War Department Cites Alleghany Man For Gallantry In South Pacific

The War department reported today that 23 members of the army air forces had been awarded air medals for meritorious achievements in the South Pacific.

Those awarded included: Bruce W. Osborne, corporal, for meritorious achievement on September 7, and 9, 1942 in air operations over the Solomon islands area. On September 7, Corporal Osborne, as crew member of a heavy bombardment airplane proceeding on a search mission, participated in attack against a Japanese four-engine flying boat which was encountered and immediately engaged. His airplane, however, was soon compelled to abandon action after receiving a 7.7 mm hit on the oil tank and developing fire in the No. 1 engine. While returning to home bases on three engines, the crew sighted seven enemy barges and one torpedo boat which they proceeded to strafe for over 20 minutes.

Following this action, this airplane and crew safely returned to home base over a 700-mile course. On September 9, while on another search mission, Corporal Osborne and other members of the crew encountered a Japanese serial No. 43 airplane, which was immediately and aggressively attacked, many hits being scored. Heavy return fire was encountered from waist gun positions of the enemy craft and, in the ensuing action 13 hits were received and three gunners of the crew were wounded. Although fire power was rendered ineffective because of gun failure. (Continued on Page 8)

Goal For County Is \$1,900; W. O. Hooper Is Chairman Of Drive

Gratifying response to the appeal for Red Cross War funds has been noted since the drive began last week, Chairman W. O. Hooper said here this week, though contributions of a substantial nature are yet needed to bring the fund up to the allotted quota of \$1,900.

The canvass of individuals in the county is in progress, by personal appeal and through the schools, but late reports and tabulations are not sufficiently complete for publication. Figures on the amount raised will be published next week.

"Each person who has a friend or relative in uniform should measure the significance of this crusade in your own heart," President Roosevelt, in his radio address which opened the campaign, stated, "You, at your house today—know better than anyone else what it means to be sure the Red Cross stands at the side of our soldiers or sailors or marines wherever they may be. All of us—one hundred and thirty—millions know how indispensable to victory is the work of this great agency."

And General Eisenhower, in his address, declared: "The Red Cross takes your subscription, transforms it into useful and practical aid, and brings it to the soldier freely, cheerfully and efficiently."

Admiral Nimitz likewise lauded the work of the Red Cross in his theatre of operations, and urged every American to support the War Fund Campaign. (Continued on Page 8)

President Offers New Social Security Program To Congress

Washington — President Roosevelt yesterday laid before Congress a vast new cradle-to-grave program of social security and a definition of a postwar America in which the government would be in partnership with many businesses and labor would share in industrial management.

The far-reaching proposals are products of the National Resources Planning Board, which contended that with proper planning the nation may hope for a life of abundance unparalleled in all history.

Mr. Roosevelt asked "full consideration" at this Congressional session of the steps proposed. In a letter of transmittal, he told the Congress: "We fight today for security

Sliced Bread Ban Lifted By Gov't

Washington — The government ban on bakery-sliced bread was removed this week to the delight of housewives who have risked thumbs and tempers slicing it themselves for nearly two months. Sliced loaves will be back on the grocery shelves this week in most places.

The prohibition against bakeries' slicing bread took effect Jan. 18 and never was popular with housewives, particularly those who found themselves unable to buy a good bread knife. Bakeries also urged its revocation.

This dissatisfaction was not mentioned by Food Administrator Wickard in rescinding the order. He explained that its disadvantages were found to outweigh its advantages.

Rommel Driven Back; Germans Make Drive Against Russian Line

RAF Pounds Nurnburg In Major Air Assault; Much Damage Is Done

The weather was in favor of the Germans on the Russian front this week, where it is reported that the Russian Forces were thrown back up to 80 miles, with the loss of eight important bases on the Kharkov-Dnieper-Donets front, by a counteroffensive into which the German high command has thrown 25 divisions totalling possibly 375,000 men.

Allied forces in Tunisia seized the initiative on land and in the air yesterday as Field Marshal Erwin Rommel dragged his battered panzer column out of the clutches of the British 8th army, leaving 50 wrecked tanks on the battlefield.

American Flying Fortresses and Lightning fighters hashed a powerful German air formation over the Sicilian strait, accounting for 19 out of an estimated flight of 50 German warplanes, to hand Reichs-marshal Goering's forces the same kind of thumping that Rommel had received from the British artillery.

While Rommel is noted for his daring, it is difficult to see how he can hope to take the initiative in the south with a new attack in the face of the decisive defeat suffered in his initial try.

Following up Monday night's scourge of Nurnburg, the royal air force sent squadrons of Spitfires and speedy Mosquito bombers out to attack Northern France and there were indications that other British planes were on the prowl over axis-held Europe again last night.

He has worked hard and constructively. (Continued on Page 4)

N. C. Legislature Ended Yesterday; Record Session

Leaders Point Out Group Allotted More Money Than Any In History

Raleigh — The Legislature sent its last bills to the enrolling office yesterday for their ratification and listened to simultaneous sounds of the gavels in both the Senate and the House.

Leaders said the 1943 session allocated more money than any other in the State's history.

The House ended Tuesday's intermittent sessions after giving the Vocational Textile School at Belmont \$75,000, and killing a measure to prevent local governments from levying taxes to support the ninth school month. Representative Worthington of Pitt, who would have prevented the tax, would have allowed levies for supplementary purposes.

The \$75,000 awarded the Belmont school was earmarked for the purchase of new machinery. Supporting the move was Representative Ward of Craven who said the textile industry paid a huge sum in State taxes and was entitled to have something in return.

Dry forces tried earlier yesterday to revive a statewide liquor referendum bill by suspending the house "gag" rule which requires a two-thirds vote to override a committee or the chair. A motion by Rep. Quinn of Duplin to suspend that rule lost when Rep. Ward of Craven arose to a point of order that such a motion must lie upon the table for a day.

Quinn was one of three representatives who indicated they would file a minority report after the committee on propositions and grievances killed a proposed state-wide bone dry measure. They did not do so, however. Quinn's efforts were considered. (Continued on Page 8)

What You Buy With WAR BONDS

Rural Electrification has made great strides during the past ten years, bringing to thousands of farm homes the conveniences of their city brothers. Today, however, copper wiring, fixtures—all the materials which are required for rural electrification—are "out" for the duration.

The farmers of the nation, however, can start now buying rural electrification and all the equipment which goes with it through purchase of War Bonds. Your War Bonds today will buy rural electrification tomorrow and give you back \$4 for every \$5 you invest.

What You Buy With WAR BONDS

One of the most essential articles of equipment for our soldiers is his canteen. In equatorial countries and in other warm climates they are particularly important to the welfare of our fighting men.

The canteen, now being largely manufactured of plastics, costs about 45 cents. The canvas cover . . . about 41 cents or 34 cents in all. Your purchases of War Bonds, or People's Bonds, will buy many of these for our men in the Solomon or in Africa where they are badly needed. Buy War Bonds every payday . . . at least ten percent of your income . . . through a Payroll Savings plan. U. S. Treasury Department
