

## ON THE TRACK.

### THE STREET CARS AND ALSO THE COMMISSIONERS.

Tomorrow is the Day it Must be Taken Up—What Will be the Result?

The street cars are on the track again, and they are running from Mangum street crossing out towards Trinity Park. The town is paving on Main street, and the track is somewhat blocked on that end. The cars are propelled by mule power.

But the condition of the street car track to satisfy the Town Commissioners is not yet at an end. Tomorrow is the day the Street Commissioner is authorized to proceed to tear up the track as the Commissioners have declared it a nuisance. This will bring about a conflict of interests, between the Town and the Street Railway Company, which perhaps the courts will be called upon to straighten out and settle.

The sentiment prevails that the track is not what it ought to be—it is constantly bled (!) out by those who get the wheels of their vehicles in the ruts and scrape along, sometimes to the detriment of the wheels.

However, something will be done.

A grapevine telegram from Five Points states that the Mayor and the Board of Commissioners will not ride down there on the cars but will proceed to march in several bodies, afoot. Capt. Peay will head the squad that works towards Trinity Park, and Sterl Carrington will boss the crowd that comes towards the court house. Sid Mangum will guard the Morris street section to prevent the North Durham cars from running up on the workers. Buck Slater will be a drawing card, as he's going to draw the spikes. Charley Norton, will bring down a buggy load of picks and crowbars tonight and put them under the Five-Points fountain so that no one will know where they are and then he will "pick" out a convenient place for Col. Tom Fuller, who will keep the time and dock every man who is not present. The other Commissioners will be on the "track" of those we have mentioned, and it is decreed that the track must come up.

But, seriously speaking, suppose the Street Railway Co., has a clause in its charter making it a misdemeanor for any one to interfere with or obstruct their track, what will be the consequence?

At any rate, the matter should be settled, so far as the track is concerned, in such a way as to give satisfaction. This is the only desire of the Commissioners, who are all practical business gentlemen and not a body of idiots.

A dispatch from Lexington to the Charlotte Observer says:

Mr. Geo. M. Bulla, one of Lexington's promising young lawyers, after an illness of several months, died here last night of consumption. He was born August 20th, 1859, in Randolph county, and was a son of J. R. Bulla, who was at one time a solicitor of his district. He graduated at Trinity College in 1879, read law with Messrs. Dick & Dillard, obtained license in 1881, and located at Lexington. He was a member of the Legislature and received the solid vote of his party for Speaker against Hon. Thomas M. Holt. He participated very actively in the proceedings of that session. While a strong, able partisan Republican, he was so generous and genial that he was a favorite with all. In 1887 he was elected principal clerk of the House of Representatives.
