DAUGHERTY TO PASS ON PALMER'S WINE-BEER OPINION

"Whole Country" Interested Says New Attorney General - Wheeler Would Check It.

Washington, March 11.—An early review by Attorney General Daugherty of the recent ruling by Attorney General Palmer making valid prescriptions for beer as medicine under the Volstead act is expected soon.

Regulations to accord with the opinion handed down by Mr. Palmer last week were being drafted by officials of the internal revenue bureau but no date is set for it to become effective.

Regarding the general subject of prohibition enforcement Mr. Daugherty says the department of justice is not seeking additional powers and that it has not been suggested to him that his department take over the enforcement work now under the treasury department.

He added that he had his own personal views on the subject but declined to disclose them.

Would Overcome Palmer Opinion. Boston, Mass., March 11.—The ways to overcome what is termed the erroneous opinion of former Attorney General Palmer that beer and wine may be prescribed as medicine were outlined by Wayne B. Wheeler, general counsel for the Anti-Saloon League of America, who is in the city today.

"First," Mr. Wheeler said, "we will ask the new attorney general to reverse the opinion."

"Second, we will endeavor to get the remaining nine states that have no enforcement codes to do what the other dry states have done and prohibit prescribing of beer for medicinal purposes."

"Finally, we ask congress to change the law in this respect, it is necessary to do so."

"In the meantime the brewers cannot make any real beer until the new regulations are made and then only in very small quantities as it can be used in only nine states and under strict limitations."

Vermont Governor Grasp Ink Stand As He Faces State Highway Commissioner.

Montpelier, Vt., March 11.—Did Gov. James Hartness intend to hurl inkwell at the head of State Highway Commissioner Stoddard B. Bates during a conference they had just before the governor started for Washington to attend the inaugural?

Mr. Bates, accompanied by Senator Willis N. Cady, as a witness, went into the legislative chamber to find out if the governor had made statements that he could get no information about his department from Mr. Bates.

Mr. Bates is reported to have told the governor that he never refused him or any other citizen any information about the department, whereupon Gov. Hartness asked Mr. Bates, according to the report, if he was trying to say that he lied.

There is a disagreement between the governor and the legislature over state highway commissioner. The governor wants a commission and it seems probable he will get it.

Raleigh, March 11.—Dame Rumor places in nomination at the capital the name of Col. Alston D. Watts, of Iredell county, as candidate for the newly created position to be known as commissioner of taxation.

The colonel spent the closing week of the legislative session in Raleigh and watched the Neal senatorial reapportionment bill pass through the legislative hopper and incidentally heard his name used somewhat carelessly in connection with this bill and the lamented censorship of moving picture measure.

Now the word is being circulated that the colonel was here largely for the purpose of seeing that the bill providing for the taxation position was successfully engineered to its destination.

The appointment will be made by Governor Morrison. Whether he intends to name Colonel Watts does not appear at this time.

Second—The attitude of the peasants. As for the Petrograd region, military leaders say the Red army, if loyal, could easily put down the Kronstadt rebels.

London, March 11.—Thruout the winter the Bolsheviki have been rushing military preparations for three conquests.

Everything else has been sacrificed to the military machine. Food and transportation problems have gone by the boards.

Army discipline has grown more and more rigorous while conscription has increased.

Now, partly as the result of this policy, Lenin and Trotzky face an uprising so serious that it is unlikely they will risk carrying out their plans for three new continental wars.

1—Against Poland, to crush the Polish state.

2—Against the Balkans, to loot the Rumanian oil fields and the Rumanian and Hungarian granaries, and to seize Constantinople.

3—Against India thru the Caucasus, to capitalize Indian unrest and spread Bolshevism in the Near East.

R. R. EXECUTIVES FAVOR ACTION AS IN UNSKILLED

Cuts of Unskilled Workers Announced on All Western Roads and Some in the East.

Chicago, March 11.—Steps to bring about reduction in the wages of skilled employees will probably be taken by many railroads thruout the country as soon as the reduction can be made in the pay of unskilled workmen, according to officials of the association of railroad executives.

Such reduction if made will be handled by the individual roads in the same manner that preceded the announcement of cuts in the pay of unskilled workers without any attempt at concentrated or simultaneous action by the roads.

In line with this policy, it became known today, that the association of railway executives at a meeting at New Haven, Conn., March 4 adopted a resolution that it was the sense of the meeting that a reduction in the pay of skilled employees were not considered objectionable by the executives.

The matter was then referred to the individual roads. Officials of the association predicted today that announcements of a readjustment of the wage scale of skilled men, similar to the one made a few days ago by the Pennsylvania line, soon would be forthcoming.

From the labor side little comment came on the announcement of the proposed reduction in unskilled employees' wages. It was said the matter would have to come before the railroad labor board and the union chiefs are concerned in seeing that the roads act in accordance with the transportation act.

Chicago, Burlington and Quincy Railroad yesterday held conference with representatives of its 10,000 unskilled employees with a view to bringing about wage reductions.

The road proposed a reduction of approximately 8 1/2 cents an hour, varying in certain districts, Mr. Holden said. This would make the pay of unskilled employees approximately 40 cents an hour, the present rate being on an average of 48 1/2c, he said.

New York, March 11.—A general move by the nation's railroads to cut war time wage scales, long forecasted by all officials, appeared to be in full swing today. Following the lead of several lines which put into effect proposed cuts, the New York Central and the New York, New Haven and Hartford railroads in the east and virtually every railroad in the west announced reductions yesterday.

Further statements from the lines which have not yet announced cuts are predicted today.

Officials of various lines affected were in conferences with employees in an effort to reach an agreement on the proposed reductions.

The plans announced effect only unskilled and semi-skilled labor. Men engaged in the actual operation of the trains, telegraphers and station agents are not included.

CHI. AND ALTON CUT Chicago, March 11.—The Chicago and Alton railroad will take steps within a short time to reduce the pay of employees, W. G. Bied, public relations official, announced today. The reduction will be made to bring about the ultimate reduction in freight and passenger rates which are now more than the public can bear, Mr. Bied said.

A 20 Per Cent Cut Announced.
