INTERNATIONAL LESSON FOR MAY 10. 1891.

"Thus hath the Lord God shewed unto us, and behold a basket of summer fuilt." In our hash lesson we heard Jehovah remind-ing israel of the many ways in which Ha-ad sought to win them back to Himself. In chapter v. 4, 6, 14, 15, they are repeatedly surrested to seek Him and live. Then they are warned of the day of the Lord and its key synthesis in the second second second to be added the second second second to be added to be surrested to seek Him and the to be added to be added to be added to be added be added to be added to

showing that the negotiations have reached what may be regarded as a favorable termination. Wanamaker in the first place gave as-surances that the administration was

specially anxious to aid the South in de-veloping commerce with South and Central America, as the nearness of Southern ports to the proposed new field of com-merce renders them the natural trade merce renders them the natural trade centres for our Southern neighbors. Endel, and in an apparently jesting manner of-fered Mr. Endel a cetatu amount for his stock of geods, lease of store and good will. Ill Fate of An Armenian Girl:

TIME TO AWAKEN. A Wail of Distress From New Hamp shire.

The Green Mountain State Is Visited by "Sockless Jerry" Simp. son, Who Preaches Alliance Doctrines.

MANCAESTER, N. H., [Special.]—The Weekly Budget says: Hon. Jerry Simp son, of Kansas, visited our State las week. Precious little welcome did he get from the newspapers of the State The message that he bore was not suited to their tastes. But he set the people to thinking, and scores of those who heard him went away saying under their breath him went away saying under their breath, "Jerry is right." The past week has seen events that confirmed those people in their belief. The Supreme Court of New Hampshire, responding to the queries of the Legislature, has issued the dictum, almost in so many words, that the railroads have succeeded in defrauding the State of its interest in the Con-cord railroad. The Legislature of 1889 cord railroad. The Legislature of 1889, as was generally understood, contemplat-ed no such result. Not an advocate of those bills by which railroad consolida-tion, stock watering to large amounts, and a revival of old and dead stock were

and a revival of old and dead stock were permitted, ever dared to suggest that the people were surrendering any rights they possessed in passing the act of 1889. But the court has said that they did it. That right which so sagacious a man as Austin Corbin was ready to pay \$500,000 for it in 1889 and which he considered worth \$1000,000, this year the court in effect declares has been waived, given away, utterly lost. And how? With an understanding of what was being done? No! But through subferfuge and chica-nary. The act of 1889 pretended to se-cure the people in their rights, but the court does not hold that it did so. On the contrary, it coolly informs the people, the contrary, it coolly informs the people, by implication but not set words, that the reservation of rights in that statute was a delusion and a snare, void and of no effect. The act of the court in that regard has been followed up by another in the same direction—the issuing of an ujunction by Judge Blodgett preventing he laying of the rails on the old road from North Weare to Henniker. This from North Weare to Henniker. This last act of railroad arrogance is he last straw to break the back of the long suff-ering patience of the people of New Hampshire. It is a reassertion in an ag-gravated form of the Vanderbilt creed, "The people be d_____d." And if the people do not resent it they deserve just that fate and nothing better. The Knights of Labor were organized in this State for one purpose, the secur-try of a ten-hour law. When that was secured its members ceased from its la-bors. Is it not time, men and brethren,

ors. Is it not time, men and brethren, that the people rose in their might and demanded some things for themselves? Let the record of the Legislature of 1891 answer. Its first business almost was to pass, absolutely without amendment, bills injecting millions of dollars of new stock into two railroad corporations and presenting to their fortunate stockholders gifts of millions of dollars which must eventually come out of the people's pockets. It has followed it up by voting down in the Senate the only measure in by voting the interest of the poor man that the House could be induced to pass, viz: the bill allowing the poor man's five dollars to buy an equal proportion of transporta-tion over its lines with the rich man's twenty dollars. The same Senate is re-lied upon to thwart the will of the people-in the matter of the construction of the in the matter of the construction of the Weare-Henniker road as authorized by the
