MEMO TO ADVERTISERS

1 GIVE NEWS and FACTS IN COPY

2 ADVERTISE REGULARLY

3 BUY SPACE CAREFULLY

Three Simple Rules for Profitable NEWSPAPER ADVERTISING

1. Make your advertising copy easy to read, friendly and informative. People read newspapers for the news. Give them facts and news about your merchandise and services.
2. Advertise regularly. Do what successful salesmen do—call on customers and prospects consistently.
3. Protect your advertising investment by insisting on audited circulation reports that tell you just what circulation you get for your money. Guesswork is wasteful.

*In order that you may know just what you get for your money when you advertise in this newspaper, we are members of the Audit Bureau of Circulations. This is a national, cooperative association of more than 2000 publishers, advertisers and advertising agencies. Organized in 1914, the purpose of the Bureau is to establish and maintain definite standards of circulation, audit the circulation records of the publisher members and report this verified information to advertisers.

Annually, one of the Bureau's large staff of trained auditors makes a thorough audit of our circulation. The verified facts and figures thus obtained are issued in an official A. B. C. report.

Our A. B. C. report tells how much circulation we have, where the circulation goes, how it was obtained, how much people pay for it and many other facts that you should know when you buy newspaper advertising. Thus when you advertise in this newspaper your investment is in known and verified value.
