### Facts That You Should Know

Some citizens ask me "Did you ever cure tonsillitis?" I do not and never did like the word CURE. If I were to answer the question on the spur of the moment, I would say most emphatically, NO. The word Cure means to HEAL, to MAKE WELL. NO LIVING PERSON POSSESSES THE POWER TO HEAL ANOTHER but each of us has this healing power WITHIN OURSELVES for the healing or reparation of our body.

### You Can't Cure Me I Can't Cure You

You can however cure yourself providing the body is not interfered with. IF YOU ARE DISEASED THERE ARE NINETY-FIVE CHANCES OUT OF A HUNDRED THERE IS INTERFERENCE.

Now you come to the Chiropractor. You have Tonsillitis. I know of a SPECIFIC PLACE WHERE I WILL FIND NERVES PINCHED. You have Appendicitis. I know of another specific place. BOTH CASES HAVE PINCHED NERVES. Nothing changes only location. No medical man knows the function of the tonsils, therefore he should not be permitted to remove them. Is it not better to keep these much abused little organs than to deprive your body of something that an ALL WISE CREATOR KNEW WAS ESSENTIAL TO OUR NEEDS? I can't make the sun shine, but I can RAISE THE SHADE and let the SUN IN THAT DARKENED ROOM. I can't make healing force but I CAN ADJUST SUBLUXATED VERTEBRAE AND LET IT IN TO THOSE diseased tonsils.

## We Give Good Service Because We Believe It Is Good Business

Frankly, we Goodyear Service Station Dealers admit that we could make more money on each tire by selling you some other brand than Goodyear.

There are several fairly good brands of tires on which the margins are greater—on which we could even allow you a special discount and still make equal profit.

But we could not do these things and give you as good a tire as the Goodyear Tire.

Because it costs money to put quality into an automobile tire, just as it does to put quality into a piano or a suit of clothes.

We probably could make more money temporarily, too, by withholding the service we now give Goodyear users.

This service costs us money—in time, labor and equipment.

But we could not withhold it and continue to give the Goodyear user the full measure of satisfaction he now enjoys from his tires.

And it is upon this satisfaction that we base our hopes for permanent business success.

This sign identifies the Goodyear Service Station Dealer.

Goodyear Tires, Tubes and Accessories are always kept in stock.

### TRADE AGREEMENT IS HELD UP BY TERROR

Washington, April 11.—The pending trade agreement between this country and France, on the one side, and Spain on the other, is held up by a German threat to Spain not to let her ships leave her harbors if she finally ratifies it.

This agreement aims primarily to obtain supplies for France in Spain in return for cotton from this country for Spanish consumption. In addition certain supplies for Pershing's army, especially leather goods, were to be shipped to France from Spain. But the real object is to obtain foodstuffs and minerals and other raw materials from Spain to France. The agreement between this country and Spain had been ratified. There remained only to ratify the arrangement by which France was to create credits for her purchases in Spain, when Germany intervened with her threat.

German Threats Potent Now.

German threats are especially potent just now. Her terrorism over neutrals was never greater than it is now since the big western drive began. All negotiations this country has under way with European neutrals are now checked while the issue is being determined in France. The little countries are watching to see who will win. They do not want to incur the wrath of a possibly victorious Germany.

Holland is in an especially dangerous position and has been doing her utmost to avert Teutonic ill will by refusing to take advantage of our promise to supply her with food if she would send her ships for it. The allies and this country are under a pledge not to seize any more Dutch ships, but Holland kept her ships at home, perhaps because she fears that

Germany will torpedo them if they leave port, but pretending to fear that the United States will seize them if they come here. Her food situation is so grave that she can not maintain this attitude long. And there is reason to think that she is watching the progress of Hindenburg on the west front before deciding to incur German disfavor by appearing to accept the allied seizures of her shipping and sending to this country for grain.

W S S

Mr. Gustav Ohlinger testifying in behalf of the bill to dissolve the German-American Alliance said: "The official bulletin of this organization continually points out that where the state goes dry the pro-German spirit dries up."

Mr. Wilson says that three breweries are all ready to devote their plants to this business and that others are preparing to follow their lead.
