

Sugar Supply To Continue Short

Havana, Cuba — Sugar rations in the United States will continue at present levels for at least another year, Earl Wilson, director of the Commodity Credit Corporation's (CCC) sugar section, said this week.

Wilson made the disclosure in a press conference after a two weeks' inspection of drought-devastated Cuban sugar cane fields. He was accompanied by Harold Rowe of the Foreign Economic Administration (FEA).

Wilson said the CCC had made an offer of 3.45 cents per pound (f.o.b. Cuban ports) for the 1946 Cuban sugar crop, an increase of .35 cents per pound over the price paid for the 1945 crop.

Describing "severe damage" to Cuban sugar production caused by the prolonged drought, Wilson said, "the sugar picture for the United States is not good for another 12 months. The lack of rainfall throughout producing areas has delayed for at least a year any increase in sugar rations

DR. PIERSON CALLED TO ASTC FOR SUMMER

Boone — Dr. W. W. Pierson, Dean of the University of North Carolina Graduate School, was called to Appalachian State Teachers College this week by reason of the large enrollment of the Graduate School—more than 100% increase over the enrollment for 1944. After consultation with Dr. Pierson, the college secured the services of two assistants in this department, Miss Louise Robles of the DuPont School, Wilmington, Delaware, and Professor Albert Buchholz of Tampa, Fla.

While here Dean Pierson addressed the student body at the chapel period on the subject of "Research in Higher Trends in Higher Education"; the faculty meeting on, "What is Research?"

He declined to predict whether sugar rations might be further cut but said both domestic and industrial consumers "will continue under present tight rationing at least until increased production is assured."

ALL-DAY MEETING AT CRANBERRY CHURCH

An all-day meeting will be held at Cranberry Primitive Baptist church on next Sunday with services to begin at 11 o'clock, it was announced this week.

All persons interested in the Cranberry cemetery are particularly urged to attend the meeting. Graves will also be decorated on that day.

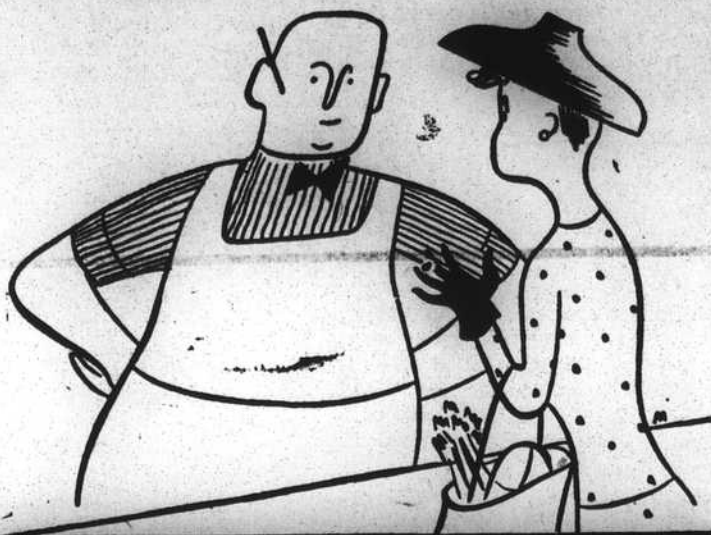

A number of visiting elders are expected to be present, among them, Elds. S. G. Caudill and John Williams.

Dinner will be served on the ground and everyone is asked to bring a basket. The public is cordially invited to attend.

Plans are being made for fifteen schools in different sections of North Carolina during the first half of August for the study of Mastitis, a disease of the cow's udder. All milkers should attend.

The average yield of alfalfa is about 2 tons per acre. Alamance growers have obtained this yield at the first two cuttings and hope to get two additional cuttings.

It takes TWO to make A BLACK MARKET!

Both are violators if --- they do business without ration stamps -- or at over-ceiling prices.

WAR BONDS . . . your way to back the Wacs, Waves

Attention, Farmers

There was to be a plan by which it would be possible to ROTATE the test demonstration farm program in Alleghany county. But, under the present "set-up," Mr. Shoffner insists that the same old crowd should get all the "Hi-Test" phosphate as long as it shows ANY IMPROVEMENT.

It seems that the time is now "past due" when the farmers must organize and do something about the present program, which in Mecklenburg county was recently called "playing ball."

This old crowd has been receiving this special privilege since the program started 12 years ago. There are only 58 members, with a 100 per cent membership in the county commissioners office who in turn appoint the county agent from year to year.
