THE SUN.

DISTRICT MEETING.

A Banquet Also to be Served Tonight.

The district meeting of the Knights of Pythias will be held in the Pythian hall tonight, beginning at 8 o'clock. A large number of visiting Knights are expected on this occasion, including officers of the Grand Lodge. Every Pythian is urged to be present.

After the meeting a banquet will be served at 10:30 o'clock. All strangers in the city who are members of the order are cordially invited.

The occasion tonight will be of the greatest interest and pleasure to all who attend and it is expected that a tremendous crowd will be present. Those who have the matter in charge will do their utmost to make this occasion a great success in every way, and know no such word as fail.

To Preserve Cut Flowers.

A bouquet sprayed with water and placed under a bell glass will last many days longer than if simply placed in a vase or bowl, while if a buttonhole or a spray for the hair is required to look fresh all day or at an evening fete a dab of sealing wax at the end of the stalks will keep the flowers fresh for many hours.

Violets, primroses and many other simple flowers, if placed in a bed of sand and kept moist, will keep fresh for some weeks, while such flowers as foxgloves, campanulas, etc., if placed in water, with the bottom leaves on the stalks kept under water, will last thrice as long as if the leaves were stripped off the stalks.

Ferns when placed in water should always have some of the fronds left in the water, as it has been proved over and over again that no nourishment can be taken through the stem alone.

A Way to Warm Up Cold Mutton.

Take one teaspoonful of chopped onion, put into a stewpan with one ounce of butter, place it over a slow fire and keep the onions stirred till rather brown, but not burned. Add some flour, which mix well in, and fry for five minutes; then pour in one-half pint of gravy seasoned with cayenne and salt, let boil to thicken and add browning. Add one teaspoonful of sugar, one of vinegar, one of Worcester sauce, some chopped gherkins and capers and a few button mushrooms; put in the mutton, which you have previously cut into thin slices, perfectly free from fat, let it remain a few minutes and simmer, not boil; then serve.

The Matchbox.

Matchboxes have a peculiar knack of vanishing from their proper places. Very often the housemaid's pocket can deliver up three or four such boxes. The maid takes them from the mantelpiece or wherever they may be to light a fire or the gas perhaps and forgets to replace them. For this reason it is a good plan to attach matchboxes to gas fixtures, so that a match is always to be found when it is wanted. Pass a string of sarsnet ribbon through the case of the matchbox and suspend to the gas bracket or over the chimney-piece. The matchbox can thus be slid in and out of the case without disturbing the suspender.

PINNIX AGAINST THE CITY.

SUIT NOW ON FOR \$10,000 DAMAGES.

Plaintiff, Claims He Was Injured by Running Against a Pile of Brick in the Street.

The time of the Superior Court has been mostly taken up today with the trial of the suit of L. W. Pinnix vs. City of Durham.

Mr. Pinnix sues the city for \$10,000 damages, for injuries received by running into a pile of brick on West Main Street, one night in November, 1900, while going along the street on his bicycle. It is claimed that no light was placed on the obstruction to warn travellers of the danger. The night was dark and cloudy and Mr. Pinnix could not see the brick.

Ever since the accident he has at times suffered with great pain in the region above the left hip and back. Dr. N. M. Johnson attended him the night of the accident, but Dr. N. P. Boddie has been his physician since. On one occasion Dr. W. A. Graham was called in.

Mr. Pinnix was the first witness who testified. He was followed by Mr. Phifer, of Statesville, a Trinity College student, one of the gentlemen who assisted Mr. Pinnix after the accident. When court adjourned for dinner, Dr. Boddie was upon the stand. He testified that an examination of urine showed blood corpuscles, indicating injury of the left kidney. The ureter was also probably injured.

Winston & Fuller are attorneys for the plaintiff, while Manning & Foushee and Jones Fuller represent the city.

LOCAL HURRYGRAPHS.

Gathered From Highways, Byways, Railways and Otherways.

—The man who wanted rain must be thoroughly satisfied today—and thoroughly wet if he staid out in it.

—The crowds in the Superior Court room this week have so far not been large. So it is with most civil terms.

—The entertainment at the Gospel Tabernacle tonight at 7:30 o'clock will be free and the public cordially invited. Rev. J. T. Betts will give his interesting stereopticon lecture, "Picturesque Palestine."

—The remains of Mrs. Ellis R. Nichols, who passed away Monday at the home of her daughter, Mrs. C. R. Wilson, in this city, were carried over to Little River church this morning for interment.

—It was forcibly demonstrated last night that Durham needs an auditorium to accommodate her citizens. Scores and scores of people could not get in the Opera House to hear Gov. Aycock. The interior was packed.

IN OLDEN TIMES.

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well informed people will not buy other laxatives, which act for a time, but finally injure the system. Buy the genuine, made by the California Fig Syrup Co.

Satisfaction assured is what the 20th Century Pressing Club does when they do your work. Nothing but the very best work at the lowest prices. See them on Church street, or phone them over Interstate phone 443. j20 3t.
