

GAMERON NEWS

BY MRS. LOULA MUSE.

Death of Mrs. Graham. Mrs. Lenora Cox Graham, age 30, wife of Mr. Stanley Graham, died Friday morning at 11 o'clock, March 2nd, at her home near town, on Route 1. She had been teaching the Nursery School, CWA, for a month, and was ill only five days with pneumonia.

Mrs. Graham was the daughter of Mr. and Mrs. D. B. Cox, of Sanford. She was a member of the Methodist church, and was an active and enthusiastic worker both in the Sunday School and church, and was a diligent club worker, manifesting deep interest in her community and its many problems.

In addition to her husband and parents, Mrs. Graham leaves two daughters, Peggy Rose, age five; and Shirley B., age two; and one son, David Bennett, age 3; she is also survived by five sisters and one brother.

Funeral services were conducted from the Cameron Methodist church on Saturday afternoon at 3 o'clock, by her pastor, Rev. C. H. Durham, of Carthage, assisted by Rev. W. D. McNeill, of the Presbyterian church, Pall bearers were Messrs. W. A. Muse, L. B. McKeithan, Willie Cooper, Joe Harrington, Cone McPherson and Luther Womack. Floral bearers were young ladies, members of her Sunday School class. Interment was in the Cameron cemetery. The large concourse of people which filled the church to overflowing, attested the love and esteem felt for this excellent young woman.

Woman's Club Meets.

The Woman's Club met Thursday afternoon, March 1st, in their club room, with the president, Miss Margaret Thomas, presiding. After reading, in unison, the club collect, prayer was offered for one of our active members, Mrs. Stanley Graham, who was desperately ill. A short business session was held, the club voted to give the Art department \$20 in order to secure Mrs. Arrington's additional \$20 to purchase 50 pictures, reproductions of the great masterpieces, for the school. The election of officers for 1934-35 was held resulting in the following officers being elected: President, Miss Rachel Gilchrist; vice-president, Miss Margaret Thomas; secretary and treasurer, Mrs. H. D. Tally. The club gave Miss Thomas a rising vote of thanks for her three years of faithful work as president of the club. The Art department was hosted and presented the following program: a review of the year's work was given by the chairman, Mrs. Loula Muse. A sketch of the life of Jean Baptiste Corot and a description of his best known picture, "Spring," was given by Mrs. Jewell Hemphill. Mrs. George M. McFayden gave a brief sketch of Raphael, and fully interpreted his great masterpiece, "The Sistine Madonna." Mrs. H. D. Tally supervised an original contest in which Mrs. George M. McFayden was winner, the consolation going to Mrs. A. M. Snipes. Delicious refreshments were served. The Saint Patrick motif was artistically portrayed in the decorations, contest and refreshments.

Merry Menders.

Mrs. J. D. McLean was charming hostess to the Merry Menders last Monday evening. After thimbles and needles were put aside a Saint Patrick's contest was enjoyed. Mrs. H. D. Tally and Mrs. Jewell Hemphill tying for the prize, Mrs. Tally winning in the draw. Consolation was given Mrs. George McFayden. St. Patrick and the "Emerald Isle" were emphasized throughout the evening and at its close all the ladies were "wearing the green."

After a stay of several weeks in the Highsmith hospital in Fayetteville, Mrs. M. G. McDermott returned home Sunday, where she is receiving her friends and rapidly recuperating.

Miss Flora Phillips, student at Flora McDonald College, spent the week end with her parents, Mr. and Mrs. J. A. Phillips. She was accompanied by her school mate, Miss Pauline Sloan, of Calypso, who spent the week end with Prof. and Mrs. R. F. Lowry.

Mayor and Mrs. Flint Loving and children spent Sunday in Siler City as guests of Mrs. Lovings' sister.

Bob Sloan, of Broadway, was guest of Mrs. George Mathews Sunday.

Mrs. M. D. McNeill spent Thursday in Carthage with her sister, Mrs. C. C. Yates.

Mr. and Mrs. J. D. McLean attended the funeral services of Angus Bruce Cameron, son of the late Mr. and Mrs. A. Cameron, of Vass, last Friday morning, at the Cameron home in Vass, which were conducted by the pastor, Rev. W. C. Ball, of the Methodist church.

