this question-where will it be won? It must and will be won. Then the question is today-will it be won there or here?

Self-preservation is the first law of patricism, and this is a war of selfpreservation. It is our war just as much as it is the war of England, France, Italy, and Belgium. When we entered we were simply taking up aums in defense of our own liberties. It is a war of democracy for democracy, and this means that it is every man's war. It will not be every man's war, however, until every American has proved his participation in it in some concrete way.

A real democracy of wealth, which means the people's savings. must turn the tide. If you can not fight, you can save. If you can not save much, then save little. The letters "W. S. S.," stand for War-Savings Stamps. If we mobilize our savings and emplay them for war purposes, they will also mean We shall Succeed.

Colonel Fries is offering a bronze commemorative tablet to the public school in North Carolina which owns the largest number of War-Savings Stamps per capita on January 1, 1919. He says that if the bronze tablet offered by Miss Mary C. C. Bradford comes to North Carolina he will give the tablet he offers to the school owning the second largest amount of War-Savings Stamps per capita at the end of the year. All public rural and city schools are eligible to compete for the prize, and schools belonging to a system will compete as individual schools. The tablet will be awarded according to certificates from the principals of the schools competing.

The State is Endeavoring to Hold the Defendant Strictly to His Self Defense Plea.

DEFENSE COUPLES WITH 'UNWRITTEN LAW'' PLEA

A. L. Brooks Will Close for the Defendant and Samuel Haiskell of Knoxville for the State.

(By the Associated Press)

Lexington, June 5 .- It was believed at noon today that the case of J. Graham Heger on trial here charged with the murder of J. F. Deaderick, would reach the jury by nightfall. Two attarneys for the defense have already spoken and thethird spokesman for the state was nearing the end of his argument at that hour. Four lawyers are to address the jury.

The state in its argument this morning sought to hold the defendant solely to his plea of self defense and endeavored to show the improbability of self defense on acount of the condition of the room in which Deadrick was shot.

Counsel for the defense stressed heavily on the "unwritten law" as a leading cause, coupling it closely with the self defense plea.

A. L. Brooks, of Greensboro, will close the argument for the defense and Samuel G. Haiskell, of Knoxville, Tenn., an uncle of the slain man, will sum up for the state.

First Anniversary of American Registration for an Army and Another Registration is On.

ANOTHE MILLION YOUTHS ARE REGISTERING TODAY

Thousands of Local Boards Are Registering Young Men of Age Since the 5th of Last June.

(By Associated Press.)

Washington, June 5 .- Today, on the aniversary of America's first manpower mobilization, another million youths, the estimated strength of the class of 1918, register on the first sta-

tion of the journey to the colors. When their draft registration cards come into their hands, they come to the disposition of a swift, smoothlyworking and practiced organization, whose agencies in every country-side, hamlet and city of the land have assumed successfully the task of discriminating between the nation's need for men who can fight or work, and its additional need for men at home to

support its dependent population. Observers, foreign and domestic, military and civilian alike, class the performance to date under the American selective service law as the most tangibly successful of its military efforts, and regard the accretion to the man-power reservoir of the youngsters who had not reached their majority one year ago as the most certain assurance of the final down-A SIMILAR STORY fall of the Prussian autocracy. Provost Marshall General Crowder. who supervises the draft, fixes the tentative number given above for the day's new total, and likewise from the experience tables of the year places the number of potential soldiers to be added to the list today at 750,000, concluding that the class will be 75 per cent composed of military

As they assemble at the registering stations today, the total of men raised by the draft in the United States for its armies will pass 1,300,000. Before 000, for the immense military machine that owes its existence to the readiness of plain Americans to fight "force, force to the utmost, and force without stint."

The 4,500 local boards throughout the country who take the burden of the work have named registering clerks for every 100 of the young men within their jurisdiction. Men absent revolver went to the witness stand unavoidably from their homes on registering day may apply to any board for their cards. Names as recorded will pass into the existing classificacations, their status as to dependents Deaderick went to see the Heges and and as to industrial or agricultural occupations, they will be assigned to Class One, Two, Three, Four or Five. The system of determining the order of their cal las among themselves the provost marshal general has not yet fixed, but the general expectation is that some sort of a lattery of the tyre previously used, will be condu-ed on a national scale. Yet of t officials are not certain, because recurring draft calls come more swift-ls, and run to larger totals now, and the classification has come to be more important than the numbers.
