### ITALY NOW IN THE WAR.

After Long Deliberation, the Italian Government Declares War on Austria to Gain Territory.

Last Sunday Italy formally declared war on Austria-Hungary, making eleven nations now at war and adding 8,000,000 troops to the forces of the allies. Italy has spent \$400,000,000 in a few months preparing for the conflict, and it is said that 1,350,000 perfectly equipped troops are already on the frontier or are close to it. Troops have been moving northward for more than two weeks. They are armed with the best weapons the world can produce. The artillery is said to be equipped with heavy guns superior to the famed German and Austrian howitzers, while the field artillery has a weapon declared to be of longer range and more effective than the French "75."

One great purpose of Italy in entering the war is to gain possession of "unredeemed Italy," a sweep of Austrian territory to the north and east, near the head of the Adriatic Sea. This region, which includes Trent and Trieste, is Italian in all but nationality. To attain it has long been her cherished ambition. The territory in dispute may be defined roughly as the sections of Austria south of a line drawn in the Rhaetian Alps, where Italy, Austria and Switzerland meet, eastward to the Carnic Alps, and thence southward along to the Italian Alps, and again eastward so as to include Fiume.

### Henley's Clover.

The farmers' institute people have encouraged the farmers who cultivate sandy soil in Lee county to raise annual crimson clover. Mr. W. W. Henley asked them why they did not advise the farmers to raise the old red top clover. They stated that it was because it would not grow on sandy land. Mr. Henley has since made an experiment with this clover and as a result he now has as fine a field of red top clover on his farm near Jonesboro as can be found in Lee county. He put stable manure on the land and after inoculating the seed sowed them with oats in October 1913. Mr. Henley says red top clover contains almost twice as much humus as any other legume. The red top clover, when raised for stock, has another advantage over crimson clover. It can be raised several years without re-seeding.

### Community Day.

It was the understanding when we celebrated the Fourth of July last year that Sanford would continue to celebrate this national holiday annually. As it is but little more than a month till the Fourth a committee should be appointed to get up a program and make arrangements for the celebration of the occasion. As the Fourth this year will fall upon Sunday we will have to celebrate either on Saturday or Monday. Some newspapers have suggested that the week before be a special trade week so that the people can do their trading before the day of the celebration and then devote that day solely to enjoyment. This is a good suggestion and one that would work well in Sanford.

Since the above was put in type we learn that the Fourth will be observed this place on Saturday, July 3rd. Mr. D. B. Teague, chairman of the Lee County Booster Club, Mrs. Jas. Fard, president of the Civic League and officials of other clubs in the county met and decided to hold "Community Day" on July 3rd and combine it with the celebration of the Fourth. A program will be arranged and published soon.

### Jonesboro News Items.

Rev. L. H. Joyner, and son Paul of Merry Oaks, visited the family of Mr. W. A. Godfrey last week.  
Mrs. H. A. Rives and Leslie Robertson are spending the week with their parents in Chatham county.  
Miss Janie Dalrymple, who has been teaching at Washington, N. C., has returned to Jonesboro for the summer.  
Mr. D. H. Perry is moving his family from his residence near the court house to Jonesboro, where they will occupy Mrs. Bales' residence recently vacated by Mrs. Byrd.  
Mr. and Mrs. D. L. Culbertson of Rockingham, spent last Sunday with Dr. and Mrs. J. K. Hunt. They drove over in their car.  
Miss Effie Trodden has returned from a visit to Oak Ridge.

Last Sunday night Jonesboro was visited by the greatest downpour of rain ever witnessed by any one. The storm lasted for about two hours, during which time there seemed to be three distinct rains. Fields were washed and flooded terribly and the damage cannot be accurately estimated at this time.  
Mr. J. A. Bonkenmeyer has purchased the bankrupt stock of goods of J. D. Register, paying 66 cents on the dollar.  
Mr. L. H. Gibbons spent last Sunday in Wilmington.

**University Commencement.**  
The University commencement begins Sunday with the baccalaureate sermon by Rev. J. H. McCoy. Tuesday, June 1st, is alumni day and the alumni address is by R. D. W. Conner, Wednesday Hon. A. Mitchell Palmer, of Pennsylvania, will deliver the commencement address.

### U. N. C. SUMMER SCHOOL

For Teachers Will Open June 15th and Last Six Weeks—Bulletin of Information.

