**DURHAM CITY NEWS.**

*Beef Items Picked up Here and There for Busy People.*  
 Buck Rogers, a very industrious colored man, of Broughton, died yesterday morning about six o'clock.

The Street Commissioner is making war on the weeds in some of our streets. He wishes the people to clear them off the side-walks in front of their residences. The judicious use of a hoe will make a great improvement.

A Person county farmer was in town yesterday and he tells us that it is his opinion only about one-third of the old crop of tobacco in his county has been sold. He tells us the farmers are disposed to come to Durham. We shall be glad to see them and they will get good prices.

The Durham & Northern Railway will sell round trip tickets from Durham to Richmond, Petersburg and Portsmouth for parties wishing to spend the fourth of July in either of those cities. Tickets on sale July 3rd, good to return till inclusive. Train leaves Durham 4 p. m. Fare round trip \$3.75.

Prof. M. H. Holt and wife, of Oak Ridge, are in the city visiting Mrs. Dr. Harris. Prof. Holt is one of the Principals of the Oak Ridge Institute, a school which is doing a most excellent work and gaining a wide reputation. There is no better school in the State and we are pleased to see the Professor in our town.

The Sun presents its readers with a well displayed and complete set of advertising cards for the second page of the Durham News on the

Whiting. That is the way to advertise. Mr. Whiting will, on the 1st of July, remove his works to the building opposite the Globe Warehouse where he will be able to supply the trade to greater advantage.

*Killed Himself with "Rough on Rats."*  
 News was brought to Durham yesterday that Mr. Nathan Fox a farmer about 80 years of age, living in Person county near Squire Heater, committed suicide by taking a dose of "Rough on Rats" Tuesday morning about 10 o'clock, and dying the evening of the same day. It is reported that he was in the habit of taking periodical sprays and was recovering from one of these when he was heard to remark Sunday that he intended to kill himself, but his family did not think he was in earnest.

*The Naval Cadetship.*  
 It was a little slow in coming but at last we have some idea as to who is the successful applicant. Hon. B. H. Bunn announces that Worth Bagley, of Raleigh, submitted the best papers from the competitive examination held in Raleigh sometime since for appointment to the naval cadetship at Annapolis, from this district, and he has given him the first recommendation for the appointment. R. D. Turk, of Johnston county, receives the second recommendation and is alternate for the appointment.

*A Three-Story Building of Pressed Brick.*  
 The Sun is informed that Mr. Wm. Mangum will erect a three-story building on the corner of Main and Morgan streets. We are told that work will commence within the next few days. The building will be of pressed brick and finished in handsome style making it a decided credit and ornament to our town. This is gratulating upon his intentions. Fresh Turnouts have a ho

At the M. Johnson Drug Store of N. 28-31

*Injunction Granted.*

The order restraining the Richmond & Danville Railroad from extending the track of the Oxford & Clarksville road up Pinbody street, eight feet from the D. & N. track, was argued before Judge Gilmer in Greensboro yesterday. A telegram from Greensboro last night informs us that an injunction was granted, which means that the town is sustained and the R. & D. is prohibited from constructing their proposed track.

*Did You Know*  
 That we are not running a newspaper for fun.

That a big boom is in store for Durham.

That Joo. M. Brown is a first-class painter.

That Rawls is offering big bargains in slippers.

That Conductor Reem is popular with the traveling public.

That the best thing to dispense a crowd of corner loafers is cold water. Turn the hose on 'em.

That our printer has a cushioned seat made of ticks in his window for the benefit of his friends.

That there is more railroad business done in Durham for the size of the town than any other town in the State.

That some of our business men are not advertising extensively so that country people may know where to trade.

That the party goes will not

is seen coming over the hill.

That the crowd of youthful serenadeurs that went out last night took our efficient Constable along to keep from getting the soft end of a broom stick.

*Tell us, Please Do!*

Our esteemed contemporary, the *Reidsville Review*, charges the Sun with "getting spoozy." We shall not argue the petty impeachment, but there is one thing we would like to know. If attending a horse race will inspire such a paragraph as the one below, copied from our e. c., what kind of a "getting" would you call that?

"Mounted upon a beautiful eminence, it overlooks a scene where nature has grouped her materials in such pleasing situations as to suggest that possibly it is the original Eden or the 'happy valley' in which the prince of Abyssinia wandered and in his contemplations drew down from sunny skies and golden stars the poetic mysteries which enshrouded his life."

Gosh! we're out of breath.

*Plenty of Work at Home.*

The colored people in and around Durham will see from an advertisement in this paper that Mr. L. L. Pamplin is employing all his hands he can secure. There is plenty of work for them to do right here at home, if they are disposed to work. They will get \$1 a day and receive tickets every night secure their work. As to the responsibility and ability to pay he refers the doubtful to the Fidelity Bank or Messrs. W. J. Wyatt & Bro. There is no necessity for going away, paying your own transportation, when you can secure work right here. With this state of affairs there should not be a loafer in Durham.

