DECLARATION OF WAR.

President McKinley's Recommendations-Bill Passed in Seconds.

Washington, April 25 .- The House today passed the resolution declaring the existence of war between the United States and the Kingdom of Spain in a manner which cannot fail to impress the world. dissenting vote and without a roll calling, terms of her neutrality proclamatic but with a solemn appreciation of the gravity of their momentous action. It required 1 minute and 41 seconds to accomplish this. The House was cosidering an election case when the message was received and simply paused to declare war. There was no excitement, no cavil, no word or question. It was only when the cheer that went up from the floor and galleries when Speaker Reed announced its passage, that the tremendous import of the act and the suppressed enthusiasm behind it were shown.

the resolution. Acting Chairman Adams w.ote the report and it was passed on its way to the Senate in an hour and six minutes. The Speaker signed it at 4:49. THE DECLARATION.

Following is the bill reported by the House foreign affairs committee: A bill declaring that war exists between the United States of Amereca and the Kingdom of Spain.

Be it enacted, etc.: First-That war be and the same is hereby declared to exist, and that war has existed since the 21st day of April, A. D. 1898, including said day, between the United States of America and the King-

dom of Spain. Second—That the President of the United States be and he is hereby direc ted and empowered to use the entire land and naval forces of the United States and to call into actual service of the United States the militia of the several States, to such extent as may be nece sary to carry this act into effect.

TO ARM AND EQUIP THE IN-SURGENTS.

Secretary Sherman Expect Them to do the Greater Part of the Fighting in Cuba.

Washington, Apri 23.-Secretary Sherman said to day that it was his expectation that for the present and the immediate future the insurgents would do the greater part of the fighting in Cuba. He | Spanish fleet which is said to have been added the statement that there was no at sea for some days, is unknown to any intention of taking the militiamen and new recruits into Cuba until thoroughly inured to the hardships of actual military life, and that probably the regulars also would be held in this country until later in the season. The Secretary expressed the opinion

that Admiral Sampson's fleet would take the first opportunity to form a junction with Gomez's army and that there would thenceforth be perfect co-operation between those two organizations in conducting war against the common enemy. "The insurgents are the best men for this service at present," said the Secretary, "and they can be trusted to do zealous work when well armed and well clothed."

He said that it was his understanding that the government would furnish the arms and munitions of war to fit out several regiments of the insurgents in good shapeand to put the entire Cuban army in good fighting trim.

SITUATION

Situation in the Philipines-War

News Given Out By Spanish Officials Not Believed The Campaign in Cuba May not be in Full Swing Until Next Fall, Atter the Rainy Season. Washington, April 27—The war situa-tion is substantially this: The blockade squadron remains passive before Havana, with no present purpose of bombarding or drawing the fire of the shore batteries.

The strategic purpose of an effective block-ade of the Cuban capital is being accom-plished to the entire satisfaction of the auplished to the entire satisfaction of the authorities here. There is no intention that a part of the fleet will be withdrawn for the purpose of affording additional protection to North Atlantic ports. As to the reports of the imminence of a naval battle off the Philippine Islands, the naval authorities here seriously doubt whether the spanish fleet will make a stand against the American ships. Their reason for this be-American ships. Their reason for this be lief is that the Spanish fleet is very inferior in number and quality to the American force under Admiral Dewey. The departish fleet will not go to battle on the high seas with Admiral Dewey, but will remain in port to secure the protection of the bat teries of Manilla, and consequently an en gagement is not expected for about two

There is no certainty that there will be an engagement at all in the immediate future, the main purpose of the American expedition being to seize and hold some itable Spanish territory in the Philip tines as a base of operations in Asiatic warrs. It is thought this can be done with the very fact that the Madrid officials

CAPTURE OF THE PANAMA.

The Little Mangrove Overhauls a Spanish Steamship Loaded With Refugees and a Big Cargo of Army Supplies.

Key West, Fla., April 25, 11:15 a. m. -The big Spanish tsteamship Panama, of the Ceballos Line, which left New York on April 20th for Hayana, with a number of Spanish refugees on board and a very valuable cargo, including, it is under stood, stores for the Spanish army, was captured last evening about 20 miles from Havana by the little light house tender Mangrove, now belonging to the mosqui to fleet. The Mangrove mounts two 6 ounders and four 38-revolvers.

The Panama is of about 2,800 tons, and very valuable prize. The Panama is commanded by Cap-

A MOVE ON MANILA.

Ships Sail From Hong Kong-Admiral Dewey Means Busiuess-The Commander of the American Fleet Determined to Capture the Spanish Ships.

London, April 28 .- The Hong Kong orrespondent of The Times says: "The American fieet, headed by the flagship Olympia, sailed at 2 o'clock p. m. (Wednesday), direct for Manila. The British cruise: Immortalite, will follow the Amer-

ican squadron." The primary object is the capture of the Spanish fleet which Admiral Dewey thinks more important than capturing Manila. He is determined to prevent its preying upon American vessels. On reaching Manila he will demand its capit-ulation within half an hour of his arrival. His men are in the best spirits and excellent health. There have been nine desertions, including six Chinamen, one Italian and one German during the fleet's stay at Houg Kong. Every preparation has been made. The ships are cleared and painted for battle and the general pinion is that the fight in thes waters will result in an easy victory for America. Her ships carry 122 guns, as against 96 or thereabouts, in the Spanish fleet.

It is Believed That Unless Compelled to Fight, Spain's Fleet

Will Avoid Engagements. Madrid, April 26 .- 8:3) p. m .- The panish government to-day sent a circuar to the powers, supplementing its cir cular of April 18, and expressing regret at the "hard necessity of being compelled to appeal to force in order to repel the scandalous aggression of the United States and defend the national dignity and hisorical integrity of the fatherland."

Continuing, the circular note says: History presents few instances wherein the reason is so evident on one part and the outrage so undisguised on the other. spain has on her side right, correct produre and prudence, while the United States has on her side only loyalty' and the impulse of unbridled ambitions."

After a reference to the "execrable onduct," of General Fitzhugh Lee, the note reproduces the text of the resolution of Congress, underlining the last words, as intended to deceive the Cubans. It is then predicted that the I-land

Juba will not be declared pacified until "it s ready for annexation Further on, the note gives the details of the rupture of the negotiations betweeen Spain and the United States, concluding with the following declaration: 'The Spanish peorle await the attack with tranquil serenity, decided energetically their right to remain in America, cofident that in this work they will have the assistance of the Cubans, who are Spaniards like them-

It is generally believed that in conference with this policy the Spanish fleet, unless compelled to fight, will avoid en gagements and the fastest ships will be employed to destroy the commerce of the
