INFLUENZA DEATH TOLL IN STATE APPALLING

During Month of October More Than 5,000 Deaths Occurred From In-fluenza and Ifluenza-Pneumonia.

Raleigh, Nov. 25 .- During the month of October the epidemic of influenza levied a death toll in North Carolina in excess of even the highest estimates that were made while the epidemic was at its height. More than 5,000 people in the state during October died from either influenza or influenza-pneumonia. The exact figures can not be given yet because of

the incompleteness of reports from some of the counties. A tabulation of the reports to the tate.

Paper Money, Passes It and Lands in Trouble—Case to Superior Court. Nola Miller, a young negro woman, several days ago had a coat laid back at the Belk-Harry stores and Satur-day went to get it. The sale price was \$5 and Nola tendered one of the lady clerks a bill in payment. Shortly after she left the store it was discovered that the bill was a one dollar bill and that the corner had been torn off of a \$5 bill and pasted over the figure one on one end of the one dollar bill and changed at another place. The sheriff was notified and soon had the woman in custody. She still had in her possession the \$5 bill from which the corner had been torn to raise the one dollar bill. She was

All who have pledged themselves to send foodstuffs for the Thanksgiving bazaar, will please send the articles just as arranged to the depot agreed upon ,tomorow (Tuesday). The excepton to this arrangement will be in the case of bread, pies, milk and celery. Don't send them until further notice.

It is regrettable that the Thanksgiving dinner to be given under the auspices of the Red Cross had to be postponed, but because of the influenza epidemic it was deemed wise not to risk bringing so many people to-gether until the flu was conquered. The soliciting of food entailed a very great amount of work for the mem-

bers of the different teams, and in or-

der to avoid a repetition of this the plan was adopted to ask that the

things come in just as arranged on the day set for receiving them, Tues-

day, the 26th, and these things be put in cold storage until needed for the Red Cross, which is expected to be given Dec. 12. Ladies who promised pies, will please remember their pledge and when the notice appears abount Dec. 12 get the pies ready for serving on that date. All this will help out greatly in conserving time and work and will be greatly appreciated dried and by the ladies trying to make this dinner a success.

The crest of the epidemic was ap-parently reached during the fourth week in October, reports of cases and deaths both showing a decided falling off during the last few days of that month and the beginning of November. As a result the restrictive measures which were taken by nearly every community in the state to prevent the spread of the disease began to be re-pealed during the second week of the present month. New outbreaks of the epidemic have resulted in many different sections of the state, in some instances to such an extent that all possible restrictive measures had to be resorted to again. The general celebration held in practically every community of the state on "Victory Monday" brought crowds together, and rendered futille even those pre-cautionary measures that were still in
