the Reason fid Somethnes Cames Three Times to the Surface. SATURDAY, SEPTEMBER 20.

Few popular fallacies are of such tide extent as the belief that a person must rise to the surface three times, no more and no less, before he can posibly drown.

ret, strange to say, there are in Brazi There is little ground for this supome files which prey on spiders. These laring little insects do not differ much position, although it has been almost miversally believed in for generations. They are hymenopters, and Pepsis The truth is that a drowning person graata is a typical insect of this kind. may sink the first time never to rise They usually come upon the spiders. again, or he may, as he indeed does in when the latter are unprepared and the majority of cases, rise three times before he sinks forever.

As flong as one work by stinging the helpless victim keeps his head above the surface of twice in the lower part of the thorax. the water he can float, face up, without having to move hand or foot.

there is hemorrhage with emaciation and weakness, "Golden Medical Discovery" always helps and almost always cures. "I was troubled with a bad cold, which settled on my lungs and left me with a miscrable cough," writes Mr. Joseph D. Burns, of 318 Huestis Street, Ithaca, New York. "I used two bottles of your 'Golden Medical Discov-ery,' after which my cough disappeared entirely. I can-not recommend your medi-cine too highly." But as soon as a person sinks he gulps and imbibes a quantity of water. the very young infant only. In most cases the frightened victim of an accident swallows enough water when he first sinks to leave him in a very exhausted condition; but, as there is still air left in his lungs, he soon finds himself on the surface again. Each time he sinks, however, the supply of air in his lungs grows less until ultimately there is no longer sufficient to support him.

> Groom of No Importance. If there is ever a time in a woman's life when she is the most important person in her own immediate circle, it is when she is a bride. Apropos of this is a story of a new society editress who had just returned from her first assignment, which was the writing up of a wedding:

"Did you-get all the facts?" asked the city editor.

replied the young woman. "I have a description of the bridal gown and the tropssenu and the flowers and the wedding presents, and the objective point of the tour, and the names of the bridesmaids and the officiating clergyman and the reception days"-

rupted the city editor. "His name has been printed f or different ways in the preliminary announcements." "The groom?" faltered the young

woman. "Why-why-I forgot to ask about him, and I guess uobody else thought of him, except maybe the bride."

Not What He Wanted.

A young man at the risk of his life saved a beautiful young girl from drowning. Her grateful father seized the rescuer of his daughter by the hand and in a voice tremulous with emotion said:

"Noble youth, to you I am indebted for everything that makes life dear to me. Which reward will you take-£100,000 or the hand of my daughter?"

It is courting danger to stand under icy eaves. Not a few have learned this

to their cost. Every winter injury and

even death are reported as the result of

this carelessness, But there is a far more popular way of courting danger.

Beautiful Thoughts The sweet, pure breath of the babe is suggestive of innocence and health.

A mother's yearning for children is in-separable from a love of the beautiful, and it behooves every woman to bring the sweetest and best influence to bear on

the subject of her maternity. To relieve pain and make easy that period when life is born again,

Mother's Friend is popularly used. It is a liniment easily

administered and for external use only. Pregnant women should try this remedy, it being undeniably a friend to her during nature's term of suspense and anticipation. Nother's Friend, if used throughout gestation, will soften the breasts, thereby preventing cracked and sore nipples. All muscles straining with the burden will relax, become supple and elastic from its continued application.

. All fibres in the a', dominal region will respond readily to the expanding cover containing the embryo if flother's Friend is applied externally during pregnancy. Of all reliable druggists \$1.00 per bottle. Write for free book on " lotherhood." THE BRADFIELD REGULATOR CO., ATLANTA, GA.
