Schley's Appeal.

WASHINGTON, Jan. 21.—Admiral Schley's appeal was presented to President Roosevelt this afternoon. It contains, including excerpts from the testimony, about 35,000 words. The argument itself is about 6,000 words in length. It embodies all the points made in the original protest to Secretary Long and many others in addition. The appeal was taken to the White House by Mr. M. A. Teague of Admiral Schley's appeal.

Admiral and Mrs. Schley reached Washington at 8:30 o'clock this morning from Savannah where they have been for a couple of weeks. They report having had a most enjoyable sojourn in the south and the admiral is highly elated over the hunting jaunts he was enabled to take while away.

Fire at High Point.

HIGH POINT, N. C., Jan. 21.—This morning about ten minutes past 12 o'clock the plant of Snow Basket Company, caught fire in the second story of the building and was destroyed. The origin of the fire is not definitely known. A watchman was on duty, but he did not see the fire in time to put it out. The plant was insured for \$2,500, about one-quarter the value of the property on hand. Owing to a let up in trade during the winter months a very large amount of baskets had accumulated, which makes the loss heavier than would have otherwise been. The safe and the office fixtures were saved.

May Draw Uncle Sam In.

WASHINGTON, Jan. 21.—The control of the entire State of Panama hinges on the outcome of the revolutionary attack on Panama.

If the insurgents are victorious difficulties will probably arise involving the United States.

Capt. Mead, of the Philadelphia, will not allow a bombardment of the City of Panama by the insurgent vessels, and will land marines if necessary to protect it.

In Central American circles it is believed the death of General Alban will demoralize the men who will not make a sturdy resistance against the insurgents.

Order for Thirty Locomotives.

ROANOKE, Va., Jan. 21.—The Norfolk and Western Railroad Company has just placed an order for thirty locomotives, which will be of the large class "W" type, the largest in use on the line and the class that has proved satisfactory in hauling heavy coal trains over the mountain divisions of the road. Fifteen of these are to come from the Baldwin Locomotive Works in Philadelphia, and the remaining fifteen from the Richmond Locomotive Works at Richmond, Va.

The Shortest Will.

LANCASTER, Pa., Jan. 21.—The shortest will ever offered for probate here was admitted yesterday. It was that of the late John A. Kuntz, of Mt. Joy, and read: "Leave all to my wife." It was written on a blank leaf of a copy of the constitution and by laws of a lodge.

N. Jackson, Danville, Ill., writes: "My daughter had a severe attack of grippe and a terrible cough settled on her lungs. We tried a great many remedies without giving relief. She tried FOLEY'S HONEY AND TAR which cured her. She has never been troubled with a cough since." A. B. Matthews.
