M., the play will be repeated in the Community Building. The play is interesting from start to finish. A treat is in store for all who may attend. "PATRIOTISM."

(By Pauline Louise Schumann.) Why should we not miss you When you're in a camp far away? New you belong to Uncle Sam. And you're proud of the U. S. A.

You've given yourself to Uncle Sam, And allegiance to him did swear; You're helping to uphold Old Glory, And you're ready to go "over there."

You boys will soon defeat the Huns, Thus bringing back victory; For America and General Pershing Must gain our victory.

The Red Cross will keep on knitting, Thus helping the dear U. S. A.; And when you have time to write, Everything you'll find at Y. M. C. A.

When you go forth into battle O' wars thru fields of blood, Remember we're helping do our bit By economizing on our food.

So every night at my bedside I'll silently say a prayer: Asking God in goodness and love, To protect the boys "over there."

On the Defensive. Where did you get that chicken, Kelly? Sure, sorr, it came for me vicious-like, and I had to kill in self-defense, sorr.—Passing Show.

BONDS AND STAMPS TAKEN BY WOODMEN

Granite Quarry Woodmen Vote One Hundred Dollars for Bond and One Hundred for Stamps.

Fernwood Camp, Woodmen of the World, at Granite Quarry, at the meeting on Friday night voted to invest \$200 in government securities, one hundred of this being put into Liberty Bonds and the second hundred put into war saving stamps.

The Granite Quarry camp is a small one and this investment represents a considerable item for a small camp, but it represents a spirit of determination on the part of the men to do something worth while.

SOME NEW BARLEY RECIPES.

Everybody is talking about barley these days. Here are some new recipes sent out by the United States Food Administration which will interest you:

- Steamed Barley Pudding. 1 egg, 1 cup molasses, 1 cut sour milk, 1 teaspoon soda, 3-4 cup corn meal, 1 cut barley flour, 1-4 teaspoon salt, 1 cup chopped raisins.
- Beat egg, add molasses, milk and soda dissolved in a little cold water. Sift corn meal and barley flour and salt together and combine with first mixture. Add chopped raisins, and pour into well greased baking tins or popover cups. If the latter are used, cover each cup with a well greased paper. Steam two hours.
- Barley Baking Powder Biscuits. 2 cups barley flour, 1-2 teaspoon salt, 2-3 cup of milk, 4 teaspoons baking powder, 2 tablespoons fat.
- Sift the dry ingredients together, rub in the fat, and add the liquid until a soft dough is formed. Roll to about 3-4 of an inch thick and cut with a cookie cutter and bake in a hot oven.

Dough should be softer than for wheat flour biscuits.

Barley Sponge Cake.

- 4 eggs, 1 tablespoon lemon juice, 1 cup sugar, 1-3 cups barley flour, 1-8 teaspoon salt.
- Separate the white and yolks of eggs, beat yolks till thick and lemon colored, add the lemon juice and salt, then add sugar and beat till it is light. Fold in the well-beaten whites of eggs and the lightly sifted flour and bake in moderate oven.

RESTRICTIONS PLACED ON FURLOUGHS

Contagious diseases and their adequate control as a matter of military importance in our training camps has reached such a stage that the United States government has detailed Major Joseph J. Kinyoun, M. R. C., to North Carolina to rigidly enforce necessary health measures, including the laws already existing in regard to reporting and quarantining contagious diseases together with such other measures as may appear necessary for the adequate protection of our military population.

The nature and scope of Major Kinyoun's work is not fully known, but it appears that the war department has found that troops coming from North Carolina and returning from furloughs from North Carolina to military camps, seem to have been afflicted with an unnecessary amount of contagious diseases during the past winter, and it is with the idea of better determining the location of epidemics of contagious disease among the civil population in order to guard against unduly exposing other troops to recruits and men returning from furloughs from such communities. It has been suggested that recruits from communities were contagious diseases are known to exist may be kept under close observation or possibly even isolated for a time from the rest of the camp, and further more, that furloughs for enlisted men returning to communities known to be free from or at least properly reporting all cases of contagious diseases as required by law.

THE GOD AND KAISER.

The Kaiser immediately wires Mrs. Kaiser telling her that the Lord is on his side.

The god who is on the side of the Kaiser in France is the same god who was with him when he decreed the butchery of innocent babes and helpless mothers on the Lusitania.

It is the same god who inspired in his perverted brain the murder of Miss Edith Cavell.

It is the god who taught him to gloat over the destruction of unarmed cities and who commended the murder of cripples and "assault" of women.