Chapel Hill, May 27. The twenty-eighth session of the University of North Carolina Summer School for Teachers will open Tuesday, June 15, and continue for six weeks, closing July 30. The school will be in session only five days to the week—from Monday to Friday. The regular period for registration will be on Tuesday and Wednesday, June 15 and 16.

The annual bulletin containing information about the institution and general information, courses of instruction, special lectures, conference and entertainments has just come from the press. Director N. W. Walker of the Summer School will mail copies of the bulletin to school superintendents, principals, teachers and prospective students of the school. The text contains 58 pages and is comprehensive in its scope of incorporating all information available concerning the forthcoming session.

The section of the handbook devoted to special lectures, conferences and entertainments carries the information that a series of public lectures will extend through the entire session. A number of public speakers have signified their intention of addressing the teachers on public topics.  
The rural life conference week will be observed on July 5 to 10, inclusive. Dr. William A. McKeever of the University of Kansas will deliver a series of lectures before the Rural Life Conference. The topics of his general subject are: 1. A Philosophy of Education as Applied to Rural Life. 2. The Preparation for Rural Leadership. 3. Play and Recreation in the Country. 4. Inexpensive Home-Made Playground Apparatus. 5. A Co-Operative Social Union in the Country. 6. A New Democratic Plan for Boys and Girls' Club Work. 7. Some Welfare Work for Country Women. 8. The District School as Source of Rural-Mindedness. 9. A Better Race of Men and Women.

Dr. Edgar Banks, explorer, author and lecturer, will deliver a series of seven illustrated lectures.

Richard T. Wycher, President of the Story Tellers' League of America, will give two readings during the Summer School term. T. Gilbert Pearson, secretary of the National Association of Audobon Societies, will make two lectures on Bird Study. A series of 12 lectures on International Policy and Conciliation have been assigned Dr. J. G. deR. Hamilton, alumni professor of history in the University of Virginia. Dr. J. G. deR. Hamilton, alumni professor of history in the University of Virginia, will give two lectures on International Policy and Conciliation.

Mr. and Mrs. Bud Meddlin.

### DOING THEIR DUTY.

Scores of Sanford Readers Learning the Duty of the Kidneys.

To filter the blood is the kidney duty. When they fail to do this the kidneys are weak.  
Backache and other kidney ills may follow.  
Help the kidneys do their work. Use Doan's Kidney Pills—the test kidney remedy.  
Sanford people endorse their work. J. L. Spaulbour, Charlotte Ave., Sanford, says: "I have taken Doan's Kidney Pills off and on for quite awhile whenever I have had occasion to run my kidneys or relieve pain in the back. I am sure that Doan's Kidney Pills was true and therefore Mr. Barnes was not libeled. Barnes sued Roosevelt for \$50,000 damages and the trial has been on at Syracuse, N. Y., for five weeks.  
The verdict was returned after 40 ballots had been taken and the jury had considered the evidence for 42 hours. The jury at first stood nine to three for Roosevelt and then eleven to one. The one juror was willing to acquit Roosevelt of libel but wanted him to pay half the costs. The jury agreed on that kind of a verdict but the court refused to receive it, holding it illegal. The verdict for Roosevelt was then returned, which puts the cost on Barnes.

**A. H. Slocumb Dead.**  
A. H. Slocumb, one of Fayetteville's most prominent citizens, died at 2 o'clock Tuesday afternoon in Hygea Hospital, Richmond, Va., where he had been a patient for several weeks. He was aged about 60 years. He was a native of Massachusetts and had been a resident of Fayetteville for nearly 50 years. Coming here in 1866, he at once engaged in the havel store business which he conducted up to the time of his death. He was a prominent Republican and was twice a candidate for Congress, against G. B. Patterson in 1904 and against H. L. Godwin in 1908. He is survived by his wife and six children, three sons and three daughters, all grown. The body was carried to Fayetteville Wednesday morning.  
Mr. J. L. Cherry spent Tuesday in Raleigh.

### PREDICTS A LONG WAR.

Newspaper Man Back From the Front Says Germany Can't Be Starved Out.

