REGISTER NOW while you think of it.

TAKE good care of your horse and vehicle and they will take good care of you.

REPUBLICANS are great on making promises. Redeeming them is entirely another thing.

DON'T judge an independent by the length of his speech or the strength of his lungs.

THE best way that money can make the mare go is to fix the road so she can travel faster.

IT is to be hoped that the continued soreness of the President's leg is not caused by over-pulling.

AS the weather continues to brack up with coolness the chunk of ice gets larger and the chunk of coal smaller.

SOMEBODY has discovered that one democrat was elected to the Senate in Vermont. How many can tell whether this was a loss or a gain?

THE democrats will begin their county campaign next Monday. In the meantime the independent-republicans will continue to nose around like a pine-rooter.

IT seems that Roumania is disposed to treat our overtures with indignity, silence, contempt. The Isles of Philippines, Roumania! The Isles of Philippines! Beware!

THE democrat who does not get up and hustle around for the success of his party, will either scratch his ticket or has an axe to grind on somebody else's grind stone.

IF Mr. Morgan can settle the coal strike then there is no better evidence needed that Mr. Morgan has more power than any one man in America has a right to wield.

A LETTER carrier from Washington who attempted the political walking delegate act in Congressman Loud's district has had his vacation cut short and may lose his official head.

AN exchange tells us that the United States imports a million lotsters a year. We do not know about this, but we are sure there are ten million native lobsters which might be exported with profit.

Tax claimers and rainbow chasers are abroad in the land. The independent and republicans are predicting victory in Durham county, and chairman Whitaker is claiming 25,000 majority for Hill. We like to see people cheerful and happy.

JUDGING from recently published portraits, President George F. Baer, of the Reading R. R., and incidentally side partner with the Almighty

in administering the anthracite coal beds of Pennsylvania, looks like a man who could patronize his Maker.

When a Republican talks about how his party has enforced the Sherman Anti-Trust law remind him that it was Attorney General Garland, a Democrat, who first enforced it, that it was a Democrat, Mr. Justice Peckham, who declared it constitutional and that the only successful prosecutions under that law was under a Democratic administration.

The brindle-tailed chairman of the independent movement for Hill is sending out circular letters begging for money to defeat Judge Clark. Save us Cassius or we sink! Let them have a good time while they are at it. They are doing a powerful sight of whistling now. That is like the little boy in the woods. They are doing it to keep off the scare.

When the Republicans tell you that we had such hard times in 1893, ask them if they are really so ignorant of the political history of our country as not to know that the panic of that year came while the McKinley tariff law was still in force, and before the Wilson tariff bill had been passed. And ask them if they are aware of the fact that the great panic of 1873 came under a Republican administration and under the highest protective tariff the country has ever known.

When the Republicans tell you that we must maintain a protective tariff in order to keep foreign competition from underselling our industries, remind them of the fact that there is a chapter in their textbook whose headline reads "America Invasion of Europe—The United States Competing with Europe in their Home Markets," and the boast is made there that we can undersell the world. Then remind them that if we can undersell the world, there is very little danger of any one underselling us.

When the Republicans represent themselves as friends of American labor, ask them how it comes that the Republicans tried to pass an anti-trust bill making labor organizations unlawful, and that when the Democrats offered an amendment stating that "Nothing in this act shall be so construed as to apply to trade unions or other labor organizations, organized for the purpose of regulating wages, hours of labor, or other conditions under which labor is to be performed," the Republican leaders, including Cannon and Littlefield, voted against the amendment.

An Alaskan Oil Well. An immense oil "gusher" has been struck at Cotella on South Alaska coast. The spouting oil rose nearly 200 feet before it could be capped. It is said that the oil is of good quality and is worth \$4 a barrel at the well. About 10 miles of coast line in the Cotella region have been located for oil borings. Some time ago an oil bed was discovered near the same place.

