R. R. SHOP ROWS

Violence Marked Return the South.

(By Associated Press)
Atlanta, Ga., Sept. 22.—With
working forces in the railroad
shops of the south rapidly assumshops of the south rapidly assuming the normal stage railway officials are confronted with a new problem in the hostility and outbreaks between returning strikers and employes who took their places during the walkout.

Attorneys for the Southern rail-way at Knoxville, Tenn., today were making an investigation of a fight which marked the return of the strikers there yesterday. Four-teen men suffered minor injuries and non-union men were driven from the shops before armed guards could quell the disturbance. Those who unlawfully participated in the outbreak will be prosecuted to the full extent of the law under the terms of the feder-al injunction, it was stated. In Atlanta, Macon and several

other southern cities Seaboard Air Line and Southern railway striking shopmen refused to return to work until assured they would not be compelled to work with the new employes. This demand was met by the railroads placing the men in different shifts but even under this arrangement the new men are quitting their posts in most cases

RESTORING LOCAL CREWS ON SOUTHERN YARDS

The yard crews on the Salisbury and Spencer yards of the Southern ty of engines and other obstacles encountered during the worst of

encountered during the worst of the tieup, are being restored.

Four or five crews were laid off temporarily during the strike, the first being cut off a few weeks after the tieup began and later others being said off. However, enough yardmen were kept on duty to attend to the work that could be performed under the existing conditions.

laid off are being placed back and within a short time it is expected things will be normal on the big railroad yards of Salisbury and Spencer.

A. S. JONES ELECTED

At the meeting of the Y. M. C. A. Board last night Mr. A. S. Jones was re-elected as president of the Young Mens Christian Association; Mr. W. Barrett Taylor, Jr., vice president; R. L. Bernhardt, recording secretary; J. W. Fletcher, treasurer; Edwin M. Hoffman, General Secretary. Mr. T. M. Kesler was elected to fill a vacancy-on the board.

cussed and decided to hold off the move until local conditions were a bit more favorable.

It was decided to have an an-

nual meeting to which all men underwriting the local work would be invited. This will be a supper with all the features of good fel-lowship and enthusiasm that mark such get togethers.

group of boys as one of the entertainment features. It is hoped to secure Mr. O. D. Hinnant of Wli-

the main items. Summer camp was very successful and plans for improved facilities at the Edgemont site were suggested. Thirty five boys and four leaders were in the Junior Camp which held for almost two weks.

almost two weks.

Fathers and Sons Week, a special conference for Sunday workers and other items in the Association program were touched upon. The board enters upon the fall program with a determination that while there may be an embargo on some things right now—there shall be no embargo on what the some things right now—there shall be no embargo on what the local Y. M. C. A. is to do this coming fall and winter for Salis-

HEAD OF STATE LEGION CRITICISES HARDING

Charlotte, Sept. 22.—Criticism of President Harding for vetoing the soldler bonus bill was voiced in a published statement today by James A. Lockart, recently elected tate commander of the North Carolina department of the Ameri-

Carolina department of the American Legion.

The bonus, Mr. Lockart declares, was designed to aid the American soldier who went to war at a financial sacrifice and to set him on his feet again in order that he might have an equal chance with those who did not go.

HARDING SIGNS COAL DISTRIBUTION BILL; STENS FUED HEAD

(By Associated Press)
Washington, Sept. 22.—President Harding today signed the administration coal distribution and anti-profiteering and the fact finding coal commission bill.

of Old Men to Work in E. Stens, vice president of the Chicago, Burlington and Quincey Number of Instances in railroad, was today appointed federal fuel distributor under the new coal distribution and anti-profiteering act.

Ohio Decision Gives Impetus to Plans for Similar Referendum Other States.

Washington, Sept. 22.—Decision of the Ohio Supreme court that the people of that state have a right to vote on a beer and a wine amendment to their State Constitution in November has given new impetus to plans for similar refer-endums in a number of other states.

