FOUND ALIVE.
Sixteen Living Miners Among the Dead in the Mine.
JOHNSTOWN, July 11.—Eighty-four bodies of miners killed in the explosion in the Cambria mine here yesterday have been recovered, and the surprise at finding sixteen miners alive in the place where the explosion seems to have been at its worst has spurred the searching parties to renewed efforts in the hope that many others of the entombed miners may yet be found alive. At a late hour this evening, the number of dead miners found was rapidly approaching the one hundred mark. Search which was kept up all last night and this morning resulted in the first rescue before noon, forty-seven of the dead bodies have been taken out. Shortly before six this evening 37 more were brought out. It was while the crew was at work at the right of the main south heading when they discovered 16 miners alive. All of them were in very bad shape, and one, John Gladys, died on the way out.

Miss Convere to Go to Kansas City.
A special from New York to The Richmond, Va., News, dated the 9th inst., has this:
"Marion Convere (Miss Convere Jones) will be the leading woman of the Woodward Stock Company, of Kansas City, next season. Miss Convere is the daughter of one of the leading lawyers of Charlotte, N. C. 'She was educated at Smith College, and her first appearance on the stage was in the role of Felise, the French maid, in 'The Little Minister.' She afterwards played the part of Babble in one of the road companies. The next year she was featured in 'My Daughter-in-Law.' Last summer she was the leading woman of the Giffen Stock Company in Richmond, Va. For the past nine months Miss Convere has been the leading woman of the Alcazar Stock Company, of San Francisco."
"She left yesterday for her home in Charlotte, where she will remain until the middle of August, when she will leave for Kansas City to begin rehearsals for the opening of the season on August 30."

Significant.
Charlotte News: During the year 1902 there were 57 failures in North Carolina as against 74 in 1901 and the liabilities were only \$254,956 as compared with \$480,055 in the previous year. In every other state in 1902 the number of failures and the attendant liabilities show an increase over the preceding year, which makes the showing of North Carolina significant.

A Big Egg.
Clinton Democrat: The largest hen egg we have ever seen was brought to this office by Mr. W. J. Hudson, of Hall's township. It measured 7 3/4 inches in circumference, and weighed exactly five ounces, or five times as much as an ordinary hen egg, and at the present price of eggs here, this size would be worth five cents apiece, or sixty cents per dozen if sold by weight. The egg looked like it had been through stormy weather, for it was in all sorts of shapes, as if it had been drifted and beaten about considerably.