Roy Howard, manager of the United Press, who has been visiting the correspondents of that association on the western and eastern battle fronts, arrived in New York a few days ago. "I was in trenches 30 feet from the German line," said Mr. Howard, "where a whisper brought a German pot shot. More men are killed in the first line of trenches than in the rest because the men are more careless. In his war wire entanglements are shelled away.  
"That is what Sir John French meant when he said of Neuve Chapelle that some orders were not carried out. In a ground fog in the morning the Gordon Highlanders found themselves against a wire entanglement that had not been shot away, and they were shot to pieces. The British at Neuve Chapelle should have gone through."  
The systems are alike on each side. The farther you get back near the German boundary the stronger the defenses and the greater the number of concrete foundations for guns.  
"Along the eastern front Field Marshal von Hindenburg has captured Russians like sheep. They are turned out in the fields of Germany to till the soil by the hundreds of thousands.  
"England, caught unprepared, determined to prove to the world that a nation without military, without a big standing army and without conscription, in the care of emergency is able to take care of herself.  
"There appears to be in both France and England a feeling that this country is too ready to interfere with a peace proposition. At the present moment neither France nor England would listen to such a proposal. It promises to be a long war, and talk of starving Germany is non-sense."

### WORK OF PRESBYTERIANS

Reports Made to General Assembly at Newport News.

At the meeting of the Southern Presbyterian General Assembly at Newport News, Va., Rev. Dr. W. McF. Alexander, of New Orleans was elected moderator. Reports to the Assembly show: In the year just closed 20,150 persons were received into the Church on profession of faith, as compared with 16,149 during the previous year. The average number of visits to one unvisited person required during the year was 16.1-2, as against 20 the year before; 1,375 churches, or 40 per cent. of the membership of the Assembly, reported no converts during the year, whereas 1,512, or 44 per cent., made the same report at the previous Assembly. The report of the executive committee of Christian education and ministerial relief urges the need for more ministers. During the year, it says, 64 young men will be graduated from theological seminaries, but more than 30 ministers have been removed by death during the year and 11 have been retired on account of sickness or age. During the year, according to the report, aid has been given through the channel of ministerial relief, to 62 ministers, 146 widows and 23 orphans. These beneficiaries represent 231 homes. The total amount granted to beneficiaries the past year was \$43,486.60, or \$4,713.93 more than last year.

### MATTERS OF NEWS.

A daughter has been born to Mr. and Mrs. William McAdoo. This is the second child. The little girl bears the name of Ellen Wilson.

Mountain mission schools supported in whole or in part number 34, with 96 teachers and an enrollment of more than 2,000 students. Work among foreigners includes support of 70 missionaries who minister to 84 churches, with a total membership of 3,313, and with church property and equipment valued at \$130,500.

During the year membership of negro churches increased about six per cent. The total membership of the 71 negro churches now is 2,900.

### Women Cannot Serve as Notaries Public.

The women of North Carolina cannot serve as notaries public, according to a majority opinion filed by the State Supreme Court today. Justice Allen wrote the opinion for the court and Chief Justice Clark dissented in a vigorous dissertation, expressed the belief that this position should be open to women. In the majority opinion, Justice Allen quotes the court in other cases, one extract being taken from a decision written by the chief justice, and Chief Justice Clark, in his dissent, refers to other opinions in which it was loosely held that the position of a notary public is an office in a constitutional sense.

The case came before the Supreme Court in an appeal by Mrs. Noland Knight, of Asheville, who was the first woman notary to be appointed in this State after the legislature had passed an act authorizing women to serve in this capacity. As a test case, it was followed with great interest by both men and women, especially the latter, who crowded the legislative halls while the bill conferring on them this power was under discussion and who three weeks ago thronged the chamber of the Supreme Court and listened intently to the remarks of counsel. The arguments were made mostly on the side of women notaries, Attorney General Bickett alone giving both sides of the question.

### Invention That Enables Man to See Through Brick Wall.

New York Dispatch, May 2nd.

William Marconi, inventor of the wireless telegraph, made it known yesterday before sailing for Italy, says the Evening World, that he has invented an apparatus by means of which it is possible for a person standing beside a solid partition, such as a brick wall, to look through it and observe what is happening on the other side, just as if there were no obstacle interposed to the vision.

Mr. Marconi is quoted as saying that the device has been perfected to the point where persons in a room, looking through the wall, if the persons viewed are close to the wall they become blurred. Possibilities for evil involved in the apparatus, it is asserted, have made Mr. Marconi reluctant to make known his invention.