The following attended the Carolina Solon ensemble, presented by a group of 18 students of the University of North Carolina, at the Church of Wide Fellowship in Southern Pines Sunday evening: Mesdames R. F. Lowry, Loula Muse, Jewell Hemphill, Misses June Melver Hemphill and Pauline Sloan and A. M. Hemphill, Robert Wooten, of State College,

was at home for the week end. Miss Pauline Sloan was supper guest of Miss Flora Phillips Monday evening, after which the young ladies returned to their work at Flora McDonald.

New officers elected in the Sr. Y. P. C., of the Presbyterian church Sunday evening were: President, Russell Thomas; Vice-president, Miss Idell Thomas; secretary and treasurer, Miss Ruth McFayden.

Mrs. J. L. McGraw and Miss Flora McDonald, of Carthage, attended the funeral of Mrs. Stanley Graham Saturday.

Mrs. M. G. Dalrymple, of Carthage, was in town Friday en route to Columbia, S. C., to attend the wedding of her niece. Owing to a belated train she was guest for a short while of Mrs. Loula Muse.

NATIONAM GRANGE PROGRAM.

Here are the policies the National Grange will fight for during this year, some of which are already being put into force: I. Controlled Reflation. 1. Earliest possible use by the President of the power conferred by Congress to bring about a rise in the commodity price level, through controlled expansion of the currency.

2. Issuance by the government of non-interest bearing treasury notes to pay at least a part of the public works program, to liquidate the sound assets of closed banks or to retire United States bonds—with definite provision for redemption of such currency at a given rate per year.

3. Hearty support of the Banking act of 1933 and vigorous opposition to any proposal for the repeal of that feature which provides for guarantee of deposits.

II. Lower Interest Rates for Agriculture. 1. A material reduction in interest rates to farmer borrowers of the Federal Loan system, with fairer appraisal basis.

2. Amending the Farm Loan act of 1933 so as to restore farmer control of the system.

3. Extend the rediscount privilege to Federal Land Bank bonds, in order to secure lower interest rate; also enact federal guarantee bonds for same purpose.

4. Amendments to strengthen local farm loan associations and increase their efficiency.

5. Use every possible means to stop farm mortgage foreclosures, with first consideration given to those now threatened with loss of their farms.

III. A Sane Program of Taxation. For the relief of a tax-burdened people the National Grange urges the following needed measures of relief; based upon ability to pay, benefits received, and a broadened base of taxation:

1. Extension of the federal graduated income tax and by greatly increasing rates in the higher brackets. 2. Increasing gift, estate and inheritance tax rates—with 25 per cent of such receipts returned to the states for educational purposes, on the basis of population.

3. Enactment of income tax laws in all states. 4. No diversion of the gasoline tax from its exclusive use for highway construction and maintenance.

IV. Needed Food and Drug Legislation. 1. Penalties for false advertising in newspapers, periodicals, and over the radio. 2. Inclusion of cosmetics under the Food and Drug act and its penalties.

3. Requirement that labels of food and drugs disclose sufficient facts to permit intelligent buying. 4. The Grange Policy on Temperance. The Grange favors:

1. The adoption of adequate measures by the government to protect dry states against the shipments of intoxicating liquors across their borders from wet territory.

2. Eliminating as much as possible the element of profit from the manufacture, sale, and distribution of intoxicating liquors.

3. A nation-wide campaign of education on the evils of strong drink, especially pointing out the fallacy of any nation endeavoring to drink its way to prosperity.

The Grange opposes: 1. The return of the saloon in any form.

2. Liquor advertisements in newspapers or periodicals, on billboards or over the radio. 3. The sale of intoxicants in the immediate vicinity of any church, school or college.

VI. Nineteen Other Important Policies Offered: 1. Militant efforts along the lawful lines to secure economic justice for agriculture, but never resort to violence or intimidation.

2. Hearty support of the land grant colleges, under the purpose of the Morrill act. 3. A new land policy, with a greater amount of submarginal land taken out of production.

4. Adequate appropriations to maintain the effectiveness of the agricultural extension service.

5. Payment of extension service workers wholly from public funds. 6. Limit manufacture of oleomargarine, and restrict importation of foreign oils and fats.

7. Increasing attention to soil conservation and more extensive soil surveys. 8. Strict enforcement of present laws on seed and plant quarantine and control.

9. Continued policy of building farm-to-market roads. 10. Construction of inland waterways from Great Lakes to the sea.

11. Proper restrictions upon size, weight, and speed of all vehicles on public highways; and uniform between the several states.

