If there is prodigality among the millionaires of the United States it is along the line of generosity.

The man who first conceived the idea of aerating beverages received \$50,000 for his idea from an English brewing firm.

MINISTER WU said the other day that his country was to have a new Minister of Education, and laughingly added that he feared a national "football coach" would soon follow.

WORK is being pushed on the new battle-ship Maine in the hope that it may go into commission on February 15, 1903, the fifth anniversary of the destruction of the Maine in Havana harbor.

THERE is an island in the Sacramento river which produces most of the asparagus which is consumed in the United States out of season. The island produces more wealth than any gold mine in California.

It is a matter of record that General Miles received at Chattanooga a wound from a mine-battery similar to that which killed President McKinley, but the General's youth and vitality enabled him to survive.

"No man in Vermont is allowed to vote until he has made 25,000 trading horses with Massachusetts people," said Senator Hoar in a recent speech in the Senate. "And we all vote," immediately retorted Senator Proctor.

At the auction of the old desks used in the House of Representatives, the prize, number 99, went to Representative Jenkins of Wisconsin. It is the desk which was used by Mr. McKinley when he was a member of the House.

A SCIENTIST of the National Museum says that the five senses are modifications of the sense of touch and goes on to state that it is possible that in time other senses now possessed only by insects will be developed by the human race.

TWENTY-ONE revenue cutters and steamships are being built for the use of the civil government of the Philippine Islands. The contracts have been awarded to Oriental builders at Singapore, Hong Kong, Nagasaki, Shanghai and other ports.

GIUGLIEMO MARCONI, the inventor of wireless telegraphy, announced that he has learned how to prevent the theft of messages sent by his system. If this can be accomplished it removes the greatest objection to the system as a commercial venture.

The proceedings of a case heard by the Governor of New Haven Colony on May Day 1660 have recently been brought to light. One Marline and Sarah Tuttle had been caught kissing, and after a severe lecture the Governor fined them each twenty shillings.

DURING the last fiscal year the Navy Department purchased 324, 108 tons of coal for the use of naval vessels, at a cost of \$2,273,114.81, considering the number of coal fields in this country it would seem that it would pay the government to own its own mines.

The agitation of the question of establishing an American Academy similar to the French organization of that name is worthy of serious consideration. There are many arguments in its favor but the fact that at present the English language is at the mercy of every irresponsible lexicographer is sufficient in itself to warrant the establishment of such an institution.

The Sunday School workers of Durham will hear much to instruct and delight them this week, for Prof. Hamill, an experienced and entertaining speaker, will be the guest of the Sunday School Institute at the Church, beginning this evening. All interested are invited and will be many spectators and workers of instruction.

THE HOUSE Democrats will be busy this week with the consideration of the bill to amend the act to provide for the election of the President and Vice-President. The National Democratic convention will arrange the platform all right enough.

An experiment made during the recent Swiss military maneuvers showed the fact that soldiers who were permitted to smoke during the march were less susceptible to fatigue, and fresher at the finish than those who abstained from the use of tobacco had been denied. This does not show, however, that those who use tobacco had an advantage over those who never smoked, and who, therefore, did not feel any deprivation.

REPRESENTATIVE GILLET has introduced a bill in Congress providing for the creation of a supervisory committee which shall be charged with the investigation of the possibility of pensioning superannuated employees of the government. The committee now have an organization looking to this end, but they are from the government only and are not custodian and administrator of a fund to be raised by the deduction of a percentage from the employees' salary.

Repented of His Folly
Washington Messenger: "Some days ago that General Sherman, the head of the army, has lived long enough to repent of his folly in ordering President Jefferson Davis to be imprisoned in a prison at Fortress Monroe. A man ought to be put in a prison, and especially one so famous and indelible as the one which the noble and pure Southon. The Washington Post is responsible for this:

"General Miles, who has gained great popularity in the country by the Staley incident, was questioned by a gentleman the other morning as to the cause of his retirement. He said he had been called upon by Representative Rixey, of Virginia, who had introduced a bill to reduce the salary of the general. He said he had been called upon by Representative Rixey, who had introduced a bill to reduce the salary of the general. The Noblest Success
Greenberg Record: The record of the success of a business enterprise is not the amount of money gained, but the amount of money expended. The noblest success is the one which is achieved by the least expenditure of money. The noblest success is the one which is achieved by the least expenditure of money.

Working 24 Hours a Day.
There is no rest for those tireless little workers—Dr. King's New Life Pills. Millions are always busy, curing Torpid Liver, Jaundice, Biliousness, Fever and Ague. Tenor—When I gave my first concert four people had to be carried fainting on to the hall. Fred—Oh, but since that time your voice has considerably improved.—P. B. B.
"Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions and in two days she was well and able to go to school. I have used this remedy in my family for the past seven years and have never known it to fail." Says James Prendergast, merchant, Annato Bay, Jamaica, West India Islands. The pains in the chest indicated an approaching attack of pneumonia, which in this instance was undoubtedly warded off Chamberlain's Cough Remedy. It counteracts any tendency of a cold toward pneumonia. Sold by W. M. Yearby.

Needle Man Dead.
LOUISVILLE, Jan. 26.—Mr. W. L. Becker, "an old man full of needles," died suddenly at the home of his daughter in this city. He formerly lived in Louisville and was a well-known figure in the community.

Night Was Her Terror.
"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 58 pounds."

REMARKABLE CURE OF CROUP.
A Little Boy's Life Saved.
I have a few words to say regarding Chamberlain's Cough Remedy. It saved my little boy's life and I feel that I cannot praise it enough. I bought a bottle of it from A. E. Stearns of Godwin, S. D., and when I got home with it the poor baby could hardly breathe. I gave the medicine as directed and in ten minutes he "threw up" and then I thought sure he was going to choke to death. We had to pull the plug out of his mouth in great haste. I am positive that if I had not got that bottle of cough medicine, my boy would not be on earth today.—JOEL DEMONT, Inwood, Iowa. RHEUMATISM CURED IN A DAY
"Mystic Cure" for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by Hackney Bros., Druggists, Durham.

Poison Oak
Poison Ivy
are among the best known of the many dangerous wild plants and shrubs. To touch or handle them quickly produces swelling and inflammation with intense itching and burning of the skin. The eruption soon disappears, the sufferer hopes forever; but almost as soon as the little blisters and pustules appeared the poison had reached the blood, and will break out at regular intervals and each time in a more aggravated form. This poison will linger in the system for years, and every atom of it must be forced out of the blood before you can expect a perfect, permanent cure.

SSS Nature's Antidote FOR Nature's Poisons, is the only cure for Poison Oak, Poison Ivy, and all noxious plants. It is composed exclusively of roots and herbs. Now is the time to get the poison out of your system, as delay makes your condition worse. Don't experiment longer with salves, washes and soaps—they never cure. Mr. S. M. Marshall, bookkeeper of the Atlanta Gas Light Co., was poisoned with Poison Oak. He took Sulphur, Arsenic and various other drugs, and applied externally numerous lotions and salves with no benefit. At times the swelling and inflammation was so severe he was almost blind. For eight years the poison would break out every season. His condition was much improved after taking one bottle of S. S. S., and a few bottles cleared his blood of the poison, and all evidences of the disease disappeared. People are often poisoned without knowing when or how. Explain your case fully to our physicians, and they will cheerfully give such information and advice as you require, without charge, and we will send at the same time an interesting book on Blood and Skin Diseases.
