Democratic in politics, conservative in policy and for home interests first.  
Advertising rates made known on application to office in Duke Building, West Main at Interstate. Phone 27. Bell Phone 27.  
Change of advertisements must be handed in by 11 o'clock on day of publication to insure insertion.

TUESDAY, MARCH 25.

The Seven Day Adventists are again predicting the end of the world. It remains to be seen whether the prediction will have any effect in causing J. Pierpont Morgan to relax his hold on the globe.

This is dangerous weather. Above all things, don't sit down in drafts, nor think it a wise thing to have the windows up. Pneumonia is a dread disease and just as easy to catch as a dead bird. And now is the season for it.

The New York Press says: "There is no man so mean that he would not like to be charitable at somebody else's expense." The Press might have added that many a man is charitable and generous with other people's money.

DURHAM and Chapel Hill are to be joined by trolley. However, there has never been ground for the statement that Durham isn't wide awake when it comes to improvement and get-there spirit.—Charlotte News.

Right you are—and in everything save a union depot and a public building.

If the House approves and Mr. Roosevelt does not veto the bill the President of the United States will shortly be provided with a military body guard, the Senate having by a vote of 52 to 15 passed the Hoar bill which in addition to making the killing or attempt to kill the President, vice President, or any official in line for the Presidency a crime punishable by death, provides for the detail of a military body guard. Strange as it may seem only 13 Democratic Senators voted against this bill.

Some of the leading republicans of the country, both in and out of Congress, are trying to prevent such a serious political blunder as they think the renewal of a Force bill fight would be for the republican party. It is understood that they have made so much progress that the House bosses are in doubt as to whether they can control enough votes to adopt the Crumpacker resolution providing for the appointment of a committee of 13 to investigate the election laws of the States, and are discussing the advisability of some sort of a compromise deal that will let them down easy. One of the compromises that has been suggested is that the resolution be adopted by unanimous vote of the House and a committee appointed that will make a report that will recommend no action.

WELL, well! Wonders will never cease. This hide-bound, single gold standard administration has endorsed the free and unlimited coinage of silver dollars for the Philippines, and the present understanding is that the Philippine bill now being prepared by the Senate committee on the Philippines will provide therefor, and the administration touters are claiming that the proposed free coinage of silver will make all the silver-producing States advocates of the permanent retention of the Philippines, which is an indirect way of acknowledging that those States do not now favor permanent retention of the islands. The coin which is to be turned out by the U. S. mints in unlimited quantities for all who furnish the silver bullion and pay the cost of coinage is to be known as the American Filipino dollar, and is to contain the same amount of silver as the Mexican dollar, and the Bombay dollar, coined by England for circulation in the Orient, at present price of silver worth about 56 cents.

SPRINGTIME, "GENTLE ANNIE."

The spring sunshine came out sufficiently strong and brilliant for the past few days to give you that "tired" feeling that more than anything else marks the breaking up of winter. The spring sunshine also has a way of making things look distractingly dirty, and it generally acts as sort of a stimulus, after its first appearance, in the way of reminding folks that it is time to begin the annual cleaning and freshening up. Durham people are pretty quick to take a hint, and the storekeepers are holding their annual spring openings, with the potent suggestion that new garments may be had for the asking—and the price; while by and by the housekeepers will begin their renovation within doors, evidences of fresh paint will shine forth outside, new dwellings will begin to take form, and every part of our progressive community will begin to respond to Dame Nature's intimation that it is time to get an active move on ourselves to keep pace with the season's swift changes.

ANIMAL SAGACITY.

That was a touching story of animal sagacity that appeared in the newspapers the other day, of the old family horse that in fording a creek near Tipton, Ind., with two little girls on his back, got his feet entangled and threw the girls into the water. The horse swam to them when the older girl held to its tail and managed to drag herself and her sister to shore. Then the faithful animal galloped home, neighing at every step as though in trouble. When the attention of the family was attracted it wheeled and went back to the stream, where it hastened to the children as though glad they were alive. It was only another demonstration of what we call "horse sense," the horse not infrequently giving evidence that it is more nearly akin to humanity in intelligence than any other member of the brute creation.