In Texas the Secretary of state raised a similar objection to the one raised in Ohio, and as the question in that state is complicated by A brief summary of the years tion in that state is complicated by work and what the Y is doing will politics, Hinckley's organization is be given in dramatic form by a keeping hands off.

The general secretary read a brief report of the summer activi-ties. Swimming lessons, club Clark Inn summer assembly grounds of the Associated Reform-ad Presbyterian church, it was an-

Greensboro, Sept. 22.—George Norwood, of Goldsboro, president of the Tri-State Tobacco growers association, will address the Guil-feed County Co-operative Tobacco Growers Association tomorrow at

Plans for the completion of the Guilford county organization will be discussed at the meeting.

CRESS FUNERAL YESTERDAY
The funeral of E. Ross Cress,
Southern yard brakeman who died
Tuesday night as a result of both
legs being cut off when he fell
beneath a train on the Spencer
yards, was held from Haven Lutheran church yesterday afternoon at
4 o'clock, conducted by Rev. George
H. Lingle, assisted by several other ministers, and the burial was in
Chestnut Hill cemetery. A large
erowd attended the services, many
of these being railroad men and
fellow employes of the unfortunata man.

Carolina Development Association Determined: Fred Tate is Chosen President.

Determination to fight for the restoration of trains 21 and 22, advocating a policy of advertising the state and electing Fred Tate, of High Point, president, were the three outstanding features of the meeting of the Central Carolina Development association held last night at the Yadkin hotel.

The twenty or more men who sat down to lunch and to discuss mat-ters of interest to their-immediate community, came from more than a half dozen towns in the Piedmont section that have been endeavoring to co-operate for the good and for the advancement of the section re-garded as the garden spot of the state, and their earnestness at this meeting indicated that the organization is set for some real beneficial service.

John B. Sherrill, of Concord presided and stated the object of the meeting. Said that he believ-ed that this groupe of men could and would do many fine things for the state, and urged that meetings be held regular, that a stronger or-At least four states will vote in November on the same question, thus precipitating a new legal battle over prohibition for the United States Supreme court to settle.

The issue now raised is this:
Can a state, through an amendment to its constitution, nullify or evade a provision of the Federal Constitution.
Consider Similar Referendums.
Massachusetts, Illinois, Califor-

Coming to the election of officers Coming to the election of orncers Fred Tate, of High Point, was made president. He was named with a rising vote and the secretary was instructed to revise the old lists of vice-presidents and they were re-elected. Pete Murphy was instructed to have his by-laws made for the October meeting. ready for the October meeting, which is to be held at High Point.

J. F. Hurley was reelected as secretary and treasurer, and John B. Sherrill was given a rising vote of thanks for his splendid service as grounds of the Associated Reformed Presbyterian church, it was announced today by R. N. Hunter, a member of the directorate operating the company. The building program will be undertaken immediately, it was decided.

GEORGE NORWOOD TO

ADDRESS GUILFORD'S

CO-OPERATIVE ASS'N

Greensboro, Sept. 22.—George
Norwood of Goldsboro, president

thanks for his splendid service as president for the past three years.

The committee named to push the matter of restoration of trains 21 and 22 is composed of the following. President Tate being chairman; E. B. Jeffress, J. K. Dorsett, W. J. Armfield, C. F. Lambeth, J. J. Farriss, Wade Phillips, George L. Hackney, T. A. Finch, M. L. Cannon, E. J. Sharpe, J. B. Sherrill, J. E. Davis, J. F. Shinn, H. R. Wake, J. M. Boyett, A. B. High and C. C. Cranford.

By unanimous consent this was agreed to be the very best meet-ing ever held. It was adjudged so because the wide representation saw as never before the possibilsaw as never before the possibil-ities of such an organization and determined to work for a full real-ization of these possibilities. The whole meeting gave evidence of an earnest enthusiasm and determi-nation to reach out and serve the

SALISBURY EVENING POST

"By Chance" may not be much on looks, but he's a prise winner just the same. He won the first award in the English buildog class at the Westchester Kennel Club's annual show at Rye, N. Y., and made Mrs. sie Lane of Mt. Vernon, N. Y., happy.

