Tomorrow Thursday, May 30 Day of Fasting and Prayer

PRESIDENT WILSON'S PROCLAMATION, IN RE-
sponse to a resolution of Congress, designating the 30th of May as a day of public prayer, humility and fasting, is sure to touch a responsive chord in the hearts of most true Americans. During that day we are urged to repair to our respective places of worship, and there, in the presence of Him, Creator and controller of destinies, offer our humble supplications, on behalf of all our people, for victory for American arms and for those of our allies in the war, and for the speedy establishment of peace on a just and lasting foundation.

This Store Will Be Closed Thursday All Day

in order that all our employees may have the opportunity of using the day as our President and Congress have designated.

"Time Is the Stuff"

Franklin said: "Time is the stuff that life is made of."

The chief function of a motor car is to save time—to cut out the waste of hours in getting from place to place by ordinary means—to increase the efficiency of the user.

The Dort is pre-eminently a utility car—a car for active, useful people; ample without excess, comfortable without clamor. Its every line bespeaks efficiency without waste.

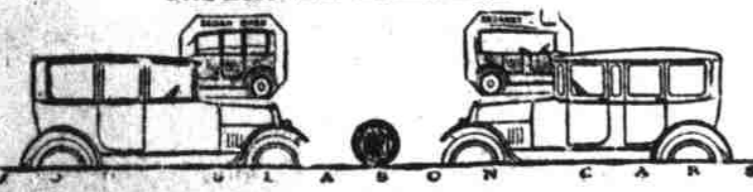

Moderate in size, light in weight, it "goes easy" on gasoline, oil and tires. And because it is sturdily and honestly built of worthy materials, it stands up under the most constant, taking-it-as-it-comes usage.

SHAKE WITH OLD SOL

War gardeners of the United States are congratulating themselves that they have an extra hour of daylight. Reports from this town to the National War Garden Commission at Washington show that they are making good use of it.

According to a census taken in Denmark, which has about one-third of the area of Wisconsin, that country has more than 5,400,000 fruit trees.

SPENCER GOES OVER THE TOP ONCE MORE

Votes to Increase Her School Support by an Additional Tax of Twenty Cents on Each \$100.

ONE HUNDRED AND NINETY-FOUR VOTES FOR MEASURE

Friends of the Special Tax Worked Hard to Win and Deserve Great Credit.

(By A. W. HICKS)
Spencer, May 28.—With 194 votes for the special school tax and 63 votes against the measure Spencer voters on Tuesday authorized an additional levy of 20 cents on the \$100 property valuation and 60 cents on the poll for school purposes. In this the town did itself proud, the election having been one of the most spirited ever held in Spencer. From early morning until the polls closed at sundown many of the leading Democrats, Republicans, Prohibitionists and Socialists tugged shoulder to shoulder in the interest of improved schools, in the school room. At the last hour a number of leading citizens who had taken but little interest in the matter fell into the fight and rolled up a big vote for the proposed tax, a measure which had already received the endorsement of the town officials, school board, State officials and many others who realized that the time has come for Spencer to move forward in the matter of improved and enlarged school facilities. So determined to vote for the tax were some of the road men that they refused to go out on their runs and remained on the yards or at the polls from 1 a. m. Tuesday morning until the voting began seven hours later. Other road men exchanged runs in order to be here to vote, while still others caught at the other end of the road rushed home on fast trains to vote and work for the cause. Among those who worked hard for the tax were: C. L. Bunch, chairman of the school board; Postmaster W. D. Pethel, Mayor W. H. Burton, Capt. T. J. Rosemond, Capt. S. H. Cooney, S. F. Harris, Prof. J. E. Redfern, P. Stoulimire, Alderman B. L. Young, C. T. Gary, Engineer Jake Crossman, and numbers of others. The judges were Messrs. J. P. Crowell and E. S. Blackwell with J. R. Cruise registrar. The best of feeling prevailed throughout the day.

There was no great rejoicing when the final final count was made late Tuesday night. It was a glad day for Spencer. The supporters of the school tax belong to the progressive element in the community, men who have the interest of the town and the school at heart and realize that the best asset for Spencer is a good school. In voting the special tax, which is the limit of the law for the purpose, Spencer has lined up with other progressive towns and cities in the state.

There was of course some opposition to the measure for otherwise it would hardly have been an election. One man who refused to vote for the measure declared that he could not conscientiously assume additional obligations. When asked what amount of taxes he pays he declared with much emphasis that he pays 50 cents in Spencer and 50 cents to the state and county, being too old to pay poll tax. Another man who has eight children in school, which cost the town \$10.48 each last year, pays tax on an estimated value of \$800 and worked against the measure.