The Outlook.

In choice and printing of illustrations the monthly magazine numbers of The Outlook have greatly improved of late, and the April Magazine Number has pictorially both distinction and variety. The list of illustrated articles includes an elaborate presentation of the plans for beautifying Washington, by Mr. Elbert F. Baldwin, with a dozen beautiful pictures from the artists' original drawings and maps of "Washington fifty years hence"; a thrilling account of experiences on the Antarctic Continent by Mr. Borzhgrevink, the leader of the expedition of 1898, and the first man to set foot on the Antarctic Continent, with reproductions of many of the explorer's own photographs; portraits and brief sketches of the new Secretary of the Navy, Mr. Moody, Admiral Kempff, and the Rev. Stopford A. Brooke; a notable article on "Education in the Philippines," by the Hon. Fred W. Atkinson, Superintendent of Public Education in the Philippines, with photographs taken for the purpose; a further installment of Dr. Edward Everett Hale's "Memories of a Hundred Years"; and "The Lambert Masterpieces," an account of the remarkable art collection made by Mr. Lambert, a silk manufacturer of Patterson, New Jersey, with reproductions of paintings by Lawrence, Romney, Reynolds, Botticelli and other great artists. In this, as in all the magazine numbers, the current history of the world and progress of literature are recorded and interpreted as fully as in the unillustrated weekly issues.

Cough Settled on Her Lungs.

"My daughter had a terrible cough which settled on her lungs," says N. Jackson, of Danville, Ill. "We tried a great many remedies without relief, until we gave her Foley's Honey and Tar which cured her." Refuse substitutes A. B. Matthews.

Four new cases of cholera reported at Manila. The Third infantry soon to return home, was put on a transport for fear of taking the cholera.

He Kept His Leg.

Twelve years ago J. W. Sullivan, of Hartford, Conn., scratched his leg with a rusty wire. Inflammation and blood poisoning set in. For two years he suffered intensely. Then the best doctors urged amputation, "but," he writes, "I used one bottle of Electric Bitters and 14 boxes of Bucklen's Arnica Salve and my leg was sound and well as ever." For eruptions, Eczema, Tetter, Salt Rheum, Sores and all blood disorders Electric Bitters has no rival on earth. Try them. R. Blacknall & Son will guarantee satisfaction or refund money. Only 50 cents.

PRESS ON THE VERDICT.

It is almost as bad to be mobbed by the court as lynched by a mob. Wilcox is a victim of the former.—Greensboro Record.

If the verdict in this case was based on evidence and the assumption of innocent until proven guilty was held to the people have not yet seen the evidence to prove guilt and must believe that Wilcox was convicted on public sentiment and not convincing evidence.—Concord Tribune.

Wilcox may be guilty; the consensus of opinion is that he is. But if the evidence against him is not of sufficient weight to prove him so, no jury should declare him guilty of murder so long as there remains a reasonable doubt.—Charlotte News.

We confess we shared the opinion which seems to prevail largely that the State failed to make out its contention as to the guilt of Wilcox "beyond a reasonable doubt," though strongly impressed with the belief that he possessed at least guilty knowledge of the tragedy.—Raleigh Post.

A Happy Enoch Arden.

Some 29 years ago A. C. Teston, then but 20 years of age, led to the altar Julia Filmon, in Pasco county, Fla., where they lived for some time, finally removing to Jesup, Ga. Here fortune frowned on young Teston from time to time, and 10 years later he left his home and family, consisting of wife and five children, and sought the gold fields of California to catch Dame Fortune's smile. Years passed by, and the wife and children heard nothing from the absent husband and father, and they finally returned to Florida, fully convinced that he was dead. Eight years ago Mrs. Teston, believing, of course, that she was a widow, was married to T. C. Dormany, of Bartow, and since that time has been living with him in that city. Teston in the meantime had heard of his wife's remarriage, continued to stay away and incidentally amassed a fortune, having been very successful in his mining operations. Some ten days ago, however, he decided to return to his old home, and landed in Tarpon Springs, where he has a married daughter. His wife heard of his return and they have decided to be united again as her second marriage is illegal, having been contracted under the impression that husband No. 1 was dead. Mr. Teston is now visiting his daughter, Mrs. L. C. Wells, and will be in Tampa in a few days with a view of locating her. So delighted was he at his reconciliation with his wife and family he has presented each of them with a thousand dollars as a souvenir of the happy event. Mr. Dormany, while regretting the incident that loses to him his wife, will yield gracefully to the inevitable.—Tampa (Fla.) Herald.

