CHOWAN COLLEGE, MURFREESBORO, N. C.

FEBRUARY 1959

"THE PINES" — Another picturesque view of Chowan's beautiful campus is the circular driveway which is seven-tenths of a mile long. These giant pines which border the drive were young saplings when Chowan College was founded in 1848. There are some 350 trees of many varieties on the 50-acre college campus, and soon Spring will be offering its colorful dress parade. — Chowanian Staff Photograph.