12. Making the state the sole taxing agency of motor vehicles. 13. Putting welfare work upon an employment basis instead of a dole.

14. Registration of all aliens and deportation after ten years of non-citizenship. 15. Conscriptio of wealth, as well as men, in event of war.

1. All possible steps toward the establishment of a permanent World Court. 17. National regulation and supervision of motion picture industry and establishment of a federal board of censors.

18. Careful study of the actual effect of spray residue upon fruit. 19. Grange cooperation with organized labor and other farm organizations.

GULF NEWS

Mrs. D. E. Murchison is taking treatment in the Wesley Long Hospital, Greensboro. Her many friends hope to see her home again much improved.

Mrs. Alex Tyner is spending the week with relatives in Richmond county.

Mr. and Mrs. J. G. McIntyre, of Charlotte, spent the week end with their mother, Mrs. J. W. McIntyre.

Miss Louise Jourdan is visiting Mr. and Mrs. G. S. Jourdan at family at Lenoir.

Garfield Jourdan is out again after being confined to his home several days with illness.

Messrs. J. M. McIntyre and Hoyle Causey made a business trip to Richmond, Va., one day last week.

Mr. Gordon Wilkie entered school at Guilford College last week for the balance of the college term.

Wiley J. Beal made a business trip to Duplin county Tuesday.

Mrs. J. W. Freeman spent Sunday in Greensboro as a guest of her brother, Mr. Roy Murchison.

CIVIL SERVICE EXAMINATIONS

The United States Civil Service Commission has announced open competitive examinations as follows: Assistant Commissioner of Labor Statistics, \$6,500 a year, less a deduction of not to exceed 15 per cent as a measure of economy and a retirement deduction of 3 1-2 per cent.

Bureau of Labor Statistics, Department of Labor, Washington, D. C. Applicants must have had education and experience of such length and quality and such personal qualifications as to demonstrate their ability to perform the duties, which include the following: To cooperate with and assist the Commissioner in formulating, organizing, and administering economic and statistical projects in the field of labor; to direct the activities of the technical staff of economists and statisticians, and allied duties.

Educational Officer (Food and Drugs) \$3,800 a year, less a deduction of not to exceed 15 per cent as a measure of economy and a retirement deduction of 3 1-2 per cent.

Food and Drug Administration, Department of Agriculture. Applicants must have been graduated with a bachelor's degree from a college or university of recognized standing. In addition, they must have had at least five years of progressive experience in preparing illustrative and descriptive material, including food and drug advertising; for the information and guidance of consumers and producers.

All States except Delaware, Iowa, Maryland, Vermont, Virginia and the District of Columbia have received less than half their share of appointments in the apportioned departmental service at Washington.

Full information may be obtained from W. L. Seawell, Secretary of the United States Civil Service Board of Examiners, at the post office in this city.

EXAMINE GRAIN BEFORE THE REPLANTING

Repeated cold snaps during the past month have severely damaged all the small grain in North Carolina according to field reports gathered by E. C. Blair, Extension agronomist at State College.

However, he said, a top dressing of

DIZZINESS relieved by Black-Draught

"I decided to take Theodor's Black-Draught, as I had been having bilious spells," writes Mr. Chas. E. Stevens, of Columbus, Ind. "When I get bilious, I feel sleepy and tired and do not feel like doing my work. I get awfully dizzy. I know that I had better take something. After I found how good Black-Draught is, that is what I have used. I guess it is the best thing I ever used. It really doesn't feel like a laxative, and it is the best thing I ever used. That is, it is a very fast laxative. Now you can get Black-Draught in the form of a TABLET, for Children."

soluble nitrogenous fertilizer applied at the rate of 50 to 100 pounds to the acre during the first two weeks of March will do much to revive the plants.

Although the fields may appear to be killed entirely, he continued, a close inspection will reveal that in most cases there is still a stand of good wheat, rye, and barley even though the plants are alive for less than one inch above the ground.

Some fields of oats have been killed to the ground, but the plants are still green just under the surface, and faint tinges of green will show, in most cases at the surface.

While indications are that 75 per cent of the stand is alive, the field should be left to grow, Blair said. Where the stand is from 25 to 75 per cent alive, more seed may be drilled onto that planted without additional preparation of the soil.