Building Permits Totaling Over \$35,000 Issued in Past Few Days; Mostly Residences.

Although freight shipments have been tied up to a serious extent recently and building materials have been lard to get there has been considerable activity in pre-parations to build and within the parations to build and within the past few days City Engineer J.

W. Webb has issued permits for the erection of buildings and repairs to others totalling \$35,735. Now that the freight shipments are being opened up and the embargo on lumber and other building material will be lifted in a short time it is expected that there will be applications for quite a number of permits for the erec.

North Carolina showed as decimes in the number of permits for the erec.

North Carolina showed as decimes in the census bureau.

The number of active spindle hours and increase of more than 988,002,129, and incr number of permits for the erection of buildings, especially homes, despite the fact that winter is ap-

Permits issued by the city engineer since the last report, work on a number of which has already begun, are as follows:

Paul Rubber Company, a one story brick addition to its plant on the Southern Railway in South Salisbury, to be used as a tube plant, \$7,000.

Mrs. Lee S. Overman, repairs to building on North Main street recently vacated by the Summersett Undertaking Company, \$8,000. A. J. Wilson, one story 7-room residence, Maupin avenue, \$4,500.

Jessie J. Horton, 4-room dwelling, West Horah street, \$3,000.
Calvin Bagle, 7-room residence,
Jefferson Heights, \$4,000.

employment.

Reuben Robertson, president of the company, said that officials of the Southern System hope to lift the embargo this week.

WOULD DISMISS COMPLAINT AGAINST PULLMAN COMP'Y

CONGRESS QUITS

Passage of Tariff Bill and Soldiers' Bonus Bil Republican Featured Congress.

(By Associated Press) Washington, Sept. 22.—The second session of the 67th congress adjourned sine die at non today.

Passage of the adjournment resolution was marked by a brief thrust by Senator Harrison, democrat, Missinsippi, at the Republicans. The Missinsippi senator, declared that the past session was the "most reactionary congress since the time of Aldrich and the mist subservient to executive dictation since the days of Roosevelt."

One of the last few acts to be done by congress was the passage of the deficiency bill carrying a total of \$2,454,210 including \$200,000 for the re-lief of Americans in Smyrna.

Passage of the permanent tariff revision and soldiers bonus bills probably were the chief features of the session, which began Dec. 5 last and which was the first regular session of Congress since inauguration of the Harding administration, the first session being specially called in the spring of 1921. The Washington conference on limitation of armament and Far Eastern questions, and the rail-Eastern questions, and the rail-road and coal strikes, however, gave Congress new and unexpect-ed problems to deal with. The nav-al limitation and a half dozen othal limitation and a half dozen other conference treaties were ratified by the Senate last March after weeks of debate delaying other legislation and about as many weeks were required for conferences and legislation growing out of the two strikes—the Federal Coal Commission and coal regulation and distribution bills.

Scores of other new laws were made and a dozen regular and several special appropriation bills, carrying upward of \$2,250,000,000, passed the first under the new budget system and the reorganized congressional appropriation committees.

The session was marked by

The session was marked by three personal addresses by President Harding at joint sessions, one, opening the session, another one on merchant marine legislation and a third on the industrial situa-

confirmation of former Senator Sutherland of Utah as Associate Sutherland of Utah as Associate Justice of the Supreme Court to succeed former Justice Clarke, resigned; deaths of Senators Penrose and Crow of Pennsylvania; resignation of William S. Kenyon from the Senate to go on the Federal bench and the long tariff debate in the Senate. The tariff discussions began April 11 and broke all congressional records for a cussions began April 11 and broke all congressional records for a continuous legislative day, thru daily recesses without a single adjournment, from April 20 to Aug. 2. The abortive effort for Senate cloture, still pending, and the row over appointment of Nat Goldstein to be St. Louis internal revenue collector, ware other features.

