The son says: "My father and mother owe their present strength and good health to Vinol. During the last two trying winters neither of them had a cold, and were able to walk farther and do more than for years. I think Vinol is perfectly wonderful. It certainly is

the greatest blood-making, strengthening tonic for old people I ever heard of." We want every feeble old person in this town to try Vinol. We will return their money without question if it does not accomplish all we claim for it.

## Forty Cents Per Acre

Some people say they can buy fertilizer ingredients and mix them at home and save two big round dollars per ton. Also, it seems if you don't use any fertilizer at all you can save thirty dollars per ton. This is what the ancient philosophers called reducing things to absurdity.

Any cotton planter in this country would quickly recognize the absurdity of doing without fertilizer. A little later, you will, after some coaxing, just as surely recognize the absurd in the two dollar saving. Two dollars per ton is ten cents per hundred. If you use four hundred pounds per acre, the saving is

#### Forty Cents Per Acre.

If you are planting a bale per acre, 40 cents is about

#### One-Half of One Per Cent on the value of the bale. If you get a fertilizer wrong

by only a half of one per cent., the saving is lost. It is not specials f

anything within half of one per cent. This requires skilled and trained operatives. It is not possible for any farm hand to mix up the ingredients so that every ounce will be like every other ounce. This requires special machinery. It is not possible for any planter to be sure of a correct and uniform fertilizer if it is mixed by hand. This requires the guarantee of a responsible fertilizer manufacturer who maintains his brands and is proud of them.

Forty cents' saving on certainly uncertain fertilizer, or half of one per cent on the result, is a certain way to risk ten per cent.

GREAT MEETING OF METH-ODISTS.

Discussed at the Sixteenth Quadrenpial Conferenc Which Will Meet at Asheville in May.

Asheville, Feb. 5 .- As the tho fast approaches for the meeting of of excavation operations along the the sixteenth quadrennial General line of the private motor road from Conference of the Methodist Episcopal Church, South, the members of motorman of a gasoline car containing the church are becoming intensely interested in proposed legislation affectsputtering fuse of a heavy charge of ing the church. Certain new issues, or new forms of old issues, seem to have superceded the proposition for a lina re-statement of the faith which was the core of discussion, the emotional center of the Birmingham conference in 1906. The conference will convene here on May 4, next, for a session of 21 days.

The general conference is the su preme legislative body of a church organization that numbers between the Ray mines and W. H. Lyalle, 1,700,000 and 1,800,000 members in the Southern States; some 10,000 churches, and about 6,500 traveling preachers and 5,000, local preachers. The bishops preside in the order of their seniority, and have no voice in the action of the assembly and no part in its deliberations. If one may judge by advance discussion the three overshadowing issues will be the modification of the episcopacy, the modification of the presiding eldership and the lengthening or the abo-

#### THE ZANZIBARIS.

Dense Stupidity and Amusing Blunders of the Natives. In the "Autobiography of Sir Henry

M. Stanley" the author says of the olored natives of central Africa "Good as the majority of Zanzibaris were, some of them were indescriba-

bly and for me most unfortunately dense. One man who from his personal appearance might have been judged it was to be loaded. He never could remember whether he ought to drop the powder or the bullet into the mus ket first. Another time he was sent with a man to transport a company of men over a river to camp. After waiting an hour I strode to the bank of the river and found them paddling in opposite directions, each blaming the other for his stupidity and, being in a passion of excitement, unable to hear the advice of men across the river. who were bawling out to them how to

manage their canoe. "Another man was so ludierously stupid that he generally was saver from punishment because his mistakes were so absurd. We were one day floating down the Kongo, and, it being near camping time, I bade him, as he happened to be bowman on the occa sion, to stand by and seize the grass on the bank to arrest the boat when I should call out. In a little white we came to a fit place, and I cried, 'Hold hard, Kirango!" 'Please God, master, he replied and forthwith sprang on the shore and seized the grass with both hands, while we, of course, were rapidly swept down river, leaving him alone and solitary on the bank. The boat's crew roared at the ridiculous sight, but nevertheless his stupidity cost the tired men a hard pull to as cend again, for not every place was

available for a camp. "He it was also who on an occasion when we required the branch of a species of arbutus which overbung the river to be cut away to allow the canoes to be brought nearer to the bank for safety actually went astride of the branch and chopped away until he fell into the water with the branch and lost our ax. He had seated himself on the outer end of the branch."

If you had positive proof that a certain remedy for female ilis had made many remarkable cures, would you not feel like trying it?

If during the last thirty years we have not succeeded in convincing every fair-minded woman that Lydia E. Pinkham's Vegetable Compound has cured thousands and thousands of women of the ills peculiar to their sex, then we long for an opportunity to do so by direct correspondence. Meanwhile read the following letters which we guarantee to be genuine and truthful,

Hudson, Oldo.—"I suffered for a long time from a weakness, inflammation, dreadful pains each month and suppression. I had been doctoring and receiving only temporary relief, when a friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so, and wrote to you for advice. I have faithfully followed your directions and now, after taking only five bottles of the Vegetable Compound, I have every reason to believe I am a well woman. I give you full permission to use my testimo -Mrs. Lena Carmocino, Hudsen, Ohio. R. F. D. No. 7.

St. Regis Falls, N. Y .- "Two years ago I was so bad that I had to take to my bed every month, and it would last from two to three weeks. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound in dry form. I am happy to say that I am cured, thanks to your medicine and good advice. You may use my letter for the good of others." - Mrs. J. H. Breyere, St. Regis Falls, N. Y. There is absolutely no doubt about the

ability of this grand old remedy, made from

the roots and herbs of our fields, to cure

female diseases. -- We possess volumes of proof of this fact, enough to convince the most skeptical. For S0 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ilis. No sick woman does justice to herself who will not try this famous medicine.

Made exclusively from roots and herbs, and has thousands of cares to its credit. Mrs. Pinkham invites all sick women to make her for advice. guided thousands to health free of charge. micham, Lynn, Mass.
