DISCOVERED COAL.

Mr. Cole Finds It on His Land in Orange County.

C. J. Cole has discovered coal on his land in Orange county. The discovery was made about a month ago while plowing land to plant corn, and a vein was struck a foot or so beneath the surface of the ground.

Mr. Cole, who was in the city Thursday night, showed the Sun reporter a lump of the coal that was plowed up. It is anthracite coal, and appears to be of good quality. Parties who have examined the sample pronounce it to be an excellent grade, if they are capable of judging.

So busy has Mr. Cole been with his farming operations that he has not had time to follow up and open the vein. He expects to have experts there to look over the prospects. The newly discovered mine lies several miles from the Southern road.

The Sun hopes that Mr. Cole's find will prove to be of great importance, and that he may realize large returns from it.

Salmon-Brown.

Mr. W. A. Salmon and Miss Nannie Brown were united in marriage Wednesday night about 9 o'clock, at the home of the bride on Wilkerson Avenue.

Rev. C. J. D. Parker, pastor of the Second Baptist church, pronounced the words that made them man and wife.

It was a quiet home marriage, and the ceremony was witnessed by relatives and friends of the happy pair.

Mr. and Mrs. Salmon have very many friends who join the Sun in wishing for them a long and happy life.

Returns From Elon.

Rev. J. W. Wellons came in this morning from Elon College, where he attended commencement. He reports the exercises to have been most enjoyable and the crowds in attendance very large.

Mr. Wellons went to Elon from Fuquay Springs. His stay at the springs was beneficial to him.

WM. LIPSCOMBE DEAD.

He Expired at Johns Hopkins Hospital Thursday Afternoon.

Durham is called upon to mourn the loss of another one of her early citizens. Mr. William Lipscombe, better known among his associates by the familiar name of "Tip," died at Johns Hopkins Hospital—where he had been for several months for treatment—Thursday afternoon at 5 o'clock. The immediate cause of his death was tuberculosis of the bowels.

Mr. Lipscombe was a man every body liked. He was genial in his manners, and possessed a bright and cheery disposition. For many years he was identified with the business interests of Durham, but in later years gave up public affairs on account of declining health. He has a large circle of friends who will regret to hear of his death, and his memory will be cherished by his intimate friends. A kindly spirit has departed from us, and may his rest be sweet and peaceful.

Mr. Lipscombe was 60 years old last December. His immediate family, left to mourn his loss, consists of one son, John; one sister, Mrs. J. W. Dowd; one brother, Thomas; and one brother-in-law, R. G. Russell, of South Lowell. Mr. Lipscombe was twice married. His first wife was a sister of Mayor Mose McCown and Mrs. J. R. Day. His second was Miss Lizzie Witherspoon, of Hillsboro, who also preceded him to the great beyond some years ago.

Up to the time of going to press no arrangements had been made in regard to the funeral, as it is not known exactly upon which train the remains will arrive. The funeral will take place some time tomorrow, however.

Doing a Big Business.

The street cars have been doing a rushing business ever since they commenced running. Especially during the late afternoons and in the evenings are the crowds very large. The ladies are enthusiastic patrons as well as the men. Several trolley parties have already been given.

So far the service and business of the Durham Traction Company has fully met, if not exceeded, the expectations of the public.

A Big Fair.

J. E. King, representing the State Fair, was in the city yesterday in the interest of the coming exposition. He was securing matter for the premium list, which will be the most attractive one ever issued. The Fair this year promises to be a big affair, and one all the people should visit, for it will be the most attractive one yet held. The gentlemen at the head of it give assurance of this fact.

Last Day of Rush.

The rush of travel incident to college and school commencements is about over. The returning of University and Elon College students and visitors today about winds it up in this respect. The east bound Southern train was crowded this morning, and many changed cars here for other points. The S. A. L. train carried out quite a number of Elon students.

IN JAIL AGAIN.

John Utley Up for Carrying Concealed Weapon.

John Utley, a young white boy, was tried this morning in the police court on the charge of carrying a concealed weapon. He was bonded of \$25. Failing to give the required security he was locked up in jail.

Utley was before Judge Neal at the last Superior court, on the charge of forgery. He forged a check on Dr. A. Cheatham. He was also charged with the larceny of a pair of cuff buttons from Dr. W. A. Graham. Judge Neal gave him some good advice and let him off on his future good behavior.

This boy is not over fourteen or fifteen years old and small for his age. He is already a tough character, and unless there is a change for the better, a term in the penitentiary will be his portion.

Durhamite Gets a Certificate.

The commencement at Bingham School, Mebane, this year, is said to be the best in the history of the school.

Mr. S. Taylor Anderson, of Durham, received a beautiful certificate in shorthand and typewriting which testifies to his being a practical and efficient stenographer. Mr. Anderson took a course at Bingham last session and was obliged to go home before the final examinations. He went to work with the Durham Hosiery Mills, where he has since continued with great satisfaction to his employers.

A Successful North Carolinian Here.

Prof. G. M. Smithdeal, president of the well known Smithdeal Business college, Richmond, Va., is in the city for a day or two and would be glad to see any young people of either sex who are interested in a business education. Improved White Mountain Freezer with Crank.

This is universally the favorite family ice cream freezer, because it combines more excellences than all the other family freezers made. It is easy to operate, because the parts fit perfectly, and therefore run smoothly.

It is remarkably quick freezing, because it has the triple motion, and will produce a delicious smooth, and even-grain cream in four minutes or less.

It is exceptionally durable. The tubs are built very strong, and will not warp, leak, or crack, and the cans are made of the finest quality bright charcoal tin plate.

Its beaters and interior mechanism are plated with black tin, and the exterior metal parts are cast iron, finely galvanized to prevent rusting.

It is the only freezer made with a duplex malleable iron dasher and double self-adjusting scrapers, which keep every particle of cream in constant motion, causing it to freeze faster and more evenly than can possibly be accomplished by any other freezer.

We would call attention to a new and important change in the style and adjustment of the gear frame of all White Mountain Freezers from two quarts to ten quarts inclusive.

The new frame is made straight with a wedge end on the crank side of freezers that fits and clamps into a new U-shaped ear. This holds the frame firmly, and at the same time makes an easy and quick adjustment. It is a decided improvement, and adds to the appearance of the freezer.