If the oats drilled do not ripen with the oats sown last fall, the field should be cut for hay when the fall oats are in the dough stage, he said. 25 per cent should be disced and sown outright to spring oats. A top dressing as described for wheat, rye and barley will also help oats.

MAKE FARM PLANS ACCORDING TO NEEDS

Growers who have signed cotton or tobacco reduction contracts will find it helpful to plan systematically for the best use of the acreage rented to the government, says Charles A. Sheffield, assistant extension director at N. C. State College.

One of the best ways to go about the planting is to prepare a table showing how many persons and head of livestock are to be fed on the farm and the amount of feed crops each will need.

The total amount of such crops needed can then be compared with a list of all crops grown on the farm last year. If the farmer has not been growing enough of the necessary crops, he has figures to show just what additional food and feeds he needs to produce.

Since he must not increase the total amount of crops that he has been producing, the grower may find it convenient to reduce a crop of which he has been growing too much, so that he can increase another crop. To if he likes, he can grow his feed crops on the rented acres and reserve the other lands for crops to be marketed. Only crops for consumption at home can be grown on the rented acres.

Mr. Sheffield has prepared a special circular "Planning for Agricultural Recovery in North Carolina," which tells how to plan for systematic farming and shows how much food and feeds are required for the healthful maintenance of both people and animals.

The circular may be obtained free of charge by applying to F. H. Jeter, agricultural editor at State College.

TOP-DRESS GRAIN TO RESTORE GROWTH

Investments in nitrogenous fertilizers for spring application to small grains are among the most profitable that can be made with these crops, according to Dr. H. B. Mann, associate agronomist at State College.

Top-dressing with soluble nitrogen fertilizers this year should yield better results than usual, due to the greater need for restoring small grain which has been heavily damaged by the cold spells during the past few weeks.

During recent years the North Carolina experiment station has found by tests the relative value of various nitrogenous materials. With wheat, for example, a spring top-dressing of 15 pounds of nitrogen (equivalent to 100 pounds of nitrate of soda or 75 pounds of sulphate of ammonia) to the acre has increased the yield by five bushels.

On heavily acid soils nitrate of soda produces larger yields than sulphate of ammonia. On soils that have been moderately limed there is little difference between the two materials. Sulphate of ammonia, however, gives best results on soils where excessive amounts of lime has been used.

At present prices 100 pounds of nitrate of soda cost about \$1.75 and sulphate of ammonia about \$1.50. 5 bushels of wheat valued at 90c a bushel, are worth \$4.50, or \$2.75 more than the cost of nitrate of soda and \$2.00 more than the cost of sulphate of ammonia.

Since the nitrogen from sulphate of ammonia can be provided at a lower cost, this type of fertilizer is recommended for soils that have been limed recently. On acid soils, however, nitrate of soda is best.

The top dressings are not fully effective unless applied early. In the Piedmont it should be applied from March 1 to 15 and in the mountain sections between March 10 and 25. In all cases the top dressing should be applied when wheat first starts its growth.

CLEAN BROODER HOUSE FOR HEALTHY CHICKS

The greatest chick losses occur during the brooder period which makes it necessary to clean the house thoroughly before the chicks are placed in it.

"To go about having a sanitary brooder house the poultryman should first scrape all of the old manure and dirt from the lower side walls and floor of the house and clean the water containers, mash hoppers and other equipment used in the house," declares H. C. Gauger, associate professor in the poultry department at State College.

"After this thorough mechanical cleaning has been done, the lower side walls, floor, water containers, feeding equipment, brooder stove and canopy should be scrubbed with a lye solution made by dissolving one pound of lye in 10 gallons if hot water. A stiff bristle broom may be used to apply this solution. This lye mixture will not only further cleanse the house but it also has germ-killing power. Where the poultryman has a fire gun, he may use this instead of the lye solution."

After the brooder house has been thoroughly cleaned, it must be cleaned again at intervals during the brooding period. If the house has a dirt floor, remove the top few inches and replace it with clean dry soil, sand or gravel.

Mr. Gauger also advises the use of wire frames on which to place the feeders and water containers. The house needs to be free from drafts and if it is movable, it is well to take it to a new location after cleaning.

Do not crowd the chicks in the house, Gauger says. About six square inches of floor space per chick is necessary for good health.

We Are Equipped to handle your INSURANCE REQUIREMENTS

Give us a chance. CROSS & BRINN.