Do Good—It Pays. A Chicago man has observed that "Good deeds are better than real estate deeds—some of the latter are worthless. Act kindly and gently, show a pathy and lend a helping hand. You cannot possibly lose by it." Most men appreciate a kind word and encouragement more than substantial help. There are persons in this community who might truthfully say: "My good friend, cheer up. A few doses of Chamberlain's Cough Remedy will rid you of your cold, and there is no danger whatever from pneumonia when you use that medicine. It always cures. I know it for it has helped me more than a time." Sold by W. M. Yearby's drug store.

Gen. Samuel B. M. Young, after his observations of the German maneuvers, says the American army is matchless.

Night Was Her Terror. "I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a split I would cough frightfully and spit blood, but when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 55 pounds." It's absolutely guaranteed to cure Coughs, Colds, La Grippe, Bronchitis, and all Throat and Lung Troubles. Price 50c. and \$1.00 Trial bottles free at R. Blackhall & Son's Drug Store.

ENGINEERS OF THE WORLD.

Special Prominence to be Accorded to Their Works at the World's Fair of 1904.

World's Fair, St. Louis, Oct. 6.—The many great engineering works of the world and their fast increasing number have prompted the organizers of the World's Fair to give due recognition to the profession. Col. John A. Ockerson, chief of the Department of Liberal Arts, himself an engineer who has to his credit many great works, has published the following letter for the information of members of the profession everywhere: "The agitation in engineering societies as to the propriety of a code of ethics to govern the members of our profession, is evidence of a desire to ennoble the calling of the engineer. None of the so-called learned professions is so intimately connected with the material progress of our country as is that of engineering. Yet, in the face of all this, the profession is not held in that high esteem to which it is justly entitled. This is due, in a great measure, to the fact that the public is not as familiar as it should be with the functions of the engineer, whose individuality is more or less overshadowed by the great corporation which employs him.

"Much can be done at great expositions by bringing the general public into contact with the work which the engineer has wrought and which emphasizes his science, ingenuity and skill. Heretofore, engineering work at expositions has been somewhat obscured by being mixed up with transportation and other related matters which indeed are closely akin to it. In the coming exposition at St. Louis, civil, military and architectural engineering pertaining to public works, will be housed together in the Liberal Arts Palace.

"In the interests of the profession, as well as those of the Exposition, I hope to secure for the several groups devoted to engineering, the best examples of what the engineer has wrought in all parts of the world. With the proper co-operation of the engineering profession, which should be readily accorded, there would be gathered at the coming exposition the greatest engineering exhibit which the world has ever known. Every engineer can do something toward the realization of this much-desired result."

Ran a Ten Penny Nail Through His Hand.

While opening a box, J. C. Mount of Three Mile Bay, N. Y., ran a ten penny nail through the fleshy part of his hand. "I thought at once of all the pain and soreness this would cause me," he says, "and immediately applied Chamberlain's Pain Balm and occasionally afterwards. To my surprise it removed all pain and soreness and the injured parts were soon healed." For sale at W. M. Yearby's drug store.

Samuel Long while threatening to kill his wife was shot and killed by her brother, at Shreveport, La.

RHEUMATISM CURED IN A DAY.

"Mystic Cure" for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable—and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by Hackney Bros., Druggists, Durham.

A GOOD THING TO TIE TO for security is a policy in a solid Fire Insurance Co. We will insure you against loss in a strong company, and we will help you get your money in case of accident. Don't procrastinate on this important duty, but insure your property and give your mind a chance to rest easy.

FRESH OYSTERS, FRIED OR STEWED Every Saturday & Sunday, AT H. T. Smith's Restaurant, Best of every thing the market affords at all times. 300 Parrish Street. Interstate Phone 304.

The Human Lottery

"Ah, if only I were beautiful how happy life would be." Many a forlorn maid has said this as she looked into the mirror. It is the one possession in the lottery of human life which woman would not refuse.

