was spread in the vacant room in the Ford hotel between Nix's store and the Public Service Company offices and took place at 9 o'clock. About fifty people were present. The supper consisted of barbecued meats of several varieties, hot stuff and cold drinks of various kinds and none better has ever been prepared and set before a gathering of Salisbury people. There was an abundance and to spare and the only complaint heard from any one was that they had been "overfed."

The firemen had as their guests Mayor Woodson and members of the board of aldermen, other city officials, including the police force, and ex-mayor Boyden who is first vice-president of the State Firemen's Association and Mr. A. Parker who was Salisbury's first fire chief and also a number of others.

Mr. Boyden officiated as toastmaster and made a splendid talk to the firemen, saying there were very few occasions that could get him away from home at night in his old age, but that a gathering of volunteer firemen was one of these. Mr. Boyden told the boys something of the State association and of what it hoped to do for them and was already doing. He lauded the firemen and urged liberal support by the city in providing equipment with which to fight fires. He said that a man could be engaged in no nobler service than that of endeavoring to preserve the life and property of his fellowman, and that was just what the firemen were doing.

Ex-Chief A. Parker, Salisbury's first fire chief, told of the fire-fighters of many years ago and of what they had to contend with in the way of equipment. No water works, no engines, no auto or horse trucks, no alarm system. Simply a little hand engine and a bucket brigade. He compared these to the present day machinery for fighting fires and said he was glad to see these improvements. He was one of the organizers of the State organization and told of its first struggles. Mr. Parker exhibited with pride the chief's belt worn by him in the days when he led the ladies to confagurations and paid a high tribute to the man who followed him as well as to all firemen in general.

Mayor Woodson addressed the men and told them he was proud of them and their work and that one reason they had not been given more attention in the matter of equipment was that they were so efficient and kept fire losses in Salisbury so low that it hardly seemed necessary. But he pledged the more consideration in the future.

Splendid talks were also made by Messrs. J. C. Kesler, C. M. Henderlite, J. G. Crowder and several others, among these being Chief W. A. Brown of the department.

The last man called on for a talk was Mr. D. L. Sides, who has been a member of the Salisbury Fire Department thirty-three years, he and his brother, Julius, being the only firemen in service now who served under Chief Parker.

After the speech making all were invited to gather at the tables and help themselves and this they did in fine style. It was not only a feast but the evening was one of real pleasure and good fellowship and the fire laddies received many compliments on manner in which they had provided for and entertained their guests. There is no more loyal set of men in the city than those composing the fire department and they never waver or make excuses when the gong sounds. As Mr. Boyden said, he never, in all of his public career in Salisbury, heard of a "slacker" among the firemen.

NEGRO HOBBO HURLS ROCK AT OFFICER AND ESCAPES.

Special Officer L. D. H. Brown of the Southern Makes Arrest Near Ice Factory and Has Trouble With His Prisoner—Night Search Made for the Man.

Mr. L. D. H. Brown, one of the Southern's special agents at this place, had a narrow escape from a serious injury last night while chasing a negro hobo. Mr. Brown arrested the man while in the act of beating a train and was bringing him up into the city and when at a point near the ice factory the negro attempted to break away from the officer, who struck him with his pistol. The weapon was knocked from his hand and at this juncture the man succeeded in breaking away, at the same time picking up a rock which he hurled at the officer with great force, striking him on the shoulder. The

The Five Tires?

Today - tires cost less than ever

Your tires actually cost you less per mile today than they did a few years ago, —provided you buy the right kind of tires.

In the first place, don't buy a nondescript tire that some dealer has a selfish price motive in selling to you.

Buy a tire with a name behind it—a tire, the quality of which must be so good that the reputation of a great Company is protected.

United States Tires, with the name of the largest rubber manufacturer in the world behind them, are safe tires to buy.

United States Tires are constructed under an exclusive timed vulcanizing process that is patented.

They are honestly built with the best materials that the markets of the world afford.