*Fine Cigars.*  
 Fine Imported and Domestic Cigars, at N. M. Johnson & Co.'s round cornered Drug Store. 28-31

*Soda Water and Milk Shakes.*  
 The best on record, at Johnson & Co.'s Drug Store. 28-31

*A Young Girl Beaten to Death With A Blis.*

ROCHESTER, N. Y., June 27.—A special to the Union from Medina says: One of the most horrible murders that ever occurred in Orleans county took place near Oak Orchard, a small village seven miles north of Medina, last evening about 5 o'clock. The facts are as follows: Eugene Emery, a farm hand, employed near Oak Orchard, and aged about forty years, had been paying considerable attention to Cora, the thirteen-year-old daughter of John Grimes, a well-to-do farmer of that place. The young girl's parents forbade Emery going with her, and last evening when father and mother were away and only Cora and her little brother were home, Emery entered the house, and with a large club of wood commenced an attack on the defenceless girl and beat her until life was extinct. The little brother immediately summoned his parents, who telegraphed to Medina to the police and Concor Munson, who arrived shortly after midnight. Emery had escaped, however, and was not arrested until about 9 o'clock this morning by Sheriff Seale, at Albion. Great excitement prevails.

*A Desperate Shooting Affair in Walton County, Florida.*

PENSACOLA, Fla., June 26.—News has reached here of a desperate shooting affray which occurred in Walton county this State, last Saturday, in which two men were killed. Sheriff Castello and Deputy Sheriff Black, of Geneva County, Ala., and Sheriff McLeod and Deputy Morrison attempted to arrest A. D. Ross and Pink Eye, wanted in a shooting at Camptown. When approached, Eye began firing with both hands killing his pal with a bullet intended for Deputy Black. Eye then attempted to kill Morrison, but was himself shot dead, all four of the officers firing at him simultaneously.

*State Dental Association.*

A Greensboro special of June 25th, to the Raleigh News and Observer says: The fifteenth annual meeting of the North Carolina State Dental Association met in the Benbow House this morning and the President, Dr. Turner, called the meeting to order, which was opened with prayer by Rev. Dr. J. Henry Smith, D. D. An address of welcome was delivered by Mayor Forbis in a most elegant manner, a response to which was made by Dr. J. E. Griffith, of Salisbury. The President's address next followed, and was a fine effort and was tremendously applauded.

Drs. E. Starr and E. C. Kirk, of Philadelphia, and Dr. Beadles of Virginia, all dentists of national renown, are present and have been elected honorary members of the society.

To-morrow morning Drs. Griffith, Sid P. Hilliard, T. M. Hunter, F. S. Parris and J. H. Durham will hold clinics in the large hall especially provided for this purpose. The following gentlemen have been elected active members: Drs. Murray, Sapp, Blume, Goodwin, Hines and Williams.

Fifty persons have been poisoned at West Sea near Montreal at a picnic. A druggist had sold sugar of lead instead of tartaric acid for making lemonade. Fifteen are reported to be lying. The others are considered out of danger. The druggist has disappeared to avoid arrest.

For the largest and best selected stock of Phaetons, Buggies and Carriages, call on E. I. Rogers, in Walnut Building. 22-17

*McDOW ON THE STAND.*

*He Gives His Account of the Killing of Captain Dawson.*

CHARLESTON, S. C., June 26.—The only living witness to the murder of F. W. Dawson told the story of the tragedy on the witness stand today. It was the murderer himself, T. E. McDow.

The court house was packed, as usual. The first witness was a negro driver, named Harper, who was in his carriage box, near McDow's office, at the time of the murder. He saw Dawson enter the office, and after four or five minutes heard a pistol shot, then two groans, a gurgling voice, followed by an excited voice, saying: "You said you would take my life, now I have taken yours."

*McDOW ON THE STAND.*

Then the prisoner was put on the witness stand by his counsel and told a story of the tragedy. At first he evinced a disposition to go on in his own excited way, but his lawyer checked him and brought it out slowly, with leading questions.

His story was that Dawson rang his office bell about twenty minutes to four o'clock. Witness opened the door and invited him in. Dawson said: "I've just been informed of your ungentlemanly conduct to one of my servants."

Witness replied: "It is untrue that I have been ungentlemanly to one of your servants." I felt indignant at his manner.

Dawson replied: "I give you to understand that I am responsible for that person (meaning the governor). Would you personally respon-

Witness replied that he would speak to her whenever he pleased.

"If you do," replied Dawson, "I'll publish your conduct in the papers."

"And if you do, you infernal scoundrel," replied the witness, "I'll hold you personally responsible. Get out of my office."

Upon this, witness said, Dawson struck his hat off with his cane and stepped him, knocking him across the lounge. Then Dawson slapped him again, and witness then drew his pistol and shot him.

Witness did not see whether Dawson was confronting him or not, he only knew that he was in front of him.

After being shot, Dawson turned and said while falling "you've killed me."

Witness replied, "you tried to take my life, and now I've taken yours."

When Dawson fell he went up to him, felt his pulse and straightened his body out on the floor. He explained his subsequent action of trying to dig a grave and bury the body by saying that the circumstances were so appalling that he scarcely knew what he was doing. He claimed that he fired the fatal shot in self defense. Witness admitted that he had habitually carried a pistol. The intrigue with the governor was not touched upon in the direct examination.

A dispatch from Ishpeming, Michigan, says: One hundred and fifty pounds of quartz, carrying gold at the rate of \$50,000 a ton, were brought in from the Michigan gold mine yesterday. A new shaft was started Thursday, and at the depth four feet, a pocket of quartz, carrying gold, was struck. The vein at the point where the find was made is three feet wide, and double the width of the vein at points previously worked. The discovery has caused much excitement, and is regarded as the most important yet made in the Ishpeming gold range.
