Curb Market To Open On Friday At Roaring Gap

Will Be Sponsored By H. D. Club Women; Plans Completed On Saturday

Plans for the establishment of a curb market at Roaring Gap were completed Saturday at the all-day meeting at the community building and the opening will be on Friday morning at 9:00 o'clock.

The market, sponsored by the home demonstration clubs of the county, will be centered in a tent beside the Doll House, halfway between the hotel and the entrance to the resort, it was pointed out. Booths have been constructed and seventeen women representing the various clubs in the county, have agreed to sell their products at the market, Friday. Products will consist of fresh vegetables, home-made breads, cottage cheese and hams.

Miss Capel explained that after Friday, the market would be open two days each week, on Tuesdays and Fridays, from 8:30 to 11 o'clock. The women in each community, she stated, would pool their products and bring one car, due to the scarcity of gas and tires.

"We have been assured of a market for the produce in event the sale does not go well in the colony," Miss Capel stated. The Graystone Inn and Silver Pines Camp agreed to buy all produce that was not sold to individual buyers.

Each producer must pay a fee of three per cent for the privilege of selling in the market, and records will be kept, the surplus money to go into the club treasury to meet expenses, the curb market might encounter.

At the meeting, Saturday, Miss Mary E. Thomas and T. T. Brown gave demonstrations on the preparation of certain products for (Continued On Page Four)

Details of the opening will be announced next week. While official sales will start at four o'clock in the afternoon on Monday, July 3, it was announced that any farmers having beans ready for sale before this time should contact market officials. Germans Blast French Port To Destroy It Before Being Captured By Allies

American troops stormed to the top of the last ridge barrier to Cherbourg Tuesday night, and were within sight of the great port less than four miles away where the explosions of hasty German demolition threw smoke shrouds over the city and thundered the collapse of any Nazi hopes of a successful stand.

(A NBC broadcast from London said that American troops were within two miles of Cherbourg's city limits and that the fall of the port "seems imminent." The correspondent said allied warships were pounding the Germans around Cherbourg and also in the Cap de la Hague area at the north west tip of the peninsula 15 miles above Cherbourg.)

Laurel Springs Man Writes About Conditions In Italy

Conditions which exist in Italy today are described in a recent letter from Cpl. William R. Wyatt, who is serving with the U. S. Army, there. Cpl. Wyatt is the son of Mr. and Mrs. Gordon Wyatt, of Laurel Springs. He writes:

"Things are so different here from what you and I have always known that it is rather difficult to begin. I will start by saying that there isn't any timber to speak of, so all the houses are made of stone, including the floors; nice enough if they would keep them clean. Needless to say, they don't.

Very poor roads, but good enough for the way they travel—a buggy and horse or bicycle. Some of the upper class have cars, if you could call them such. I haven't yet seen a decent cow or any beef cattle. A majority of the farmers have small herds of sheep or goats, or both, in