DR. J. C. MANN EYESIGHT SPECIALIST

Will be at his office over Post office, Sanford, N. C., every WEDNESDAY from 10 A. M. to 3 P. M.

EXECUTOR'S NOTICE.

Having qualified as executor of the estate of D. B. Buchanan, deceased, late of Lee County, N. C., this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned at Jonesboro, N. C., on or before January 18, 1935, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This January 18, 1934. W. L. THOMAS, Executor. Jonesboro, N. C.

NOTICE OF SALE

Under and by virtue of the power and authority vested in the undersigned, as a Substituted Trustee, under deed of trust executed by Mrs. Kate S. McLeod on January 1st, 1930, which is registered in the office of the Register of Deeds for Lee County in Book 127 at page 246, default having been made in the payment of the indebtedness thereby secured, and the undersigned having been appointed as Substituted Trustee, and demand having been made for a foreclosure of said lands described in said deed of trust, the undersigned will on MONDAY, APRIL 2, 1934, AT 12 O'CLOCK NOON,

at the Court House door in Lee County, expose to public sale, to the last and highest bidder for cash, all of that certain tract of land lying and being in Cape Fear Township, Lee County, North Carolina, adjoining the lands of Butts, Thomas, Wicker and others:

Beginning at a stake with white oak pointers and runs North 61 East 12 chains to a stake with maple pointers; thence North 31 West 6 chains to a stake with three oak pointers; thence North 71 1-2 East 38.50 chains to a stake with maple pointers; thence S. 3 1-2 West 1.32 chains to a stake with maple and hickory pointers; thence South 86 1-2 East 46 chains to a stake with three oak pointers; thence North 2 East 50.45 chains to a stake with oaks and hickory pointers in the old County line; thence North 88 1-4 West 116 chains to a stake with oak pointers in the old County line; thence South 2 1-2 West 22.50 chains to a stake with small pine and persimmon pointers; thence South 61 1-2 West 32.50 chains to a stake with oak and sweet gum pointers; thence following the old road twenty-one calls as follows: South 65 East 1 chain to a stake; thence North 60 East 1.50 chains; thence South 87 East 2.30 chains; thence South 56 East 3.50; thence South 69 East 3.50 chains; thence South 66 East 2.50 chains; thence South 72 East 2 chains; thence South 70 East 150 chains;

thence South 48 East 2.50 chains; thence South 38 East 3 chains; thence South 77 East 1.20 chains; thence South 50 East 2 chains; thence South 48 East 16.50 chains; thence South 31 East 3.50 chains. thence South 80 East 3.50 chains; thence South 42 East 3.50 chains; thence South 57 East 3 chains; thence South 55 East 5 chains; thence South 71 East 2 chains; thence South 82 East 4.50 chains; thence South 61 East 65 links to a stake with oak pointers; the beginning corner, containing 693 acres, according to a survey and map made by J. W. Hall, Surveyor, on October 8th., 1913, Magnetic bearings as of that date.

This 1st day of March, 1934. E. L. GAVIN, Substituted Trustee.

EXECUTRIX'S NOTICE

Having qualified as Executrix of the estate of W. W. Henley, deceased, late of Lee County, North Carolina, this is to notify all persons having claims against the estate of the said deceased to exhibit them to the undersigned at H. M. Jackson's office in Sanford, N. C., on or before the 3rd day of March, 1935, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This the 3rd day of March, 1934. Miss Tammie Campbell, Executrix. Gavin & Jackson, Attorneys.

OVERSIZE Fertilizers. 'BEST IN THE FIELD'

We have the following letter from Mr. T. V. Kelly, of Moncure, N. C. Mr. Kelly points the way to prosperity.

"I feel like I want to say something in regard to your guano I used in the 1933 crop. I had three acres in cotton and used 300 pounds of your Guano and 50 pounds of your soda and made on the three acres 1522 pounds of lint cotton.

"I am highly pleased with it; and if I can get any for my 1934 crop, I sure do want it, as I never had better cotton anywhere. The land was not improved by any means."

Now if you were making fertilizer, wouldn't a letter like that right from the heart make you feel good? It effects us that way too, and it points the way for better crops to you by using OVERSIZE FERTILIZERS.

Place your order early, for both cotton and tobacco fertilizers, with our agents or direct with the mill:
