

#### GRADUATION

... a long awaited goal realized! During your two years at Chowan, this has been your dream. And now you've made it! You're a graduate of Chowan College. It's a time to be happy and receive the congratulations from family and friends... but it's also a time to shed a few tears as you realize you'll be leaving many friends, faculty, staff members and students who have cared and shared with you, behind. Scenes like this one with Lisa Dabney of Staunton, Va., are repeated each May as Chowan continues to fulfill its mission by helping young men and women grow and reach their goals and dreams.