United States Tires Are Good Tires

A Tire for Every Need of Price and Use
'Royal Cord' 'Nobby' 'Chain' 'Uco' 'Plain'

United States TUBES and TIRE ACCESSORIES Have All the Sterling Worth and Wear that Make United States Tires Supreme

A Complete Stock of United States Tires Carried by Thompson's Garage

man then made a speedy run but Mr. Brown had recovered his pistol and went after the fleeing negro, firing a number of shots at him. He ran into Main street and darted around the residence of Mr. J. F. McCubbins and made his escape. He was later seen by parties living on that street and was running south.

Learning that the negro had on South Main street Mr. Brown, accompanied by Chief of Police Miller and Captain of Police Harrison, drove the Concord road in Mr. Brown's car, going as far as Summer's where it was thought the man may have gone for the purpose of catching another train. Nothing was seen of him, however. Mr. Brown returned to the city with his car and Chief Miller and Officer Harrison walked from Summer, coming up the railroad, hoping to run across the man, but he has so far eluded the officers.

The desperate game played by the negro in making his escape leads the officers to believe he may be one of the eight convicts escaping from the Guilford gang several days ago.

FOURTH CO. WANTS MEN.

Captain Murph Anxious to Get a Number to Fill Vacancies Caused by Discharge of Men.

Captain Murph of the 4th Co., C. A. C., N. C. National Guard, states that he is anxious to get a number of recruits to fill vacancies caused by the discharge of a number of men. He especially wants a barber and a cook. He is authorized to enlist all men possible and should there be more than is required for the local company the surplus will be transferred to other units of the National Guard. He will also receive enlistments for the field artillery company now being recruited at Mooresville.

WOODMEN TO PROTECT MEMBERS IN ARMY.

Sovereign Commander of the Woodmen of the World Says Order Will Pay Premiums on Life Insurance of Members Entering War.

Atlanta, Ga., July 10.—William A. Frazer, sovereign commander, speaking at the opening session today of the sovereign camp, Woodmen of the World, said arrangements would be made whereby the order would pay the premium on the life insurance policies of all of its members who enlist for war service. It is estimated that out of nearly 1,000,000 members, more than 25,000 already are serving under the colors.

Patriotism was the keynote of the session today. About 1,200 delegates from all parts of the United States and from Canada are in attendance, according to the registration records.

VAN POOL FOR LIEUTENANT.

Recommended by Board of Examiners for Second Lieutenant in Local Company—Denny, Helms and Shaver on Reserve for Rank of Lieutenant.

Captain Murph received a letter from the Board of Examiners having in charge the examinations for second lieutenant of the local company notifying him that Sergeant Van Pool made the highest grade and will be recommended by the board to the militia bureau for the lieutenantancy of 4th company. Sergeant Van Pool was 5 per cent higher than Sergeant Denny who was second.

Four members of the company passed the examination and will be placed on the reserve for the rank of lieutenant, these are: Sergeant Denny, Corporal Helms and former Captain Shaver.

PETITION TO THE PRESIDENT and CONGRESS for the INDEPENDENCE OF IRELAND

We, as citizens, respectfully state to the Government of the United States that Ireland is a distinct nation, deprived of her liberty by force and held in subjection by England by military power alone. As has entered the war for the preservation of democracy and the freedom of small nationalities, this Government is in honor bound to apply this principle impartially in all cases of peoples held in subjection, whether they be under the jurisdiction of Germany, like Belgium, or of England, like Ireland. As America cannot be a party to any scheme of world-peace which withholds from any nation the God-given right of freedom, the only final settlement must be the complete independence of Ireland.

America has the right, by her entry into the war, to demand it from England, not in the Peace Conference at the close of the war, but now.

We therefore respectfully urge upon the President and the Congress the necessity and good policy of giving a great example to the world by insisting that England shall grant Ireland complete independence. We earnestly hope that, like Cuba, Ireland will be made free by the action of America
