board, to the effect that Mr. Schwab's personal expenses which were \$260,000 were charged to the shipping board.

Mr. Schwab declared the statement was "absolutely, unqualified. Ity and maliciously false" and that he personally paid all of his own expenses during his term of office as director general of the emergency fleet corporation.

Mr. Schwab sald that altho he was supposed to receive a dollar a year salary, he did not even collect that and for his travel from shippard to shippard while head of the emergency fleet corporation, he asserted, he had never received any compensation and did not want any.

any.

Mr. Schwab admitted that such a voucher as that charged by Colonel Abatic may have been paid to him but declared it was not for the purposes charged. He accepted the position as head of the fleet corporation, he told the committee, only at the urgent request of the chairman of the board and President Wilson.

dent Wilson.

In accepting the position, he declared, he insisted that all matters connected with his own ship building company he handled by other members of the board.

Colonel Abadie, who again took the stand, said he regretted the necessity of connecting Mr. Schwab with the voucher and said he hoped it was an error and that Mr. Schwab would be cleared. Asked further concerning the voucher Mr. Abadie reiterated his previous testimony that the information concerning it had been given him by Mr. Morse of Perley, Morse & Company, accountants employed to audit the shipping board books. He said the charge was entered as "overhead" in the main office of the Bethlehem company and that \$100,000 was charged to ship construction.

Campbell's, charges filed last month protesting the election in November, completed his work today and Mr. Doughton and his attorneys will leave the city today, Mr. Doughton returning to Washington to resume his duties in congresses.

Mr. Doughton denies all the main charges made by Dr. Campbell and will serve his reply this week. The next step in the contest will be up to Dr. Campbell, he has four days in which to name a date for the hearing of testimony.

Information obtained today by The News' correspondent from sources usually reliable, is to the effect that Dr. Ike Campbell, who is contesting the election of Congressman Bob Doughton in the eighth district, has failed to make good his promises to the republican congressional committee and that he will be advised, indeed if word has not already gone forward, to either drop the charges or make good. It is certain on the showing he has already made the commithe has already made the commit-tee is convinced he cannot unseat

Too much "Butler" is said to be responsible for Campbell bringing the charges. Butler, who had the republican congressional aspirant in tow while he was in Washington. in tow while he was in Washington, painted a very bad condition, politically speaking, in the eighth district. According to these representations, Campbell had been deliberately robbed of his seat and the committee was told that ample evidence could and would be produced to show that Campbell was really elected and that Doughton got in thru fraud. He has utterly failed to convince even a political committee that such is the case.

It is certain that no more financial aid will be extended him by the republican congressional committee unless he congressional committee unless he is able to produce more and better evidence that fraud was commit-

ted by the democrats in the eighth.
One prominent republican said today that he had never thought much of the contest after he saw Dr. Campbell taking counsel and advice from the former North Carolina senator.
