We think you a grand man, we think your paper is the paper that every negro should support as long as she stands forth in the protection of the ladies of our race."

That reals like an inspiration of old Satan himself. This conference of negroes is indeed warlike and meddlesome, and they issue a pronunciamento, not in behalf of decenev and truth and law and order, but seek evidently to widen the growing antagonism between the two races, statement will show a great waste of this and to even precipitate a bloody conflict. They are public disturbers, men merely to gratify their demand for and are a great injury to their deluded and ignorant followers.

If there shall most fortunately be no war between whites and negroes it will not be because of these negroes' influrence. They ought to be ashamed of

their want of sense and propriety. They are no better than the foul slanderer they indorse.

If the white ministers in this section were to lend themselves to the purpose of lawlessness and slanderers and liars, and in convention assembled were to pass urritating, foolish, devilish resolutions the purpose and intent of which was to intensify public passion, and arouse their race to war, they would be repudiated and denounced by every white man of deency and sense. The Colonel was an errant shot. Sometimes he could make a brilliant record, and then he would suddenly become unable to hit the side of a barn.

The p.ivate who was shooting plumped bullets here, there and everywhere until General Burt became disgusted,

"Here, give me that gun?" he order-

The man obeyed. The Colonel took careful aim, let fly and hit the bull's eye

'That's the way I shoot!' he said tri umphantly.

Encouraged by his success, he drew bead and fired again. This time his aim was treacherous, and the bullet never hit the target at all.

The enlisted men tried to cover up a smile. But the Colonel was not in the the least discomfitted.

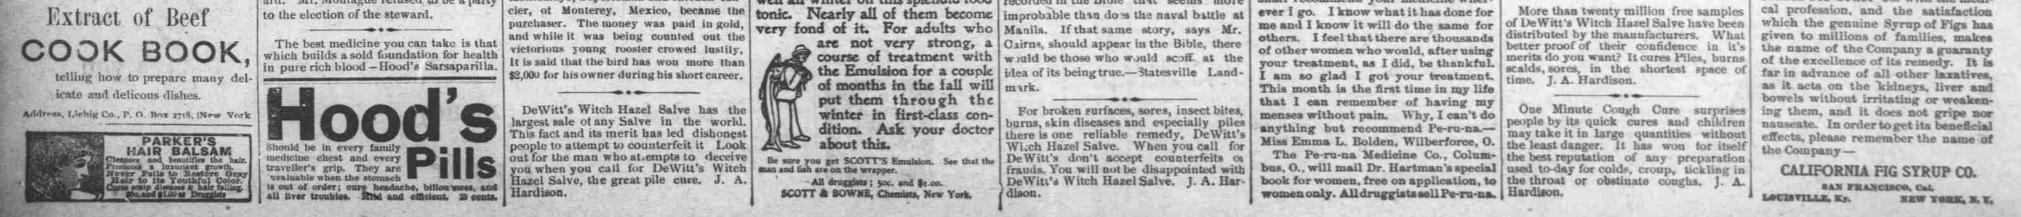

"That's the way you shoot," he said cooly, and handed back the gun.
