THE TREATY SIGNED.

The Danish Islands Ceded to the United States.
WASHINGTON, January 24.—The treaty by which Denmark cedes to the United States her possessions in the West Indies was signed at the State Department this afternoon by Secretary Hay and Mr. Brun, the Danish Minister. The treaty will be transmitted to the Senate immediately for its approval.

Following the invariable rule in such cases, the State Department officials decline to make public any of the details of the treaty, so that it is not possible to state positively the price to be paid by the United States for the islands, though this is believed to be in the neighborhood of \$5,000,000. It is also known that Denmark has abandoned the position she was inclined to occupy toward the conservation of the political rights of the inhabitants of the islands, and leaves the United States a free hand to deal with them without pledge of American citizenship or free trade privileges. So it is assumed that the status of the Danish West Indian islands, politically and commercially, will be similar to that of Porto Rico.

The islands are in a group between 30 and 40 miles east of Porto Rico. The population of St. Thomas is 12,000 and of St. John less than 1,000. The areas of the two islands are twenty-three and twenty-one square miles respectively.
Santa Cruz or St. Croix, the largest of the islands, has an area of 110 square miles. Two-fifths of the land is in sugar plantations, but cotton, coffee, indigo and cattle are also raised. The islands have remained under the rule of the Danish crown since their colonization in 1663 with the exception of the period 1807 to 1815 when England seized them, only to recognize the priority of the Danish claim and relinquish them.

Will Investigate.
WASHINGTON, Jan. 24.—The Senate Committee on the Philippines today decided to enter upon a thorough investigation of the entire Philippine question, and Senator Lodge, chairman of the committee, was authorized to present to the Senate the usual resolution authorizing the committee to sit and to send for persons and papers.

He has never carried any one with his organization except the very best—people who rank the highest in their particular line of work, first class in every respect. His plays are all owned and controlled by himself and he carries special scenery for the production of each and every one. With the organization this year is some of the best specialty artists in the profession.

Well Nigh Died Out.
Hillsboro's new depot will be completed in a short time. We congratulate our western neighbor. Work has not begun on Durham's new union depot, at least no signs were apparent today. The matter seems to have well nigh died out here, and even railroad men have not given their assurances in some time that the depot is to be built.

Cut this out and take it to Yearby's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets, the best physic. They also cure disorders of the stomach, biliousness and headache.

IN OLDEN TIMES.
People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well informed people will not buy other laxatives, which act for a time, but finally injure the system. FELL IN A TRAP.

A Negro Rogue Neatly Taken In by Detectives.

ATLANTA, Jan. 24.—J. H. Alexander, colored, messenger in the office of Major R. G. Stevens, paymaster U. S. A., was arrested this morning for the second time by Captain Wright, secret service agent, on the charge of stealing government funds amounting to \$4,769, which mysteriously disappeared from the storeroom of Major Stevens on November 8 last as he was leaving for Pensacola to pay off troops. A statement which Alexander made on the 11th of this month to Colonel Scully and Lieutenant Colonel Calef, in regard to the discovery of \$2,555 of the missing money hid away in his room in the paymaster's department on the morning of the same date, led to the arrest this morning.

The statement was dictated to the officers by the negro himself and written down by Colonel Calef. The statement is to the effect that Alexander had been instructed by Captain Wright, of the United States Secret Service, to keep a close watch in the rooms in the paymaster's department and see that no one came there and returned the money in whole or in part, as whoever had taken the money would very probably place it in his room in an attempt to throw the guilt on him. He says that in pursuance of these instructions he kept a close watch on the rooms and that on the morning of the 11th of this month found \$2,755 in currency hidden away in a packing chest underneath some blank paper. The money was put where he said he found it. The secret service men, it is understood, believe that Alexander has fallen into the trap that they set for him and they think they have a strong clue to work on.
