Confederate Brigade Leaders Report Men in Fine Condition; Fling a Challenge.

(By Associated Press)

Asheville, Sept. 27 .- "The first brigade's in good condition, sir," reported Col. P. J. Wood, standing at attention despite the weight of four score years, as he saluted the livisional commander to give accounted of his grey veterans in the tampaign the past year against the advance of time—the ever persistent foe before whom sooner or later the men who defended their homes and their ideals in the 60's with gun and sabre must perish.

"The first brigade's in good con-lition, sir," he repeated, "and composed of as fine body of men a ever fought, though the ranks have been disseminated and their files thinned to a mere skeleton." Colonel Wood was carrying the

But Gen. P. G. Alston, commander of the second brigade, was present and made his report direct to the commander, asserting proudly that Warren county, with only 30 living veterans, had 22 here for the reunion. He paid tribute to Zebulon Baird Vance as "the greatest and grandest man North Carolina had ever produced." Not to be outdone Gen. G. Hall,

## A SWEEPING VICTORY IN N. J. FOR FRELINGHUYSEN

Newark, N. J., Sept. 27.-United States Senator Joseph Frelinghuysen, personal friend of President Harding and one of the administration leaders in congress, was renominated by the New Jersey Republicans yesterday in a sweeping victory of nearly two to one over George L. Record, a Jersey City lawyer.

In the November election Senator Frelinghuysen will fight it out at the polls with Governor Edward I. Edwards, the Democratic nominee for United States senator. As Governor Edwards is the champion of the "wets" New Jersey voters expect a warm contest on the prohibition issue.

## 800 BRITISH WOUNDED ARE STILL CONFINED HOSPITAL

London, Sept. 27 .- Although is nearly four years since fighting in the great war ceased, there are still some 800 patients in a special surgery hospital in London with wounds that refuse to heal.

Operations have been endured pluckily, but without permanent success. Nearly all the cases are those of fracture of some kind or another, and a large staff of surgeons and nurses is kept busy. Many of the present patients have been at work, but they returned to the hospital for attention because pieces of shrapnel turned up in various parts of their bodies, and these have to be removed lest they cause trouble in another limb.

## GIANTS 40 YEARS OLD

New York, Sept. 27.—"Giants in action as well as in stature," mus-ed old Jim Mutrie, one day more than a quarter century ago as he sat observing the New York team, then an aggregation of six-footers, stride to victory as easily as a fairy-book man wearing seven-lea-gue boots would win a Marathon

The Giants are now 40 years old.

Mutrie brought the club into existence in 1888 by inducing John
B. Day, a rabbid fan of the side-burns days, to innance his idea.

Jim took the management and played the first seasons on the Po-lo Grounds, then on Fifth Avenue, gaining admittance to the Nation-al League in its initial year by re-placing the Troy team.

"They shall not pass!" That same cry that was the death-knell to thousands of German soldiers during the war has been revived and revised and set to a peace-time version-"It Shall Not Pass!"-speaking of November 11, Armistice Day-unheeded, uncelebrated, unsong!

This decision was reached last night at an enthusiastic meeting of the Salisbury American legion. Plans were laid for the perfection of a "big day" November 11.

Events of the day will be staged at the fair grounds. It will be ushered in by a mammoth parade.

Merchants of the city have sig-nified their intention of making it a special sales day and are planning to co-operate with the veterans in every way possible. Several civic bodies have indors

The mystery surrounding the wild man" that created so much excitement last year about the old Tiernan lot on North Fulton street, has at least been partly solved, and as a result a negro giving his name as Will Brown and his home as Columbia, S. C., was this morn-ing convicted of indecent exposure and sentenced to the chain gang for a term of six months, the case coming up in the county court.

The negro was positively identified as one seen by several men in the bushes on the Tiernan lot and in that section of the grounds facing Fulton street last Saturday and who was perfectly naked. A young man who said he saw him went to report the find and while he was gone the negro was seen by another man to be hurriedly dressing and had made a getaway before officers arrived but he was later arrested and identified as the one seen naked.

Officers made an investigation at the point where the "wild man" was said to have been seen and there were barefoot tracks there. The evidence appeared conclusive although the negro denied that he was the man, stating that he was at another point at the hour named but he failed to have a single witness to beur him out. In a statement he seemed to intimate that he was fearing "more" trouble and could not give an acceptable account of himself and he was found

Chief of Police Kesler stated to the court that for several years just after the opening of the high school there had been complaints of a man seen acting strangely around this same place and it is now believed by officers that the man sent up this morning is the same one that caused considerable excitement and speculation about the Tiernan lot last year during the school term.

The investigation, as testified by witnesses, at a preliminary hearing here disclosed that the whipping was planned by Jenkins who had lived, it was alleged by the police, in a number of places as C. E. Webb, because he had tired of Minnie Jones, who claims she posed as the wife of Jenkins.

Part of Navy Has Gone Against the Government and Several Warships Are Said to Be Advancing on the G reek Capital.

(By Associated Press)

London, Sept. 27.—Greece is in the throes of a revolution which has already caused the downfall of the government and according to reports from Athens has forced the unhappy King Constantine to abdicate in favor of the crown prince, thus losing his throne a second time within five years.

A news dispatch from Athens, timed 8:30 a. m. says Constantine signed an abdication decree with reservations.

The revolutionary movement is making headway in all directions but thus far without reports of bloodshed.

The insurrection which, while not altogether unlooked for, broke out with formidable force and with unexpected suddenness, had its inception among the vanquished troops brought from Smyrna to the islands of Mytilene and Chios and among the soldiers at Saloniki. Strangely enough these two revolts seemed to have different objects—the former aimed at the overthrow of the government and King Constantine and the latter Sundays Do Not Count in at Thrace and against the Turks.

At least part of the navy of the government has gone against the government and several warships and transports manned by the revolutionists are believed to be advancing on the capital from Aegan Island where the revolt originated.