BRADFIELD'S Female Regulator

for young girls on the threshold of womanhood is invaluable. When they become pale and languid, the eyes dull, aching head, feet and hands cold, appetite gone or abnormal, obstructed periods and painful menses, and their systems generally run down, they need a tonic, building up and their blood cleansed. Bradfield's Female Regulator for women is particularly valuable and useful owing to its tonic properties and as a regulator of the menstrual flows. Painful, obstructed and suppressed menstruation is permanently relieved and all diseases peculiar to her genital organs are cured by it. Regulator clears the complexion, brightens the eye, sharpens the appetite, removes muddy and blotched conditions of the skin and cures sick headache at once. Of druggists at \$1.00 per bottle. "Perfect Health for Women" can be had free by sending us your address. THE BRADFIELD REGULATOR CO., ATLANTA, GA.

Where You Get Bargains.

A. Max is selling his large stock of goods at prices which will compel the buying public to make their purchases of him. All you have to do to convince yourself that he is now selling goods lower than the lowest, is to call at his store and see for yourself. The proof of the pudding is the eating. Call on A. Max.

Many Reasons WHY DURHAM IS THE CITY TO LIVE IN AND DO BUSINESS IN

Concise and forcible Arguments in the Shape of Facts Which Must Be Conceded.

DURHAM HAS—A beautiful park. Four cigar factories. A paper box factory. A well filled Public Library. A population of some 18,000. Churches of all denominations. All of the leading secret societies. Beautiful homes and comfortable dwellings. Eight miles of electric car lines, with extension soon. Two daily papers—evening and morning; and three weeklies. One of the largest tobacco manufacturing plants in the world. Five cotton mills—one large hosiery mills and a bag factory. Four railroads centering here, and eighteen passenger trains arriving here and departing daily. A splendid system of water works electric lights, electric cars, gas and sewerage now under construction. Trinity College Southern Conservatory of Music, and a high grade preparatory school and six city graded schools. Real and personal property assessed for 1902 at more than \$9,500,000. Durham has macadamized streets and vitrified brick sidewalks and macadamized roads lead into the city from all parts of the country. Two first-class Hospitals—one for whites and one for colored. Durham will soon have a magnificent municipal building—now under construction—and a creditable government building. An active Chamber of Commerce and a Business Men's Association. Two telephone systems, and two telegraph lines. Large dry goods houses, and four wholesale firms. A splendid hotel, and many well-kept public and private boarding houses. A tobacco market second to none in the State for prices. A large flouring and grist mill. A death rate lower than any other city its size. A foundry, two carriage and buggy works. A Snuff Factory, a Pants Factory, a Furniture Factory, a Mattress Factory, and other important industries. Two military companies, a city armory, three fire companies, and two fire houses. Industries that employ more than five thousand operatives and pay weekly wages in cash aggregating more than \$25,000.00.

Sale of Lot.

Under and by virtue of the powers contained in a certain deed of trust executed by Jackson Evans and wife, on the 28th day of June, 1881, and duly recorded in the office of the Register of Deeds of Durham County, in Book 31, of mortgages, for said county, on page 228, default having been made in the payment of the indebtedness secured thereby, I will sell at public auction, for cash, at the Court House door in Durham, at 12 o'clock, M., on Monday, November 3rd, 1903, the following land lying and being in Durham Township, in Durham County, in said State, and bounded and described as follows, to-wit:

Adjoining lands of Chas. Lipscombe, Will Wyche and others, beginning at stake on the south side of Whitted Avenue and WPI Wyche's north corner, and running thence southward with his said Chas. Lipscombe and others line 48 yards to an iron stake; thence westward 25 1/2 yards to an iron stake; thence northward 48 yards to Whitted Avenue; thence eastward with said Avenue 20 1/2 yards to the beginning, containing one-fourth of an acre, more or less. See deed from D. P. Vickers and others to Jack's n Evans, dated October 8th, 1888, recorded in Book No. 22, page 470, &c. VICKERS'S BRYANT, September 30th, 1903.

The WEEKLY SUN is only \$1 a year. From 20 to 23 columns of live, interesting local, state and general news each week. Subscribe and get a wide-awake Durham paper.
