

WHY DEFEAT SIMMONS?

The Question—Why Defeat Simmons?—has been raised by Mr. Ed M. Land, of the Statesville Bar. It calls for an answer. The undersigned answer the question as follows: 1st. Senator Simmons should be defeated because, he defeated the Democratic Party in the last election.

2nd. Senator Simmons should be defeated because, while enjoying the position of United States Senator at the hands of the Democratic Party, he used, not only his personal influence, but all his official power given him by his Party to divide and defeat his Party. 3rd. Senator Simmons should be defeated because he entered a contest within his Party in 1928 and, so long as he was winning, required the minority to stand by the decision. He had his way in precinct meeting, county convention, Congressional convention and State convention. He was beaten in the National convention, and bolted. So long as he was winning he gave no notice or intimation that he would not stand by the Party's decision—that is, he used the Party so long as it would suit his purpose, but when it went against his will he turned upon it.

4th. Senator Simmons should be defeated because he advised the young Democrats of this State to vote the Republican National ticket.

5th. Senator Simmons should be defeated because he made his speech at Raleigh over the radio to tens of thousands of people listening in, in which he said and did all that he could to divide and embarrass the Democratic Party in North Carolina and accomplish its defeat, and contributed as much as he could to the loss of a number of counties and two Congressional districts.

6th. Senator Simmons should be defeated because he gave his public pledge and undivided support to the campaign of Democratic disaffection, headed by Frank McNinch, in 1928; which campaign was financed by sources unknown to the people, and no report has ever been filed with the State authorities, as required by law of political organizations, as to where the money came from or what was done with it.

7th. Senator Simmons should be defeated because he supported Hoover and is responsible therefore, for "Hoover Prosperity." The Democratic Party must oppose the Republican Party this year and in 1932, and Mr. Hoover is the head of the Republican Party. It will be difficult to make progress against the Republican Party with one at the head of the Democratic ticket who supported Hoover and "Hoover Prosperity."

8th. Senator Simmons should be defeated because the Democratic Party cannot afford to approve or condone, or in any way to countenance, the conduct of Senator Simmons in fighting its National ticket and supporting the National Republican ticket. Respectfully