Mrs. Joseph McRae Dead.

WINSTON-SALEM, March 24.—J. C. Buxton went to Asheville today in response to a telegram announcing the death of his sister, Mrs. Joseph McRae, of Wilmington, which occurred yesterday. Mrs. McRae had been ill with pneumonia since the death of her father, Dr. Jarvis Buxton, two weeks ago. Dr. George T. Winston accepts the invitation to make an address at the close of the Salem boys' school, June 6.

Raw or Inflamed Lungs

Yield rapidly to the wonderful curative and healing qualities of Foley's Honey and Tar. It prevents pneumonia and consumption from a hard cold settled on the lungs. A. B. Matthews.

Spain is experiencing extremely cold weather. Heavy snows and hail storms at Seville and Corunna have destroyed the crops and killed some people.

Dangers of Pneumonia.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. A. B. Matthews.

Thirty Turks and Bash-Bazouks were killed in an engagement with the Macedonians.

La Grippe Quickly Cured.

"In the winter of 1898 and 1899 I was taken down with a severe attack of what is called La Grippe," says F. L. Howett, a prominent druggist of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the cold and stopped the coughing like magic, and I have never since been troubled with Grippe." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold and ward off any threatened attack of pneumonia. It is pleasant to take too, which makes it the most desirable and one of the most popular preparations in use for these ailments. For sale by W. M. Yearby.

Women are Like Flowers.

Healthy and strong they blossom and bloom. Sickly, they wither and die. Every woman ought to look well and feel well. It's her right and duty, but she might as well try to put out a fire with oil as to be healthy and attractive with disease corroding the organs that make her a woman. Upon their health depends her health. If there is inflammation or weakening drains or suffering at the monthly period, attend to it at once. Don't delay. You're one step nearer the grave every day you put it off. Women can stand a great deal, but they cannot live forever with disease dragging at the most delicate and vital organs in their body. You may have been deceived in so-called cures. We don't see how you could help it, there is so much worthless stuff on the market. But you won't be disappointed in Bradfield's Female Regulator. We believe it is the one medicine on earth for womanly ills. There is as much difference between it and other so-called remedies as there is between right and wrong. Bradfield's Female Regulator soothes the pain, stops the drains, promotes regularity, strengthens, purifies and cleanses. It does all this quickly and easily and naturally. It is for women alone to decide whether they will be healthy or sick. Bradfield's Regulator lies at hand. \$1 per bottle at drug store. Send for our free booklet.

THE BRADFIELD REGULATOR CO., Atlanta, Ga.

A Reminder.

DURHAM SUN readers, would you know  
About a weeder, plow or hoe,  
A sawmill or an incubator,  
A harrow, fence, cream separator?  
Or would you rather hear about  
Some tanks or milk cans stout;  
Some stock food, eggs or scales,  
Or medicine to cure your ails?  
A doll, a lantern, watch or lamp,  
A business man who's not a scamp,  
A remedy for lumpy jaw,  
Machine to sew, or one to saw.  
Or, maybe these are near your needs,  
A feed mill, cooker, sheller, seeds;  
Some fruit trees, carpet, washer,  
gun,  
Piano, organ, every one  
Can all be found and many more,  
As well as going to the store  
At prices which will please the lads,  
If you will only read the "ads."

Burglars broke into the Alplaus postoffice, in New York State, early Monday and wrecked the building. They blew open the safe and secured money and a large number of stamps.

Food Changed to Poison.

Patronizing food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, get rid, easily but surely, curing Constipation, Biliousness, Sick Headache, Fevers, all Liver, Kidney and Bowel troubles.
