## ANOTHER GOOD ONE ON THE STINGY MAN

**Moore County Contemporary Is Reminiscent of Famous Stingy Citizens.**

Many are the stories told on stingy people. There was the old fellow who would stop his clock at night. Another would carry what water was left in the bucket after a day's work in the fields and throw it back in the well. Another, well-known to the people of this county, objected to hauling passengers in his car because he thought their extra weight would cause the machine to consume more gasoline. But the best story of them all is related on a very wealthy citizen of our step-child, the adjoining county of Lee. According to the version reaching our ears, he fell into an abandoned well on a place he owns near Sanford. A number of men, whom he had employed by the hour, rushed to his aid. "Are you hurt," they anxiously inquired. "Nope," came the reassuring response. "Well, sit tight," one of the employees shouted, "and we'll have you out in a few minutes." In the meantime, the thrifty gentleman had learned, by looking at his watch in the dim light at the bottom of his prison, that it was 11:30 a. m. "That's alright," he shouted back, "wait until 12 o'clock!" That was the beginning of the dinner hour for the men. The old gentleman wanted to be rescued on their time.—Moore County News.

## New Price Schedule

A new schedule of prices for Bayer Aspirin tablets—the lowest in the history of the Bayer Company—went into effect in all Sanford drug stores.

The Bayer Company introduced Bayer Aspirin in this country 25 years ago. It has since become one of the most widely used of all drug products and the price reduction will mean a saving to millions of consumers.

Last year the Bayer Company reduced the price of its 100-tablet package and, according to the officials of the company, the distribution increased so definitely that it was decided to extend the lower price to include the dozen and two-dozen packages and to again reduce the large family size.

In announcing its new consumer price schedule, the Bayer Company issued the following statement:

"Bayer has always kept faith with its customers by giving them the finest, most uniform product that science can produce. Its decision to reduce prices is evidence of Bayer's desire to extend even further its service to its customers."

The new consumer prices of Bayer Aspirin are now effective in 60,000 drug stores throughout the United States.

## Why Children Need a Liquid Laxative

The temporary relief children get from some synthetic, habit-forming cathartic may cause bowel strain, and even set-up irritation in the kidneys. A properly prepared liquid laxative brings a perfect movement. There is no discomfort at the time and no weakness after. You don't have to give the child "a double dose" a day or two later.

Can constipation be corrected in children? "Yes," say medical men. "Yes," say many mothers who have followed this sensible medical advice: 1. Select a good liquid laxative. 2. Give the dose you find suited to the system. 3. Gradually reduce the dose until the bowels are moving regularly without aid.

An approved liquid laxative (one that is widely used for children) is Dr. Caldwell's Syrup Pepsin. The mild laxative action of this excellent preparation is the best form of help for children—and grown-ups, too. The dose can be regulated for any age or need.

## "Educated Grass" at State College

RESIDENTS of Raleigh and travelers along U. S. Highway No. 1 have been much interested in a development on the grass in front of the handsome Agricultural Building of the State College of Agriculture and Engineering.

As the picture shows, the words "N. C. State" appear clearly in the grass. This is not, as it might first seem, a miracle of growth but the result of a unique field test

arranged with college officials by the distributors of Arcadian, the American Nitrate of Soda. Instead of just using Arcadian on an ordinary plot, this novel method of placing it was chosen as the most effective way to prove the claim that the improved nitrate of soda produces luxurious plant growth. College officials, as well as passers-by, admit this field test is one of the most convincing they have seen.
