The United States Senate will be in the absolute control of the Republicans for at least six, and possibly eight years to come They will have, after the 4th of next March, 57 Senators out of the 90 members of that body, or a majority of 24. In Robeson county an attempt was

made to counterfeit the Democratic State ticket by substituting the name of H. F. Seawell, the fusion nominee for judge in this district, for that of McNeill, the Democratic candidate. The counterfeit was soon discovered and did no harm-except to Solicitor Seawell's character.

The M. & I. believes that the good white men of Anson county, who have heretofore affiliated with the Populist party, are sufficiently amused with running after strange gods and will be found shoulder to shoulder with their white Democratic brothers in the contest two years bence.

The MESSENGER-INTELLIGENCER Was the first paper in North Carolina to print a full account of the destruction of the printing office of the negro Manly in Wilmington last Thursday. The M. & I.'s graphic account of the trouble, written by that prince of newspaper men, Mr. W. H. Bernard, editor of the Wilmington Star, was given to the public at 1.30 p. m. on the day of the occurrence.

The talk of another torce bill for the South is being revived in Washington. If the Republicans desire to make the South solid for all time to come the way to do it is to put this threat into effect. But we warn them that it will take a bigger army than was sent to Cuba to subjucate our people and force them to accept negro rule.

Perhaps the next General Assembly will be the ablest that has ever met in North Carolina. It will certainly be the ablest that has met in many years. This is well. There are many things to be done that need to be well done and the State is to be congratuated upon the high character and splendid attainments of many of the gentlemen who have been straight.

There appears to be a very strong sentiment throughout North Carolina to elect Chairman Summons as Batler's successor in the United States Senate when the term of that worthy expires, which themselves." will not be until two years from the 4th day of next March. The feeling that this is due Mr. Simmons, as a reward for the gallant and successful fight he has made in behalf of the white people of the State, is not confined to any locality but

The talk of Dockery's contesting Bellamy's election is all popy cock. 1 is true the Republicans will be in the majority in the next Congress and will have the physical power to unseat Mr. Bellamy, but we will not believe that even Republicans can be brought to do such such an unfair thing. There is not a scintilla of evidence that Mr. Bellamy was not fairly and overwhelmingly elected. Leaving out the counties of Richmond, Robeson and New Hanover, the only ones in which it is claimed there were any irregularities, and still Bellamy's majority over Dockery is very large. If there is a contest at all it will be made in order to get the \$2,000 expenses allowed by Congress-and son Claude will be the old man's lawyer.

The Speakership of the next House of Representatives is now receiving a good deal of attention at the hands of the newspapers of the State. Quite a number of well known gentlemen have already been mentioned in connection with this important office, and the MESSEN-GER-INTELLIGENCER desires to add the name of Mr. H. Clay Wall, of Richmond county, to the list.

Mr. Wall, in the ordinary acceptation of the term, is not a politician, but no man in North Carolina entered more enthusiastically into the great battle that has been fought and won for White Su premacy. His speech at the opening of the campaign in Richmond county, in which the gage of battle was thrown down to the rotten Republican ring, which had so long ruled the county, not only sounded the key note in Richmond, but in other sections of the State where the heel of the negro had been placed upon the neck of the Anglo-Saxon as a result of Republican-Populist fusion.

The above is written without the knowedge or consent of Mr. Wall, and we have no information that he is even a candidate for the speakership. However, we believe that no more worthy gentleman could be called upon to preside over the deliberations of the next House of Representatives when it assembles in Raleigh on the 1st Monday in January.

Asbury Park, N. J., Dispatch to Balti-

A. L. Manly, the colored editor of The Vilmington (N. C.) Record, whose office was destroyed by white men Thursday, is at Asbury Park with his brother-in-law. He fled from Wilmington.

When seen to-day Manly said that while ie was perfectly willing to tell the story of his troubles so far as he himself was A New York Negro Preacher so oncerned, there were some features of the case which he could not make public at present, as the safety of others might be affected. The trouble, he alleged, all f editorial in The Record had been misuoted by the press of North Carolina, and only parts of it had been reprinted, with other editorials, tending to inflame he whites of the South. This, he said, had been done so as to scare the white Populist candidates.

The editorial which appeared in The Agricultural Society of Tybee Island, Ga., ren. early in August. In her speech Mrs. Felton said that money which was collected for foreign missions could be spent to etter advantage at home in educating oung white girls. She also said, accordng to Manly, that owing to the carlessness of poor white men of the South their girls were left yery much to themselves and became easy victims of colored men. Then she spoke of the low moral standing of the colored race. Manly says she ad vocated lynching as the only means of eradicating felonious assault.

Manly's editorial in The Record was a reply to Mrs. Felton's speech. He says he did not intend to attack any class or race but simply wrote as he did to defend "defamed colored men." For nearly a week after the editorial complained of was printed on August, 18, Manly alleged, nothing was said to him about it by residents of Wilmington or vicinity, and his relations with them were of the asual friendly nature until the white press

took up the subject nearly a week later. When asked if he intended to return to North Carolina, he replied that was a question which he could not answer at present. There were facts connected with that part of the case, which might affect others and he thought it would be best not to say anything as to his future

Manly would not tell how much his osses were. All he would say was that he had lost everything he owned in the world. He had carried an insurance on his property, but he said there was no clause n the policy which insured against the "fury of a mob,"

No Negro is Allowed to Live in Southern Pines. Washington Post.

"I am in a North Carolina town which is altogether outside the zone of race disturbances," remarked Dr. Edwin Gladmon, the well known physician of this city, and who is now conducting a sanitarium at Southern Pines, at the Ebbitt yesterday. "It is equal to Washington Irving's Sleepy Hollow, for freedom from bloodshed and disturbance, and also affords a very good illustration of how circumstances alters cases. Southern Pines was founded by eastern capitalists as a resort for invalids, and hundreds go there every winter seeking restoration of health. Its founders, notwithstanding their birth place and traditions, did not allow any sentimental notions about the negroes to enter in their plans. No negro is allowed to live or do business in Southern Pines. They are all congre gated in a place called 'Jimtown,' and and Mr. Guion, a lawyer, and they were when they visit the town proper, are