Politics, as might be expected before the bi-ennial congressional elections, was constantly in the elections, was constantly in the capitol air during the entire session, with innumerable pastisan speeches and moves from leaders of both dominant parties. Defeat of veterans such as Chairman McCumber of the Senate Finance Committee in the primaries during the session and announced retirement of others such as Chairman Fordney of the House ways and means committee foreshadowed coming changes in Congressional membership.

Headed by the tariff bill, the sesion's more important legislation provided for:
Creation of the Allied Debt Funding commission.
Appropriation of \$20,000,000 for Russian relief.

BARN AND GRANARY BURN WHEN AUTO TANK EXPLODES

China Grove, Sept. 22.-Explosion of the tank in his automobile resulted in the burning of the barn and granary of Luther Ketchie, prominent farmer, near Gold Hill, last Sunday. The loss ls estimated around a \$1,000.

Mr. Ketchie had just returned

from a trip Sunday afternoon late and had put his car in the barn for the night. He noticed a strong gasoline odor coming from the car and later went out to the barn with the intention of making an examination of the leakage. When he started to fix the leak ing tube, the carbureter exploded

stunning him. He had just managed to get out of the barn, however, when the gasoline tank in the machine blew up, setting the barn on fire. The barn and granary were demolished.

Efforts to put the fire out were

This Creates One of the Worst Perils of Near Eastern Situation; Situation Series.

(By Associated Press)
London, Sept. 22.—Views on the
near eastern situation here oscilate between hope and fear with a slight tendency in favor of the hopeful side of the balance. Nothing has happened within the last 24 hours to make the posi-tion materially worse, although it

continues serious enough.

The immediate peril is the possibility that the Turkish nationalist troops will attempt to take the British position along the Darda-

FRENCH SEEK TO

PRICE TWO CENTS

British Refuse to Withdraw: Turk Nationalist Seize Ezine on the Dardanelles.

(By Associated Press.) Paris, Sept. 22.—The French cabinet decided today that in view of the refusal of the British to withdraw their forces from Changk on the Asiatic side of the Dardsnelles, the efforts of the French government should be directed toward preventing the war between

the Turks and British. To this end, it was agreed to send Franklin Bouillon to Smyrna.

Turks Seize Town.

Constantinople, Sept. 21, (11:45 p. m.)—The Turkish Nationalists forces have seized the town of Exine on the Asiatic side of the Dardanelles and are threatening Kum Kalesi, an important key position to the south side of the straits.

The Kemalists were not opposed.
The nationalists move, in the opinion of naval experts here, will enable the Turks to prevent free ingress into the Dardanelles to the British fleet units on the way to

Malta.

The important positions involved, were prior to today, occupied by French and Italian troops from their heavy Turkish battary and commands entered the straits.

To Check Invasion.

Athena, Sept. 22.—Greece will never permit the Turks to invade Thrace which she considers part of her homeland and retention of which is an "essential preliminary condition to any peace."

This declaration was made in a statement to the Associated Press today by the Greek foreign office.

road, from the point where North Long street extension enters this road to a point four miles toward the ferry, converting the old macadam road into an improved hard surface highway.

afterial for both of these projects is now being placed on the ground and the gang No. 2 will be moved to this section just as soon as the Sherrill's ford road is finished.

GAS MASK NOT UNIVERSAL PROTECTOR

Washington, Sept. 22.—The army gas mask, in its regular form, does not afford protection against all nonious gases. The gas mask laboratory of the United States bureau of mines at Pittaburgh recently investigated the army type of mask to determine its fitness for use in work about smelters, blast furnaces or similar industrial operations, or

work about smelters, blast furnace or similar industrial operations, of possibly in mines. It also has tried to modify the mask for such use. The investigation developed the this type, while affording protection against all the gases met in warfare, does not afford protection against all gasses met in industrial life. It does not protect against carbon menexide, the gas hazard in coal mines, nor against illuminating gas, natural gas, ammonia, and the products of combustion found in burning buildings.
